Hoegemeyer Corn Product Information

Proposal Built For:

				AGRONOMIC RATINGS											Disease Tolerance					Management			Population				
Brand	HiDF	RM	New	Plant Height	Ear Height	Ear Flex	Cob Color	Stress Emergence	Drought Tolerance	Stalk Strength	Root Strength	Mid-Season Brittle Stalk	Staygreen	Drydown	Gosss Wilt	Gray Leaf Spot	Northern Leaf Blight	Tar Spot	Anthracnose Stalk Rot	Sandy Soils	Marginal Yield Environments	High pH Soils	Low Population	Moderate Population	High Population	Test Weight	Hybrid Highlights
6964PCE		098		5	4	6	Pink	6	7	7	6	7	6	6	7	4	6	4	2	R	R	HR	R	HR	R	5	The yield leader in the 98-100 relative maturity range | Features a long list of competitive yield trial wins | Excellent standability package with moderate plant stature | Competes well with fuller season products
7156PCE		101		5	5	6	Red	6	7	6	7	7	7	3	6	5	6	4	4	R	R	R	R	HR	HR	6	Well-adapted to Northern Iowa and Eastern South Dakota | Complete standability package led by very good root strength | Good stress emergence for heavier soils
7485PCE		104		5	4	5	White	7	7	6	6	6	5	6	5	4	6	5	4	HR	R	R	R	HR	HR	5	High caliber top-end yield potential with moderate plant stature | Demonstrated elite yield levels across numerous competitive trials | Strong out of the ground | Avoid fields with a history of Goss's Wilt
7590PCE	HiDF	105		6	5	7	Pink	5	7	7	5	6	6	3	6	4	6	6	5	HR	HR	R	HR	HR	R	6	Versatile genetics that fits a wide range of growing environments | Features top-end yield potential, ear flex, and drought tolerance | Potential utility as a dual-purpose grain/silage hybrid
7700PCE		107		5	5	6	Red	5	6	5	6	7	6	6	5	5	6	66	5	R	R	R	R	HR	R	5	Competitive yields and solid agronomics in this 107 day PowerCore Enlist brand hybrid | Displayed strong roots during mid-season storms in 2025 | Excels in the mid to higher yield range | Good disease package
7834PCE		108	Y	6	6	5	White	7	6	6	6	5	7	8	6	6	5	6	4	R	NR	HR	R	HR	R	6	Top-end yield potential with excellent adaptation to central Iowa | Robust disease package with good observations of Tar Spot tolerance | Good root strength and stress emergence
8014PCE	HiDF	110		6	5	6	Red	5	6	5	6	6	6	6	6	6	5	66	5	R	R	HR	R	HR	R	6	High performing PowerCore® Enlist® brand hybrid | Solid agronomic profile for standability and disease tolerance | Well-suited for average to better managed acres
8115PCE		111	Y	5	4	7	Pink	6	7	5	6	6	7	4	7	4	6		5	R	HR	R	R	HR	R	6	Exciting new genetics bring high utility for nearly any growing environment | Strong tolerance to Goss's Wilt, Northern Leaf Blight, and Southern Rust | Moderate stature with good overall standability
8365PCE	HiDF	113		6	5	6	Pink	6	7	6	6	6	7	6	6	5	6	6	5	HR	R	HR	R	HR	R	6	Broadly-adapted and proven | Offers a complete package of standability and disease tolerance | Heavy test weight
8328PCE		113	Y	5	5	6	Red	7	6	5	6	7	7	3	6	5	6	55	5	R	R	R	R	HR	R	7	A soon-to-be favorite for agronomics, staygreen, and competitive yields | Robust disease package includes good Southern Rust tolerance | Heavy test weight and excellent grain quality
