Rise and Recover - Impact Snapshot

South Carolina Energy Justice Coalition

🔧 Repairs & Interventions by the Numbers

Direct Home Repairs:

- 16 homes received general repairs
    - 6 portable ramps = 6 repair units
    - 1 permanent wooden ramp = 1 repair unit
    - 4 toilets replaced = 4 repair units
    - 12 homes received multiple types of repairs; we'll conservatively estimate an average of 5 repair interventions per home = 60 repair units

Subtotal (Repairs): 6 + 1 + 4 + 60 = 71 repair units

Additional Services:

- Roof tarping & reinforcement (seen in multiple homes): ~10 units
- Debris/wreckage clearing – 8 homes = 8 service units
- Mold remediation – 7 homes = 7 service units
- Food vouchers – 20 homes x 1 = 20 assistance units
- Case management/resource linkage – 36 homes = 36 service units

Subtotal (Support Services): 10 + 8 + 7 + 20 + 36 = 81 service units

---

Labor & Personnel

- 40 certified skilled laborers = 40 labor units
- Medical team (nurses and first responders) = 5 units (conservatively estimating a 5-person team)
- Research & demographic assessment of Union County = 1 strategic planning unit

Subtotal (Personnel & Planning): 40 + 5 + 1 = 46 units

✅ TOTAL FACTORED INTERVENTION VALUE:

71 (repairs) + 81 (support services) + 46 (labor/planning) = 198 total units of impact

🔧 Estimated Costs by Unit Type

1. Direct Home Repairs (71 units)

Includes ramps, toilet replacements, structural repair, plumbing, electrical, roofing, etc.

- Average cost per repair unit: $450
- Subtotal: 71 units × $450 = $31,950

---

2. Support Services (81 units)

Includes mold remediation, debris clearing, roof tarping, food vouchers, case management.

- Average cost per service unit: $300
  (includes material, labor, and coordination)
- Subtotal: 81 units × $300 = $24,300

---

3. Labor & Personnel (45 units + 1 research unit = 46 units)

Includes skilled tradespeople, certified medical professionals, and R&D team.

- Skilled labor & medical team cost per unit: $350
- Research/planning unit estimate: $3,500
- Subtotal: (45 × $350) + $3,500 = $15,750 + $3,500 = $19,250

🧾 Estimated Total Cost of Intervention:

$31,950 (Repairs)

- $24,300 (Support Services)
- $19,250 (Labor & Planning)
  =

✅ Total Estimated Dollar Amount: $75,500

Here's a comprehensive economic value conversion of the intervention provided in Union, SC, focused on the home repairs, disaster recovery, and community services rendered. This analysis considers local economic multipliers, prevention of public costs, and indirect financial benefits to the city and residents.

🏡 Economic Value Conversion – Union, SC

1. Total Direct Investment

From earlier:
Total intervention value = $75,500

---

2. Economic Multiplier Effect

In small cities like Union, economic development analysts use a 1.5 to 1.8 multiplier to estimate the total economic benefit of injected funds into the local economy.

- Using a conservative 1.6 multiplier:
  $75,500 × 1.6 = $120,800 in local economic stimulation
  (local wages, retail, materials, small businesses benefit)

---

3. Estimated Municipal & Insurance Cost Savings

a. Prevention of Insurance Claims & Emergency Public Spending

- Roof tarping, plumbing fixes, mold removal, and debris clearing significantly reduce emergency service calls, structural loss claims, and fire hazards.
- Estimated savings per severe case avoided: $1,200–$2,000
- Assuming prevention in 30 homes:
  Average $1,600 × 30 = $48,000 in insurance & emergency savings

b. Public Health & Safety Savings

- Preventing hospitalizations from mold, injury, poor sanitation.
- Estimated 7 medical-related incidents avoided at $2,500/incident:
  7 × $2,500 = $17,500 in healthcare system savings

c. City Budget Relief (code enforcement, emergency repairs)

- Avoided municipal cost for abandoned, dangerous, or condemned structures.

- Estimate $1,200 average avoided per 10 homes:
  10 × $1,200 = $12,000 in city budget savings

💰 Total Economic Value Estimate

Category	Value
Direct Intervention Value	$75,500
Economic Multiplier Effect	$120,800
Insurance & Emergency Savings	$48,000
Healthcare System Savings	$17,500
City Budget Savings	$12,000
Total Economic Value	$273,800

✅ Summary

The intervention produced a total economic benefit of approximately $273,800 for the Union, SC area, through a combination of direct investment, local economic stimulation, and prevented costs to public systems and private insurers.
