CORE LINE

ODM FITNESS

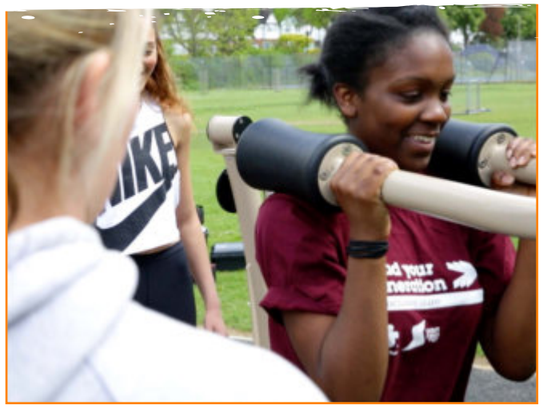
URBANIX

Experience the ultimate challenge! URBANIX Functional Fitness Rig and Training courses puts even the most advanced users to the test with features such as high rings, a climbing rope, cannonball pull-up bar, and much more.

FUNCTIONAL FITNESS

"I like the fact that you can change the resistance on this equipment so you can get a good balanced workout. It's as close as you can get to the indoor gym equipment that you can find in a public space."

- Mr Rob Waite, Green Space Manager, Royal Borough of Kingston, 2018



"We installed a full suite of URBANIX gym equipment here at our prison in late 2014, this equipment has performed very well."

- Mr P. McGovern, Programs and Service Dept. Head. 2022

"In Singapore a 12-week fi tness program for the elderly (BitPAL) helps 80% of participants report increased "strength, fl exibility and balance" for 80% of the participants."

- Dr Ng Yee Sien, 2015

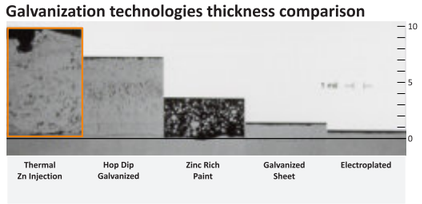
COATING SYSTEM - RUST PROTECTION

Innovative thermal zinc coating allows full and complete coverage. The process leaves the surface with matte finish that requires a textured power coating. Zinc injection has been salt spray tested to meet ASTM B117 and ISO 9227 (48 hours) standard. This is highly recommended for any saline environment like beaches and with saline air up to 5km distance from source. Zinc injection is a standard for the blade line and is a premium service for the core line. Minimum thickness 40-60 micron.

Galvanization technologies thickness comparison



Optional galvanization technologies characteristics

Method	Hot-Dip Galvanizing	Thermal Zn Injection	Electrogalvanizing
Specification	ASTM Al23, A153, A767, CSA G164, ISO 1461	AWS C2.2	ASTM A879
Coating Thickness minimum/ typical	35-75u 1.4-3.9 mils	40-60u 1.6-3.3 mils	3-7u 0.14-0.28 mils
Size	Fasteners to 90' beams	Unlimited	Sheet steel
Cure Time	<1hour	<24 hours	<1 hour
Coverage Consistency	100% and interior; flat surfaces impurities in welding areas	100% exterior. based on operator skill	full coverage on ext surfaces; inconsistent in edges and holes
Bond to Sub-strate Steel	Metallurgical -3,600psi	Mechanical -1,500 psi	Mechanical 300-500 psi
Colour Adhesion	Very low	High	Excellent
Abrasion Resistance/ Hardness	Intermetallic layers 179- 250 DPN	-70 DPN	-70 DPN
Finish/ Appearance	Varies; matte grey, shiny, spangle, or combination	Matte grey, rough	Smooth finish; shiny, unless passivated

Thermal Zinc vs Pre galvanized after 45 days

Warranty

The Urbanix warranty is more than just a word, it's a personal commitment that you will be satisfied with your purchase. In our many years of selling outdoor fitness equipment, rigorous testing and field use of our products has resulted in top quality machines with proven high performance. We are confident that you will get your money's worth. Guaranteed customer satisfaction, thicker steel, better paint, galvanization and superior design are just some of our advantages.

All products come with a warranty

The warranty assumes that all products are shipped free from manufacturing defects in materials, structure, workmanship or finish. The warranty does not include damage resulting from abuse, negligence, misuse, extreme weather conditions, accidents, shipping damage, fire, flood or any other condition that would not be considered normal use or normal facility application. Any warranty disputes will be at the sole discretion of the manufacturer who reserves the option to replace, repair, or refund if the product is found defective upon inspection. A clear photograph of the defect also may be necessary
to support the claim.

2 Year
Top standards - Top quality

2 Years

For all Urbanix fitness equipment parts including bearings, hydraulic system, seats and handles against structural failure due to manufacturing defects.

5 Year
Top standards - Top quality

5 Years

For Urbanix product line structural integrity, main posts, steel tubes and welding procedure against structural failure due to manufacturing defects.

15 Year
Top standards - Top quality

15 Years

For Urbanix products stainless hardware and aluminium components against structural corrosion.
