Informed Consent: Parents and Guardians REPWA LS

Hello,

You are receiving this form because a minor listed you as a parent or guardian in their registration to participate in a research Listening Session for the Charles Mitchell and George Floyd Study on Reparative Action. **In turn, you must provide written consent in order for them to participate.**

Informed Consent: Parents and Guardians REPWA LS

STATEMENT OF CONSENT

Your child is being invited to participate in a research study because they are part of the community of study (A Washingtonian likely a descendant of U.S. chattel slavery). Before you decide whether to allow your child to participate, please read the information below carefully and email Dr. Ashley Gardner (Ashley.gardner@truclusion.com), the project principal.

The Purpose of the Study: This listening session is part of the Charles Mitchell and George Washington Bush Study on Reparative Action and seeks to understand community perspectives on reparations and reparative action in Washington State.

Time Commitment: Participation will take approximately 1–2 hours.

What Participants Will Be Doing: Participants will engage in facilitated discussion and may be invited to respond to anonymous poll questions during the session.

Voluntary Participation: Your child's participation is voluntary. Your child may choose not to answer any

EXHIBIT O

Voluntary Participation: Your child's participation is voluntary. Your child may choose not to answer any question and may leave the session at any time.

Potential Risks: Some questions may involve sensitive topics and may cause discomfort. While the research team will take steps to protect your information, there is a small risk of loss of confidentiality associated with online participation.

Benefits: There is no direct benefit to participating. However, your child's input may contribute to a greater understanding of what reparations should look like for descendants of enslaved African peoples.

Confidentiality: Identifying information collected during registration will be stored securely and separately from listening session responses whenever possible. Findings will be reported in aggregate, and no identifying information will be included in reports or publications.

Future Research: De-identified data may be used for future research studies or shared with other researchers

without additional consent.

Questions: Contact Dr. Ashley Gardner at ashley.gardner@temple.edu or ashley.gardner@truclusion.com.

Participant Rights: This study has been reviewed by Temple University's Institutional Review Board (IRB).
