# GUIDELINES AND SAFETY MEASURES

As we prepare and look forward to moving ahead with our events, below are some guidelines and safety measures that Backstage Competition will implement. Backstage will follow all CDC, State, and Venue guidelines with regards to COVID-19.

**Cleaning/Sanitizing:** Backstage staff will do a deep cleaning of the venue prior to the day of the event, on top of what the venue is already doing. We will also clean between sessions. Our Marley floor will be sanitized frequently during each event, along with all high traffic areas.

**Face Coverings:** Backstage will follow all CDC and government guidelines that are in effect at the time of your event. This includes mask mandates and recommendations.

**Routines-** Only one routine is allowed backstage at any given time. Only the dancers performing are allowed to be backstage. We will have a staging area for the next routine.

**Music Upload:** Mandatory music upload. We ask that all your music be uploaded prior to the deadline. Uploading will limit handling music devices by our staff. As always, please have backups.

**Awards:** All awards will be distributed and announced after each session.

**Waivers:** Must be completed by the parent or guardian prior to attending the competition.

Backstage wants everyone to feel like a VIP. Everyone's safety is our main priority. Although changes may need to be made, Backstage is still committed to making our competition and awards the fun and exciting event that you have come to love.

We want to thank you all for your continued support.

We can't wait to see everyone!
