My Global Internship

Internship Placement Options

Remote internships with global organizations. Choose the level of support that fits you.

What goes into every placement

Months of research
Every host company is the result of months of research.

Years of relationships
Built over years with host companies we know and trust.

Real learning
Each host offers a true educational experience, not busy work.

How it works

1. **Apply.** Tell us your field, goals, and availability.
2. **Match.** We find and confirm a host organization for you.
3. **Confirm.** You review and accept the written agreement, then pay your fee.
4. **Start.** Begin your internship with the support in your chosen option.

Good to know

- Internships are **unpaid** and are not arranged for academic credit unless you agree otherwise with your school.
- The fee is due when your placement is confirmed, before you start. Pay by card (Stripe) or bank transfer.
- If you withdraw after your placement is confirmed, the fee is non-refundable. If your host cancels or we cannot deliver what we promised, you receive a replacement placement or a full refund.
- Prices are in US dollars and may change; the price you accept in your written agreement is the price you pay.
