CONNEX PERSONNEL

Construction Management Representative

Connex Personnel is currently seeking a Construction Management Representative (CMR) to support the execution of a project in Churchill Fall, Labrador.

Specific skills, knowledge and experience required are as follows:

- Be a qualified journeyperson, with particular emphasis in the fields of power systems distribution and maintenance of equal to, or greater than 230kV.
- Have an excellent understanding of the CLIENT Work Protection Code; including establishing and coordinating of required de-energization and re-energizations through the designated Holder of Record (HOR).
- Have knowledge and experience with the CLIENT Work Order System.
- Have knowledge and experience with detailed short-term planning and scheduling.
- Have knowledge and experience monitoring work fronts and arranging CLIENT isolations, schedules, crafts, materials and required drawings/manuals to ensure work is completed in a timely and cost-effective manner.

EDUCATION AND EXPERIENCE REQUIRED

- Candidates must have knowledge and experience with the construction and installation of High Voltage Cables in vertical cable shafts.
- Candidates must have 5 years' experience in contractor management, including experience in overseeing multi-disciplinary projects, where applicable.
- Be proficient in the use of a smart phone and laptop, with the ability to effectively use Microsoft Office applications, including but not limited to, Outlook, Teams, Word, and Excel. Computer skills are essential, and candidates must be fluent in report preparation, spreadsheet manipulation, etc.
- Have excellent communication skills and liaise with the Contractor and project team regarding safety, project progress / updates, and alignment of expectations
- Capable of identifying and communicating any concerns (safety, quality, progress, etc.) in the field with the Contractor and actively engage in conflict resolution.
- Must have experience in and be able to deal with the coordination of multiple work fronts.
    - Must be able to work with, oversee, liaise, and coordinate between various Contractors and with plant operations staff in a respectful manner.
    - Must be able to work independently to solve routine/minor issues as they arise and recognize when issues need to be brought to higher supervisory/technical/managerial levels
    - Must be familiar with the scope of work. Identified changes are to be highlighted and communicated to the PM
    - Must have detailed knowledge of the Project Risk Register
- Must be proficient in reading construction drawings and specifications, with the ability to identify and address any non-conformances in the field
- Must have experience in Hazard recognition, elimination, and control, including associated training from Client to compliment experience
- Must have knowledge of safe work practices and be able to review and understand HSE work packs.
- Knowledge of NL OHS Act and Regulations

• Powerline Hazards, WHMIS, First Aid, Defensive Driving and Fall Protection certifications are required.

Location: Churchill Falls, Labrador
Anticipated Start Date: March , 2027
Anticipated End Date: October 2027
Estimated Effort Time: approximately 70 hours per week
