ABOUT US

Founded in 2024 and based in Dubai, UAE, Vizcraft is a creative 3D visualization studio established by two passionate designers with over 12 years of experience in the industry. Our roots are in architectural visualization and crafting photorealistic environments that bring blueprints to life.

But we don't stop there.

Vizcraft is actively expanding into interior design and commercial product visualization, driven by a desire to explore new creative territories. We combine technical precision with artistic vision to turn ideas into immersive visual experiences. Whether it's a skyline-defining tower or a product ready for launch, our goal is to make the invisible, visible.

WHAT WE DO

3D Architectural Visualization

Interior Renders

Product Visualization

Graphic Design

Animations & Video Editing

Our Collabs:

Sidra at AZIZI · Tonino Lamborghini · GULF LAND · HAO architects · OANLIFE PROPERTIES

OUR CREATIVE PROCESS

Every Vizcraft project blends precision and creativity, guided by a flexible process built around the client's vision.

Discovery	Concept Development	3D Modeling	Lighting & Materials	Review & Feedback	Final Render	Delivery
We listen first understanding your vision, goals, and creative direction.	Moodboards and early layouts explore design paths aligned with your brand.	Detailed, precise models built to reflect your design intent.	Photoreal lighting, textures, and mood bring the scene to life.	We refine with your input ensuring alignment every step of the way.	High resolution visuals with professional grade post-production.	On-time handoff, in your preferred format ready to use and share.

What we need

AutoCad Files - 3D Models - Reference Images - Materials - Furniture Schedule - Landscape Plan

ARCHVIZ EXTERIOR

Environment created by our passionate team of 3D Crafters.
Aziz Riviera Master plan community
- Dubai, UAE

Facade - Entrance Drop off Area
- Dubai, UAE
