## Private Treaty Bull Sale

OPEN HOUSE & SALE KICK-OFF  
SATURDAY, FEBRUARY 27, 2021  
NOON | COMPLIMENTARY LUNCH  
1:00 PM | BID-OFF

### *Sale Location:*

At the Farm | 1308 Quebec Ave | Stuart, IA 50250

From Stuart exit on I-80 (Exit 93):

3 miles south on Stuart Road. 4 miles west on 130th.

From Menlo exit on I-80 (Exit 88):

3 miles south on Pinewood Ave. 1 mile east on 130th.

### *How the Bid-Off Works:*

All bulls will be listed for sale with a base price. Interested buyers can commit to the base price listed for the bull(s) they are interested in. If more than one buyer is interested in the same bull, a bid-off will take place at 1:00 PM on Saturday, February 27 until a winner is determined. Buyers need not be present to place bids but must be available by phone at 1:00 PM. Bulls with multiple buyers listed will sell first in catalog order.

If any bulls are still available, they will be sold privately on a first come, first serve basis after Kick-Off Day. Bulls are considered sold once payment has been received.

### *Sale Consultants:*

Wes Chism | 281.761.5952

Myron Benes | 402.741.2040

Donnie Leddy | 605.695.0113

### *Videos:*

Videos of sale bulls are available on our website at [www.ShepherdCharolais.com](http://www.ShepherdCharolais.com) approximately two weeks prior to the Open House.

### *Trucking and Delivery:*

Free Delivery on bulls within 250 miles or credit towards the first 250 miles. \$100 will be deducted from each bull if taken home sale weekend. This applies to purchases over \$3,000.

### *Health:*

All bulls have been semen tested and passed a breeding soundness exam. All bulls are virgin bulls unless otherwise noted. They will sell with proper health certificates and test for intrastate travel issued by Stuart Vet Clinic, Stuart, IA. They have been boosted with ViraShield 6 and poured with Cydectin. All the work has been done. They are ready to turn out and go to work for you.

### *Bull Guarantee:*

All bulls are guaranteed to be fertile and come with a one breeding season guarantee. This applies to reproductive soundness and feet. Breeding season is defined as 90 days following the first turn out of the bulls. Please notify us as soon as possible when an injury occurs. Injuries must be examined by a veterinarian. If a suitable bull is available for replacement, we will replace the bull. If there is no replacement available, you will be given sale credit at our next sale towards the purchase of a replacement bull minus salvage value.

Dear Friends and Fellow Cattlemen,

You are personally invited to our Open House and Private Treaty Bull Sale Kick-off on Saturday, February 27, 2021.

Join us at the farm just outside of Stuart, IA. The bulls will be on display in this relaxed atmosphere for our customers and the animals. It gives us the opportunity to visit with you one-on-one about your bull buying decision, answer any questions you have about the bulls, and you the opportunity to see the heart of the operation. This year, we have decided to offer the Angus bulls as part of the Open House and Kick-off. They will follow the Charolais at 1:00 PM.

2020 had its share of challenges for all of us! Covid broke loose impacting everyone in numerous ways. Summer brought severe drought conditions that impacted us and many of our customers. Dry lotting some of the herd, grazing CRP, and hauling water became the norm in our area for several months. We are sure thankful that both herds have been built around real-world conditions similar to commercial cattle herds where cows are part of the herd because they work.

With all the uncertainty in the world, we felt blessed to live in a rural area, be part of the ag and cattle industries, and have the faith and friendship of our neighbors and customers. We want to make sure the health and safety of our customers comes first, especially with Covid still a concern for many. All the bulls have been videoed. The videos can be found on our website or YouTube channel. If you'd like to see them in person, they can be viewed anytime at the farm by appointment. We will have supplement sheets with scrotal measurements, carcass data, and yearling weights on the Angus available the week prior to the sale on our website. This information can also be emailed or faxed upon request. Base prices will be available upon request starting on Thursday prior to the sale. We will also have several individuals available on sale day to take phone bids during the bid-off. If you purchase sight unseen, we have a 100% satisfaction guarantee.

Thank you for your interest in our offering. Your success is our success. Your success and continued support are what makes it possible to continue to offer bulls like these to you. The sale doesn't end when we deliver the bulls. The relationships we have with each one of you is what is really important. We enjoy seeing you, chatting about your family, life and cattle, hearing how the bulls and calves are doing, getting pictures, and staying in touch.

Please don't hesitate to contact either of us if we can be of any help with your bull selection. We look forward to doing business with you.

See you on February 27th!

Sara and Dan

### *Feeding & Care:*

For your convenience, you can leave your bull here to continue to be developed until April 1st. This service is provided to customers free of charge for the base price listed on each bull. After April 1st, there will be a charge of \$4.00/head/day. We will do everything in our power to keep the bulls safe and healthy. However, once sold, they become the property and risk of the purchaser.

Dan has said this one is a stud since he was a calf. Raised by a first calf heifer, she did a heck of a job! He has the low birthweight, thickness, and growth of the Affinity calves. He has a definite look with his thickness, depth of body, and sound structure. You'll see more Affinity calves in the future as we've chosen to AI our heifers to this calving ease specialist. 9058's sire, Patriot, has become a go-to bull in the Charolais breed for performance, maternal traits, structure and disposition. Sara selected and purchased 1/2 interest in this cow to add to her donor lineup. She has produced outstanding calves and this mating is no-miss. This dam comes directly from the Eaton Charolais herd in MT that boasts of 1,500 registered purebreds with a focus on functionality. Solid structure, frame, good feet, and longevity are built into this bull. Top 15% Marb

This is the youngest bull in the fall group but checked all the boxes so didn't get cut. Last year was the first year we offered sons from our walking herd sire, Watt. With more fall calves out of him and his first calf crop of heifers starting to calve, he continues to impress. Good structure, sounded footed with lots of bone, quiet disposition, growth, and nice udders on the heifers. We think his progeny are what our customers are looking for to put to work in their herds. 9063 is out of a beautiful New Standard and Smokester daughter whose son was in last year's sale. Herd Sire Alert! Outcross pedigree, calving to weaning and yearling spread, quiet disposition, sound structure, and EPDs to match – what else are you looking for? Fargo sons are becoming more and more popular in Charolais circles for exactly these reasons. They work and his females are making their mark. This Cool Rep dam out of the M&M Dispersal featured Donor keeps making good ones! Her first son in 2018 was retained to be our heifer herd sire. Her second daughter made the replacement pen and just calved. This one is hard to let go but we offer our best. Top 1% WW, Mtl; Top 2% YW, Top 4% TSI, Top 7% CW, Top 10% SC, Top 15% REA, Top 20% Milk

Here's the final Watt son available this year. He's a unique combination of two of our walking herd sires, Watt and Big Flirt out of a daughter of one of our favorite donors - dam of Lot 3 and 13. He's also the youngest bull in this year's sale but you can't tell it. He's grown like a weed and packed with muscle. These two Watt yearlings come from Ava Rectenbaugh's herd. She bought 3 bred heifers from me four years ago as part of the Adair County Heifer Project. She's done a good job learning about the Charolais breed and how to raise good animals. Top 10% CW, Fat; Top 20% REA

Last bull of the catalog is the youngest bull in the offering but he'll catch your eye in the pen. Plus, his 9 year-old-dam has stayed in the herd for a reason too with a 375 day average calving interval and average weaning ratio of 99. She's done a good job! Top 10% \$M

## Using EPDs for Selection:

Cattle Evaluations use the term Expected Progeny Differences (EPD) to express genetic transmitting ability of a sire for the various traits listed. An EPD is a prediction of how future progeny of a sire are expected to perform in a particular trait relative to other sires in the analysis. The key word is "difference". The EPD itself does not imply "good" or "bad" performance. But rather, the EPD gives a prediction of the average difference to expect in the performance of a sire's progeny relative to other sires in the same analysis.

## Charolais Breed Average EPDs:

	CE	BW	WW	YW	Milk	MCE	MTL	SC	CW	REA	FAT	MARB	TSI
