IN-MOTION CELLULAR KIT

COMET

CARRIER VOICE, TEXT AND WI-FI WITH SATELLITE BACKHAUL CASE

Coverage that moves with you.

Reliable cellular, text and Wi-Fi coverage on the move.

COMET In-motion Cellular Kit pairs a Verizon or AT&T/First Net cellular network extender with a Starlink Mini for satellite backhaul. It restores dependable voice, text and Wi-Fi wherever commercial coverage is weak, congested or down—and supports true in-motion operation from 12V vehicle or battery power.

KEY CAPABILITIES

- Cellular and Wi-Fi in one case — voice, text and data for field teams.
- Carrier choice — Verizon or AT&T/First Net configuration per case.
- Starlink Mini backhaul — operates where cellular coverage is unavailable.
- In-motion ready — roof-mountable Starlink maintains the link while moving.
- 12V power — runs from a vehicle outlet or battery source.
- Rugged and portable — built for heat, cold, dust and vibration.

When networks fail, the mission can't wait

Disasters, remote terrain, and surging demand routinely outpace fixed networks. A traditional Cell-on-Wheels can take weeks to months to arrive. Teams need coverage that deploys in minutes — and works when everything else fails.

Infrastructure fails

Storms, wildfires, and outages knock out cellular exactly when it's needed most.

Coverage gaps

Rural, tribal, and remote areas are routinely beyond reliable carrier reach.

Too slow to deploy

Permanent builds and carrier COWs take weeks — response can't wait.

Missions move

Events, worksites, and operations shift location and demand constantly.

BUILT FOR

Disaster recovery • First responders • Utility crews • Off-grid operations • Events and temporary sites

DELIVERED THROUGH THE COMET PARTNER ECOSYSTEM

RAPID DEPLOYABLE CONNECTIVITY

COMET
IN-MOTION CELLULAR KIT

Coverage that moves with you.

WHAT'S INCLUDED

- Verizon or AT&T/First Net network extender
- Starlink Mini satellite terminal
- Roof-mount kit for in-motion use
- 12VDC and Starlink power supplies
- GPS antennas and fuse block
- Integrated wiring and adapters

OPTIONAL ADD-ONS

- Extended battery solution
- Vehicle installation support
- External antenna options
- Managed monitoring services
- Additional rugged transport accessories

TARGET INDUSTRIES

- Public safety
- Emergency response
- Utilities and energy
- Disaster recovery
- Remote field operations
- Events and temporary sites
- Government and defense

OPERATIONAL BENEFITS

- Deploys in minutes
- Restores voice, text and Wi-Fi
- Works beyond commercial cell coverage
- True in-motion satellite backhaul
- Carrier-specific configurations
- Rugged hand-carry portability

WHY COMET IN-MOTION CELLULAR KIT

Field teams often need ordinary phones to work in extraordinary places. Comet In-Motion Cellular Kit uses satellite backhaul to bring a selected carrier network extender online, creating practical cellular, text and Wi-Fi coverage for the whole team—at a stop or while the vehicle is moving.

INDIGITECH
A Division of Teltech

MISSION READY

Power on. Acquire the satellite link. Put cellular coverage back in service.
