Brian Morisset

Engineer Entrepreneur

COVER LETTER

Starting at a top 25 engineering undergraduate program to build a strong foundation of critical thinking through science. Leading to nearly a decade of engineering practice in a variety of industries including contracts with some of the top tech companies in the world. Hard work and time management enabled a pivot to entrepreneurship and blue-collar work through the pandemic. Now is the time to help rebuild our workforce and that is why I am seeking to join the effort. My engineering and business skills are applicable to a variety of industries including a position with you.
