☐ **Check here if you have indicated any special instructions on the back of the permit.**

We, the undersigned, hereby make application to Story County for permission to apply **two applications** of **LIQUIDOW™ Calcium Chloride** for the purpose of dust suppression in the described location. The Applicant agrees to the following:

1. **DEADLINE FOR SIGN-UP IS APRIL 20th.** In order for the county to have sufficient time to prepare the roads before the first application, **no applications can be accepted after this date. There will be no grace period.**
2. To maintain Jerico Services, Inc. flags identifying the outer limits of the area to be treated with calcium chloride. **Flags must be in place by MAY 1st and kept visible until OCTOBER 1st.** Using Jerico Services, Inc. flags will serve to visually remind the blade operator as to the location of the treated area. Failure to identify the treated area may result in your dust control being bladed through. **Neither Story County nor Jerico Services, Inc. can assure proper maintenance and application unless flags are in place by MAY 1st and visible through October 1st.**
3. Weather permitting, the county road department will begin preparation after May 1st. In the event of rain or road deterioration, the county reserves the right to lightly blade dust suppression areas for the safety of the public. Typically, this will not damage your dust suppression and usually promotes better suppression for the end user. **Your road will be thoroughly bladed after October 1st in preparation for winter.**
4. Jerico Services, Inc. does not guarantee the performance of the product due to factors such as weather, surface preparation or heavy traffic patterns. **The use of waste oil in banned**

I have read the entire permit and have provided all data called for herein truthfully and correctly and I agree to abide by all general provisions set forth herein, including those found on the reverse side hereof. I will place flags to mark the area to be treated with the dust suppression material.
