SB-258 Ingredient Disclosure Notice

3/2/2026

Dear customer,

Your product falls under the requirements for ingredient disclosure pursuant to SB-258, the CA Cleaning Product Right to Know Act of 2017. As per the guidelines of this act you are required to disclose the ingredients of this product both on your label and on your website. We have provided a table of ingredients below as well as the ingredient disclosure statement which must appear on the label. This table in its entirety must be placed on your website in an electronically readable format, prior to selling the product in the state of California. Failure to do so may result in fines or other actions from the State of California.

If you have any questions about the requirements of SB-258 please contact us at kory@echemproducts.com

Online Disclosure:

Product	Ingredient	CAS #	Function	Notes
CPI Encapsulated Carpet Cleaner	Water	7732-15-5	Diluent	
	Sodium Caprylyl Sulfonate	5324-84-5	Cleansing	
	Acrylate Copolymer	Proprietary	Surfactant	
	Methylglycinediacetic Acid	164462-16-2	Chelating agent	
	Perfume	Proprietary	Perfuming	
	Benzisothiazolinone	2634-33-5	Antimicrobial	
	Methylisothiazolinone	2682-20-4	Preservative	
	Methylchloroisothiazolinone	26172-55-4	Preservative	

On Label Disclosure:

You have two options for on label ingredient disclosure. Option one is to disclose only those items which appear on Lists of Concern as defined by the text of the act, as well as any fragrance allergens. If using option one it must be followed by a statement that leads to a location where more ingredient information can be obtained. Option two is to disclose all intentionally added ingredients including fragrance allergens. It is up to you which one you would like to use. In either case, the above online disclosure must also be available.

Option 1

For ingredient information visit our website at www…..com or call us at 888-888-8888

Option 2

This product contains Water, Sodium Caprylyl Sulfonate, Acrylate Copolymer, Methylglycinediacetic Acid, Perfume, Benzisothiazolinone, Methylisothiazolinone, and Methylchloroisothiazolinone.
