

Event Description

This presentation focuses on creating inclusive, affirming supervision for queer and transgender supervisees. Attendees will build practical strategies to challenge bias, address power dynamics, and support diverse identities. Attendees will also have the opportunity to apply knowledge learned in case vignettes. The purpose of this presentation is to prepare supervisors to support queer and trans supervisees in their clinical work in an affirming, inclusive way.

OBJECTIVES:

1. Attendees will develop practical strategies to foster inclusive and affirming supervision that supports diverse identities.
2. Attendees will identify common challenges faced by queer and transgender supervisees in clinical supervision settings.
