NEOCAN

HT 300 YG

Laser Welding Machine

super large working platform

Welding Seaming device

HT 300 YG

Laser Welding Machine

Integrated table weldings+ hand welding
Laser welding - full power 3000W

HT 300 YG
Laser Welding Machine

■ Accessories: Automatic rotator + Laser rough welding platform + Intermediate rotator
■ Laser rough welding platform: Suitable for welding of large workpieces, such as tanks, pressure vessels
■ Laser rough welding platform: Suitable for welding of large workpieces, such as tanks, pressure vessels
■ Optional accessories: use of CCD laser head, threaded shaft support base, etc. Under models
■ Optional accessories: use of CCD laser head, threaded shaft support base, etc. Under models
■ Laser rough welding platform: Suitable for welding of large workpieces, such as tanks, pressure vessels
■ Laser rough welding platform: Suitable for welding of large workpieces, such as tanks, pressure vessels

Our advantages

30 years of industry experience

Core strengths

CORE ADVANTAGES OF INTELLIGENT ANALYSIS

01

Professional welding system
Intelligent operating system
Automatic welding path
Multi-layer multi-pass
easy to operate and use quickly

02

Super large working platform
Short convenient work

Anti-static items

03

Structural and
Industrial-centric core
laser welding speed

- stronger and matte-decay

04

360-degree rotating wheel
Fast load, flexible movement

360-degree flexible and
convenient rotation

05

Pulse controlled laser welding

Welding can be controlled by feet,
which is more convenient

06

Cooling system
Water-Cool Chiller,SHUCHI generic,CE
certified,Industrial water cooling system,
Constant temperature
and prevent the liquid in it from
becoming dirty in less than 24 months

07

The laser head can only tilt back,
which is more convenient for performing hand
welding of special-shaped objects.

08

Handheld
Anti-Visible and convenient welding

Focus on details

CHILLER

High-end brand high-power chiller

High-end brand high-power chiller adopts Panasonic SONY and other imported accessories

Applied Materials

• Stainless steel

WELDING EFFECT DRAWING

Direct welding

Girth welding

Product Application

Luminous Words Make Billboards More Beautiful

Packing & Delivery

All packed in plywood cases, tightly packed and safe for transportation
