Annual Meeting Report
Road Committee
December 4, 2012

The Master Road Plan, prepared by the Committee and updated annually, is intended as a planning tool for the Board of Directors to maintain all Island roads, less the causeway, in a reasonable operating condition and within the Association budget.

The Road Committee consists of Glenn Barbee, Bill Lieb and Vann Goodloe.

Board of Directors' approval for 2012 included resurfacing Red Cedar Street (West), the entrance to North Shore Court, shoulder repair on Innerarity Point Rd. and seawall repair on the Community Lot for a **total cost of $37,760**. Additionally, minor pot hole repairs were made on North Shore Road, Seascape Drive and Eggret Circle and a gate floodlight was replaced.

The next roadway scheduled to be resurfaced is North Shore Road (South) in 2014.
