"Marcus is great, but I always feel like he micromanages every project. It gets frustrating when he is always looking over my shoulder."
"Marcus always knows whats going on at any given point of the project, but sometimes it just seems like its too much, trust me to get my work done. "
"Marcus is always at work, sometimes I joke with him that he lives at the office. It would be nice\nto see him take a day off."
"Marcus is always working, but he always seems stressed and is difficult to work with."
