California Proposition 65 Statement of Compliance

Product: 906-3003 Oat Oil
Ingredient Nomenclature: *Avena* sativa (Oat) Kernel Oil

This document is provided by Ceapro Inc., based on information supplied by the manufacturer of **Oat Oil**. Ceapro Inc. has not independently verified this information, and all technical, regulatory, and performance statements remain the manufacturer's responsibility.

California Proposition 65 (the Safe Drinking Water and Toxic Enforcement Act of 1986) refers to the California legislation that was intended by its authors to protect California citizens and the State's drinking water sources from chemicals known to cause cancer, birth defects or other reproductive harm, and to inform citizens about exposures to such chemicals. Proposition 65 requires businesses to notify Californians about significant amounts of chemicals in the products they purchase, in their homes or workplaces, or that are released into the environment.

By providing this information, Proposition 65 enables Californians to make informed decisions about protecting themselves from exposure to these chemicals. Proposition 65 also prohibits California businesses from knowingly discharging significant amounts of listed chemicals into sources of drinking water.

Based on our knowledge of the raw materials, product composition, and manufacturing processes used for our products, substances included on the State of California's current Proposition 65 list (July 31, 2026), are not intentionally added to or used in the manufacture of our products. Accordingly, based on the information available to us, our products do not require a Proposition 65 warning.

Yours sincerely,

Emily Wong
Quality Manager,
Ceapro Inc., a subsidiary of COSCIENS Biopharma
