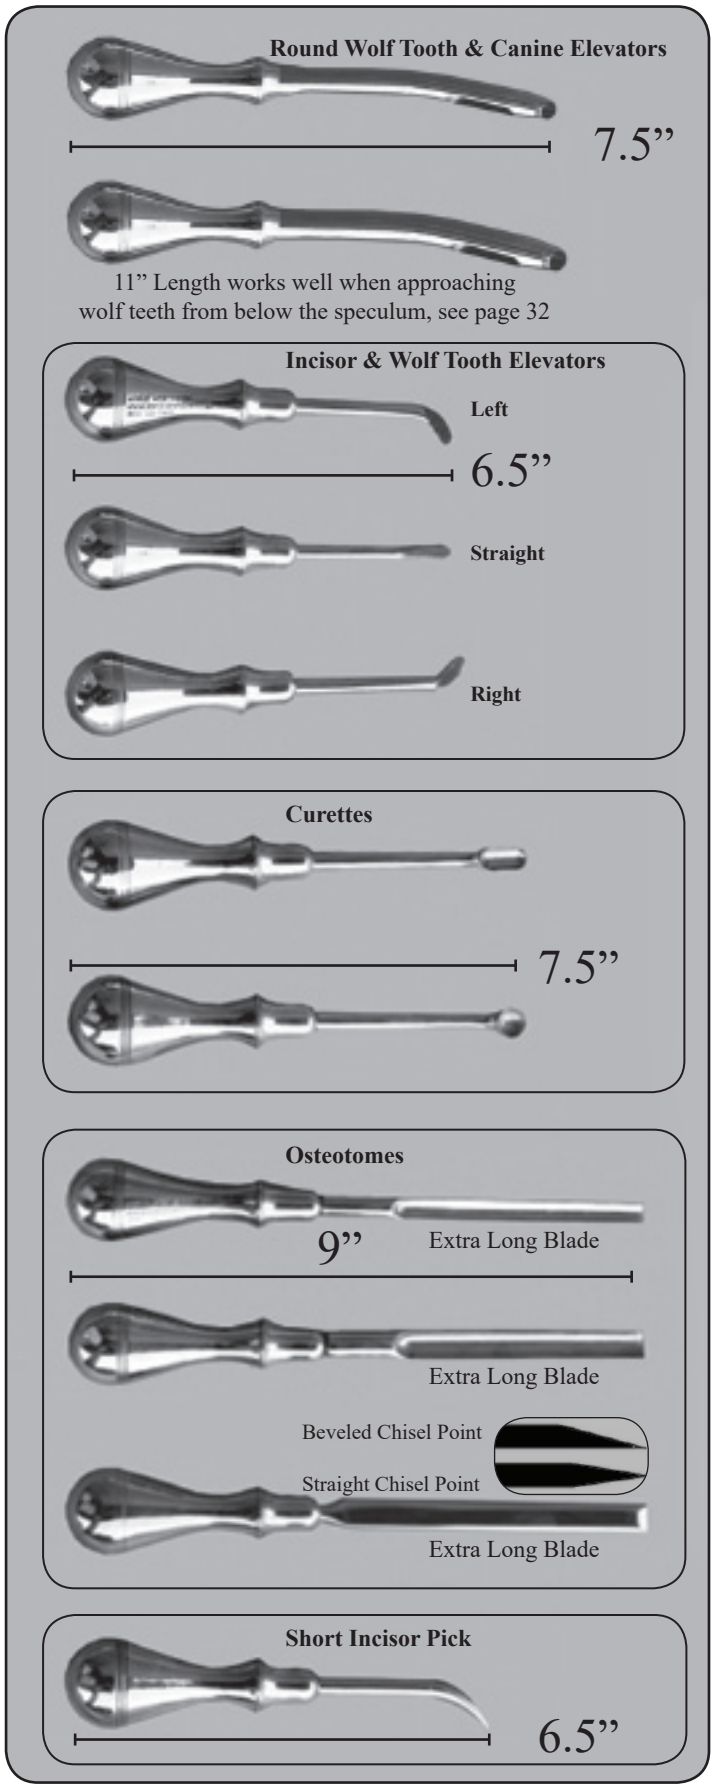
# WWE Bulb Handled Instruments —



## World Wide Equine Hardened Tool Grade Stainless Steel Bulb Handled Elevators, Curettes, Osteotomes & Picks

The solid stainless steel handles of these instruments have great weight and feel. They don’t get lost in your hand like some lighter instruments. The cutting blades are made from hardened tool grade stainless steel, creating long lasting edges.

All are made in house at World Wide Equine, Inc., Glenns Ferry, Idaho, USA.

Miniature S/S Poly Gag Double Miniature S/S Poly Gag

## Double Jeffrey Mouth Gag

Incisor work may be performed more easily by doubling the Polypropalene Jeffrey Gags. One gag is used for each arcade while they are held in place with a strap over the poll. By using two gags excessive unbalanced TMJ pressure is kept to a minimum. Horses are more receptive to incisor work given the even amount of pressue throughout the jaw and head. This set of double gags comes with an off cheek hook enabling the use of one at a time if needed.

Low profile 7000 Series floats may be ordered with a pistol grip handle (right) or an Ian Wharton handle (left). Add PG to your part number for Pistol Grip style handle or IW for Ian Wharton style handle. ***Please specify head angle and one of two types of blades, regular or fast cut in fine or medium carbide.*** All handles can be sealed with a plastic coating for an additional charge. The shorter lengths of the 7000 series floats are often ordered for use on small and miniature horses because of their narrow low profile head.

# 7000 Series Float and Blade Detail —

## ONE INCH UPPER BACK 7000 SERIES SLIM-LINE PRO-LITE FLOAT

One Inch Tungsten Carbide Blades

Medium

Fine

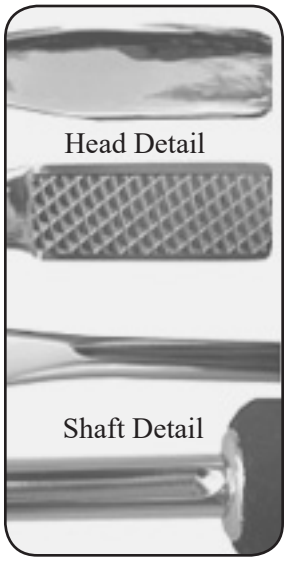
Upturned Head Detail

| Order # | Description | Price |
|---|---|---|
| 231 7000 18 01 15 UP | 18" 15° Upper Back With Carbide Blade | $259.00 |
| 231 7000 01 Fine | 7000 Series 1" Fine Tungsten Carbide Replacement Blade | $86.95 |
| 231 7000 01 Medium | 7000 Series 1" Medium Tungsten Carbide Replacement Blade | $86.95 |
| 231 7000 01 Resharp | Resharpen 1" Blade | $45.00 |
| 231 7000 Tape | Replacement Tape Per Foot | $11.00 |

To place your order for the 7000 Series Slim-Line Pro-Lite Floats all of the following information is needed:

Shaft Length
Angle of Head
Blade Type
*Fine or Medium*
Handle Style
*If not ordering straight*

Floats are shipped with medium blade if not specified otherwise.

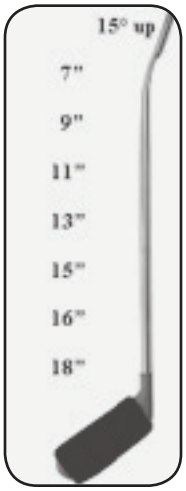


All 7000 Series Floats are available in pistol grip or Ian Wharton style handles in any of the lengths pictured at right.

Please add **PG** for Pistol Grip or **IW** for Ian Wharton style handles to your part number when ordering.

The milled groove in the shaft of the straight handled 7000 series floats aids in determining float head angle when placed within the mouth.

*Plastic coating may be applied to foam handles at our factory. They cannot be shipped as replacement handles. They are easy to clean and better for cold weather. Factory Part #: DIP--$14.50*



## Instructions for Changing 7000 Series Blades

**Removal of Old Blade:**

1. Heat back side of float head with hot water
2. Pry blade loose with a fine bladed screwdriver or knife
3. Remove left over tape from head channel
4. Clean with acetone; do not touch cleaned surfaces

**Attaching New Blade:**

1. Remove backing from tape on new head
2. Attach blade to float head
3. Protect cutting surface with cloth and apply even pressure
4. Trim excess tape

Fine Carbide

Medium Carbide

## 1" by 8" Diamond Incisor and Canine Tooth Files With 4" Blade Coated on Two Sides and Both Edges

Top gnathological practitioners report that these are the finest, fastest and longest lasting stainless steel diamond coated files they have ever used. Many reports state that horses don't seem to mind work performed with these floats as much as other types of instrumentation.

Floats are coated with fine quality diamonds on two sides and both edges.

**Plain File: #260 356 8** **Price: $153.67**

**Foam Handle: #260 356 8** **Price: $157.67**

### *Dipped Foam Handles*

Available in Black, Red, Yellow or Blue
Color Coded Dip, $14.50 @ On New Floats
Color Coded Dip & New Handles on Used Floats $19.00
Floats Refurbished or Rebuilt: Normally about 1/2 Price
Please ship floats to our factory with instructions.

Dipped handles are easier to clean, mildew resistant and better to work with in cold weather. They still have their original shape and feel but are longer lived and the color coding lets you find the one you need when working. All handles need to be dipped at the factory. Floats may be returned for new handles and dip at any time.

# Capps Floats

| 225 6000 17 00 14 | 17” 14 Insert Straight Lingual and Buccal Float | $386.65 |

**Shaft Lengths Do Not Include 8” Handle Length**

***All Capps floats come with standard inserts unless others are specified.***

You may custom order any float with a pistol grip, Ian Wharton handle or any angle head or shaft length. Custom orders are not normally in stock, taking slightly longer to build and deliver. There may be a slight additional charge depending on the complexity of the request.

All 6000 Series Capps Floats have long life secure three sided, carbide pinned inserts. Straight handled floats have milled shafts to aid in float placement. They include 8” long Pro-Lite handles for better grip and easier handling. The triangle heads allow easier oral access, greater comfort for the horse and less soft tissue damage. Foam handles may be plastic coated for easier cleaning and use in cold weather.

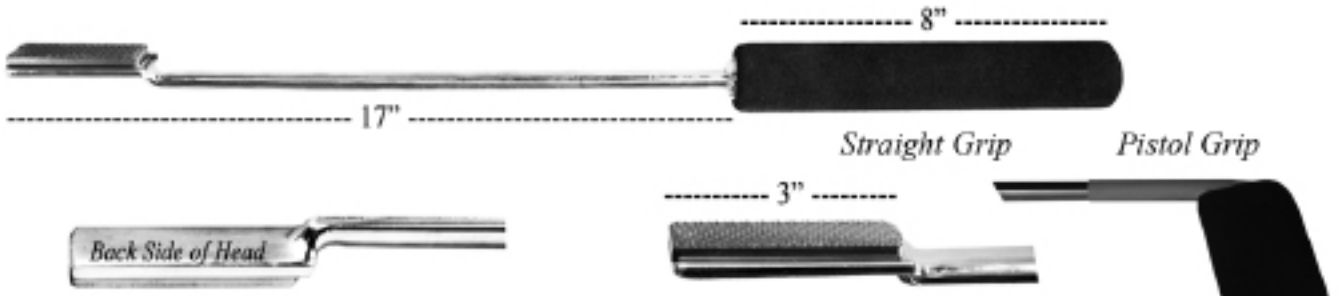
## *S/S 17" WWE Low Profile Float With Regular or Fast Cut Blade*

Low Profile Straight Grip Float With Regular Cut Blade, Part Number: 207 LP 17 $279.00
Low Profile Pistol Grip Float With Regular Cut Blade, Part Number: 207 LP 17 PG $279.00
Low Profile Straight Grip Float With Fast Cut Blade Part Number: 207 LP 17 FC $306.00
Low Profile Pistol Grip Float With Fast Cut Blade Part Number: 207 LP 17 PG FC $306.00



Available in 7", 9", 13", 15", 17", 19" and Short 4" Incisor Lengths
Option: Dipped Handle Colors of Red, Yellow, Blue and Black; Add $14.50@

When you want a float to get the work done this is a wise choice. This instrument reduces the (bulk) overall size of the head about 40% over standard slide in blades making it easier to get around sore lacerated cheeks, back ramps and protuberant teeth. Some of the better practitioners report they do 80% of their work with this float and get along well with the horses.
