NEOCAN

NEOCAN

CO2 laser cutting machine

Non metal laser cutting machine

Choosing us is equal to choosing protection

Good quality and high configuration

CHOOSING US IS EQUAL
TO CHOOSING PROTECTION

Scientific design

High-precision

Good effect

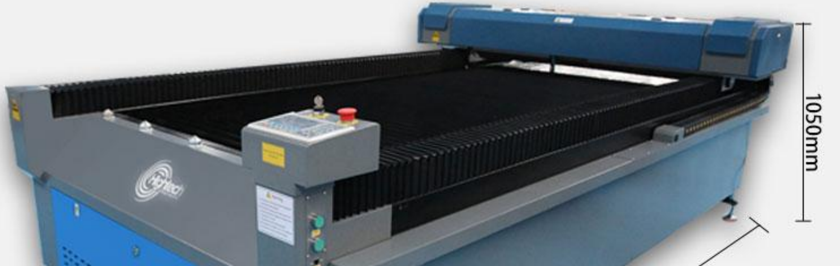
Rapid production

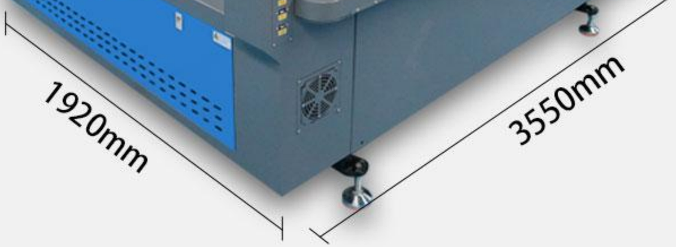
NEOCAN

CO2 laser cutting machine

Focus on industrial production for many years

Aluminum alloy material





NEOCAN

User-friendly design

Easy operation

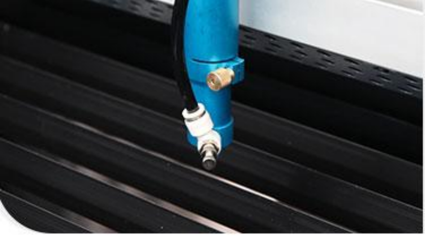
Beautiful and practical

Product Details

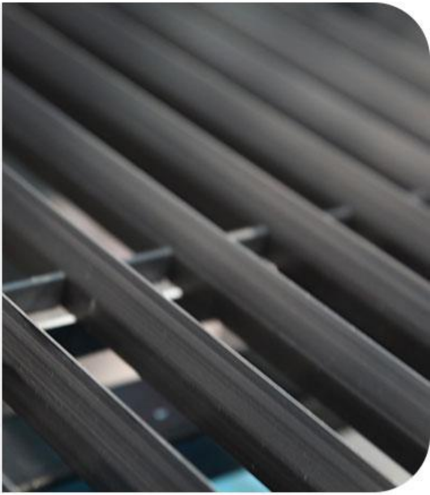
CHOOSING US IS EQUAL
TO CHOOSING PROTECTION

New upgrade of laser head

Strong beam stability,



fast cutting speed, and auto focus function



Knife platform

Oxidation blade, low reflectivity, each blade is separately leveled, and the cutting width is smooth

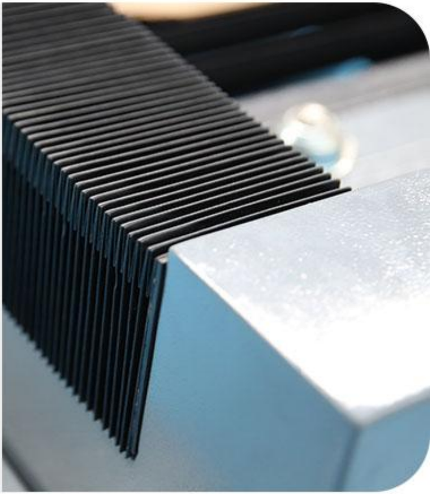
FULL
FULL
NORMAL
NORMAL

Control cabinet fan

Cooling control cabinet cooling machine can operate for a long time

Dust cover

The guide rail protective cover of the laser cutting machine is well sealed, runs stably, does not deform when hard objects collide, and has a long service life



Y-axis belt pressing transmission

Y-axis belt pressing transmission , with balanced force and reduced belt vibration

Product parameters

PRODUCT INFORMATION

Model	CO2 Laser cutting machine
Laser power	120W laser tube
Laser type	CO2 sealed laser tube
Cooling method	Water cooling
Engraving speed	0-80000 mm/min

Cutting speed	0-60000mm/min
Minimum engraving size	Chinese: 2.0mm*2.0mm, English letters: 1.0mm*1.0mm
The highest scanning accuracy	4000DPI
Positioning accuracy	≤+0.01mm
Working environment temperature	0-45℃, humidity 5-95% (no condensation)
Laser power	60W，80W，100W，150W
Power supply	AC220V±10%，50HZ
Processing surface	1300*2500mm
