2800 SERIES WHITE 2K WATER-BASED POLY TOPCOATS

CENTURION WOOD COATINGS

This is the benchmark for water-based, 2K, white, polyurethane topcoats!

The 2800 Series True 2k Water Based Technology is a premium sealer/topcoat offering excellent chemical and humidity resistance with outstanding color fastness and resistance to UV degradation. The fully cured film provides superior resistance to abrasion and black heel marks. Designed for a variety of high-end architectural millwork, hardwood flooring, and cabinetry. Made with greener, "new growing" materials.

White Topcoats in the Centurion™ Wood Coatings 2800 Series

CW-3125	White Polyurethane Topcoat (flat)

2800 SERIES CLEAR 2K WATER-BASED POLY TOPCOATS

CENTURION WOOD COATINGS

This is the benchmark for water-based, 2K, clear, polyurethane topcoats!

The technology behind our premium, self-sealing, clear 2800 Series 2K Water-Based Topcoats delivers excellent chemical and moisture resistance with outstanding non-yellowing properties and resistance to UV degradation. Fully cured, these coatings provide superior resistance to abrasion and black heel marks. They're designed for a variety of high-end cabinetry, architectural millwork, furniture and more and are primarily made with "green," bio-sustainable materials.

- Outstanding non-yellowing transparency
- Can be used for refinished or new wood projects
- Superb chemical and moisture durability
- Excellent adhesion properties
- Tintable
- Meets or exceeds KCMA performance specs

Clear Topcoats in the Centurion™ Wood Coatings 2800 Series

CW-3025	Clear Polyurethane Topcoat (flat)
CW-3026	Clear Polyurethane Topcoat (satin)
CW-3027	Clear Polyurethane Topcoat (semi-gloss)
CW-3028	Clear Polyurethane Topcoat (gloss)

Always follow Technical Data Sheet of each product. Pot life for 2800 series with CW-4002 Catalyst-Hardener at 15% is 3 hours. Be sure to slowly pour catalyst into product while product is under agitation.
