Gateway SAFETY

Selection Chart

Safety Lenses & Icons

Lens Selection Chart

More than ornamental, Gateway Safety lens options serve a specific function. This lens selection chart provides a general guideline for use. However, always consult your safety director to determine the proper lens option for each application. Unless otherwise noted, all Gateway Safety lenses feature an antiscratch coating for extra durability and block 99.9% of UVA, UVB and UVC light, up to 380 nm.

These un-tinted lenses are ideal for indoor and general purpose applications.

Clear

These lenses provide a significant level of contrast, particularly in low-light applications.

Amber **Pacific Blue**

These tinted lenses significantly reduce bright light to minimize eye strain and fatigue.

Gray **Mocha**

These lenses reflect some bright light while allowing a moderate amount of light through the lens.

Clear In/Out Mirror **Bronze Mirror** **Pink Mirror**

These mirrored lenses significantly reflect bright light to reduce eye strain and fatigue.

Red Mirror **Silver Mirror** **Blue Mirror**

IR filter lenses are for use around light welding, brazing or cutting applications only.

IR Filter Shade 5.0

VLT Chart

VLT (Visual Light Transmittance) is the amount of visible light (+/- 2%) that passes through the lens.

Clear	92%	Pink Mirror	37%
Amber	89%	Red Mirror	14%
Pacific Blue	62%	Silver Mirror	23%
Gray	14%	Blue Mirror	23%
Mocha	23%	IR Filter 5.0 Shade	2%
Clear Indoor/Outdoor Mirror	50%		
Bronze Mirror	50%		

Protection Icons to Look For

Each icon packs a lot of information into a little bit of space. Don't take them lightly. When choosing personal protection, consider whether the "mark" is appropriate for your application.

When you see the **ANSI Z87.1+ Certified** icon, you know that both Gateway Safety and an independent, third-party laboratory regularly test and certify that this product meets or exceeds the ANSI Z87.1+ standard.

When you see the **CSA Z94.3 Certified** icon, you know that both Gateway Safety and an independent, third-party laboratory regularly test and certify that this product meets or exceeds the CSA Z94.3 standard.

When you see the **Meets ANSI Z87.1+** icon, you know that Gateway Safety regularly tests and certifies that this product meets or exceeds the ANSI Z87.1+ standard.

When you see the **Meets CSA Z94.3** icon, you know that Gateway Safety regularly tests and certifies that this product meets or exceeds the CSA Z94.3 standard.

When you see the **Meets U.S. Military Ballistic Impact Requirements** icon, you know that Gateway Safety tests and certifies that this product meets or exceeds the ballistic impact resistance requirements for eyewear in US Military Performance Specification MIL PRF-32432(GL).

When you see the **99.9% UV-A, UV-B and UV-C Protection** icon, you know that Gateway Safety regularly tests and certifies that this product blocks 99.9% of UV-A, UV-B and UV-C radiation up to 380nm.

When you see the **c-UL-us LISTED** icon, you know that Underwriters Laboratories is the independent, third-party agency that has certified that this product meets the ANSI Z87.1+ and CSA Z94.3 standards. Confirmation can be found in their Online Certifications Directory at www.ul.com.

When you see the **UL LISTED** icon, you know that Underwriters Laboratories is the independent, third-party agency that has certified that this product meets the ANSI Z87.1+ standard. Confirmation can be found in their Online Certifications Directory at www.ul.com.

When you see the **fX³** icon, you know this product is available with our premium fog-fighter, which is longer-lasting and more effective than competing anti-fog products.

When you see the **D3** icon, you know that Gateway Safety tests and certifies that this product meets ANSI Z87.1-2015 requirements for the **D3** (droplets/splash) rating.

When you see the **D4** icon, you know that Gateway Safety tests and certifies that this product meets ANSI Z87.1-2015 requirements for the **D4** (dust) rating.

All certification information is accurate as of the print date of this catalog. For updated information and certifications visit (www.ul.com).

Chill Tie®

Heat Stress Prevention

Chill Tie®

The ultimate Chill Tie® for active wear is a kerchief filled with a special non toxic polymer, that when soaked in water activates and will keep you cool for hours. Chill Tie® cooling neck ties are made of durable cotton or poly-cotton blended fabric to ensure durability and comfort.

- **Chill Tie® is proudly made in the U.S.A.** by professional garment makers
- Finished tie ends are stronger and less likely to tear or fray, providing prolonged use of your tie
- Edges are sewn on smoothly and not bound, for better comfort and longevity
- Each tie is individually wrapped and labeled with activation instructions
- Non toxic and environmentally friendly
- Special polymer expands multiple times in size, preventing it from leaching through material

Batteries

Alkaline & Non-Alkaline

Since its commercial introduction in 1959, the Alkaline battery has advanced to a dominate position in the portable battery market. This came about because the Alkaline system is recognized to have several advantages over Carbon-Zinc batteries, which are:

- Greater cost savings
- Higher energy density
- Superior service performance at all drain rates
- Superior cold temperature performance
- Longer shelf life
- Greater resistance to leakage

Note: Batteries have a shelf life of 7 years, with the exception of the 9V battery, which has a 5 year shelf life.

GFCI Plugs

LE Inline & Triple Tap

TOWER Manufacturing Corp.

Inline GFCI Cord

- Protection: Open and grounded neutral
- Operation temp range: -35° C to +66° C
- Cord: 12/3 AWG SJTW
- Rating: 15 amp, 125 volt/60 Hz, 1875W
- Surge suppression: 160 joules
- Protection for 2-and 3-wire grounded appliances and tools
- UL listed, CUL approved and meets OSHA standards for construction site usage
- Allows for compliance to NEC Article 527 “temporary installations”
- Rainproof rated, impact-resistant and LED power on indicator
- Fits most indoor and outdoor receptacles

WARNING: This product can expose you to chemicals including Lead, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov
