Protect Against Cyber Threats

CONCEPT BRIEF | June 2026

TRAIN EVERY DAY.
Build skills, strengthen awareness, and prepare your people.

RECOVER WHEN NEEDED.
Access the people, space, and resources to restore operations.

STRONGER TOGETHER.
A shared resource.
A resilient region.

THE PROBLEM

Cyber incidents, operational disruptions, and natural disasters are increasing. Many organizations are unprepared to maintain operations or recover quickly.

- Plans exist but are not tested.
- Leadership has not exercised together.
- No access to alternate workspace or resources.
- Backups and systems have not been validated.
- Recovery takes too long and costs too much.
- Cyber risks continue to evolve.

OUR MISSION

To strengthen regional cyber resilience by providing affordable access to preparedness, training, continuity planning, and recovery resources that enable organizations to maintain operations during and after disruptive events.

OUR VISION

**TRAIN EVERY DAY.
RECOVER WHEN NEEDED.**

Protect Against Cyber Threats

TRAIN EVERY DAY.
Build skills, strengthen awareness, and prepare your people.

RECOVER WHEN NEEDED.
Access the people, space, and resources to restore operations.

STRONGER TOGETHER.
A shared resource.
A resilient region.

A REGIONAL RESOURCE FOR GOVERNMENT, CRITICAL INFRASTRUCTURE, HEALTHCARE, AND BUSINESS

HOW THE CYBER RESILIENCE CENTER WORKS

A shared regional facility that brings together people, technology, and processes to build cyber resilience, strengthen response capabilities, and support recovery when it matters most.

FACILITY CONCEPT

Purpose-built spaces to train, prepare, and recover.

WHY A SHARED MODEL WORKS

CONTINUOUS VALUE

- Training, planning, and exercises provide daily value.
- Keeps skills sharp and teams ready.

COST EFFECTIVE

- Share resources instead of each organization building its own.
- Lower costs, greater capabilities.

STRONGER REGION

- A more resilient community benefits everyone.
- Better coordination. Faster recovery.
- Stronger partnerships.
