Brinkley RV- CLM4 Filtration System

Supercharged by CLM Premium Filter

Product Features

Brinkley RV CLM4 Filtration System is a compact, contemporary-looking, well-designed filtration system for all campers that effectively removes impurities and harmful substances. It is independently certified to NSF/ANSI 42 & 53 standards, giving you peace of mind while you enjoy the clean, crisp water you deserve.

- The product features a three-stage, multi-level depth filtration system.
  The 1st stage reduces residual chlorine and odors, inhibits scale, and improves taste.
  The 2nd stage absorbs residual chlorine and odors in water and further improves taste.
  The 3rd stage reduces health-affecting lead and cysts in water.
- The CLM4 features a sturdy, powder-coated steel hanging bracket and high-performance, BPA-free, food-grade PP and clear PET filter enclosures. It features double O-ring housings, anti-back-off safety locks, and reinforced double O-ring lead-free brass 1/2” NPT male water ports, providing a durable, deformation-resistant structure and significantly reducing the risk of water leakage from extended use, wear, and tear.
- CLM4 consists of 3 CLM2 Series housings connected in series, and the CLM2 Series housing is tested and certified to NSF/ANSI Standard 42 by NSF International for materials and structural integrity requirements.
- The CLM4 system is tested and certified by NSF International against NSF/ANSI standards 42 & 53 for the reduction of Lead, Cyst, Chlorine, Taste and Odor.

Brinkley RV- CLM4 Filtration System

Product Details

Supercharged by CLM Premium Filter

This CLM2 is Tested and Certified by NSF International against NSF/ANSI Standard 42 for materials and structural integrity requirements

System Tested and Certified by NSF International against NSF/ANSI Standard 42 & 53 for the reduction of Chlorine, Taste & Odor, Lead and Cyst.

COMPONENT

1. 1-piece 2mm powder-coated steel structural frame
2. Reinforced lead-free brass female ports with lead-free brass double O-ring 1/2” NPT male fittings
3. BPA-free PP filter head
4. Anti-back-off safety locks
5. BPA-free PET double O-ring clear housings/canisters (you can see the system works hard for you)
6. 1st stage PPC filter insert- 0.22-micron, chlorine, taste and odor removal & scale inhibition
7. 2nd stage CTO filter insert- 2-micron, chlorine, taste and odor removal
8. 3rd stage LCB filter insert- 0.65-micron lead, cyst, chlorine, taste and odor, and fine particulates removal
9. Filter insert changing wrench

- Reduces lead, cysts, chlorine, and taste and odor in water, improving taste.
- Reduces limescale build-up† in water
- Chlorine overall percent reduction: >97.5 %*
- Lead overall percent reduction: >99.7 %*
- Cyst overall percent reduction: >99.99 %*
- Capacity ≥ 1320 Gallon/5000L (Water quality varies from place to place)
- EPA Est. No. 104514-CHN-1
