Experiential Learning Projects with International Organizations

For study abroad programs and home-campus courses

My Global Internship

Overview

Student teams address an authentic business challenge posed by an international organization, supported by mentor guidance and culminating in a professional presentation to the client. My Global Internship manages the project from start to finish, while faculty retain academic oversight and assessment.

Project Structure

1. **Scoping:** Learning outcomes, student level, and timeline are defined with faculty.
2. **Partner matching:** An international organization is selected and briefed on a suitable challenge.
3. **Implementation:** Student teams complete the project with mentor support. A student team leader serves as the main point of contact among team members, the client representative, and My Global Internship.
4. **Presentation:** Teams present findings and recommendations to the client.

Program Formats

- **Study abroad programs:** Hybrid projects that combine on-site experience with remote client collaboration.
- **Home-campus courses:** Fully remote projects that bring international engagement into the classroom.
- **Duration:** Adaptable from short faculty-led programs of a few weeks to a full academic semester.

Institutional Value

- Applied learning through direct engagement with international clients
- Global competencies developed for students on campus and abroad
- Full administrative coordination by My Global Internship: client sourcing and vetting, project scoping, agreements, scheduling, and client communication
- Student leadership development through the team leader role
- Defined deliverables that support assessment and program reporting

Student Perspective

"This experience was helpful to both my professional and personal goals. Through it, I was able to experience more of my desired field of work before starting my career. Additionally, I sharpened my time management skills, improved my critical thinking and problem solving skills, and enhanced my ability to work with different cultures. I carried out specific social media marketing campaigns, made networking connections that will last a lifetime and kick-started my career."

— A. Diaz, Florida International University
