Proposed Declaration of Separation (Nevada County for NC November 2017)

Action of New California Council of County Representatives date _____

The unanimous Declaration of the _____ counties in New California

When in the course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the laws of nature and of nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

Whenever any form of government becomes destructive, it is the right of the people to alter or to abolish it and to institute a new Government, laying its foundation on su8ch principles and organizing its powers in such form, as to them shall seem most likely to affect their safety and happiness. Prudence, indeed, will dictate that governments long established should not be changed for light and transient causes, accordingly all experience hath shown, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed.

But when a long train of abuses and usurpations, pursuing invariable the same object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such government, and to establish a new state. Such has been the patient sufferance of the citizens of California and such is now the necessity which constrains them to sever their affiliation with a tyrannical state. The history of the present Governor and government of California has demonstrated repeated injuries and usurpations, all having one single objective: an absolute tyranny over the citizens within the aggrieved counties of New California. Consider the following grievances which we make public for the whole world to evaluate:

IN CONGRESS, JANUARY 15, 2018

The unanimous Declaration for Separation and Independence of the Areas united within New California

When, during the normal course of human history, it becomes necessary that a group of Citizens finds it undeniable that they must completely end their relationship with an existing political group and adopt an equal, separate and sovereign status to which, based upon God's Natural Laws, all of humankind are entitled, action must be taken. Common and decent respect for humanity compels such a group of people to clearly and publicly declare their intent and reasons which have forced them to end the specific relationship in question. Such a time and situation has come for a significant portion of the people residing within the State of California.

We, the people wishing to end this relationship, hold the following truth to be obvious, undeniable, and irrevocable: that all people are created equal and have been equipped and supplied by ~~the~~ our Creator with certain rights that cannot and must not be abused or removed. These rights include life, personal freedoms, the ownership and control of property, and the right to pursue happiness.

As a means to secure these God-ordained rights, governments are created which derive their power and authority from the consent of the people they govern. It is the people who give the government permission to govern, and then willingly submit to that government's designated authority, so long as that authority shall not be abused.

However, when any Government decides to abuse or eliminate these stated rights, it is the right and responsibility of the people under said Government to change that Government; or if necessary, abolish the ties and responsibilities to the existing Government altogether. It becomes an imperative to recreate a Government which is once again founded upon the principles of freedom, and God's Laws; and organize in such a way as to guarantee those freedoms.

It is the duty of the oppressed people to remember that logic, caution and good judgement require that established Governments should not be altered hastily, without good reason or for temporary circumstances.

However, experience has demonstrated that people have a tendency to suffer through many Government evils, rather than change them; as long as the suffering is not too extreme, too slowly executed, or purposefully harmful. Why? Because as people get used to things being a certain way, it takes great awareness, effort, wisdom and dedication to create the positive change necessary to break away from harsh Governmental abuses.

When a long series of abuses and thefts of freedoms have been executed by the Government, designed to achieve the goal of putting the People under the rule of violent tyrants, it becomes the right of the People, even more, it becomes the duty of the People, to defeat and cast aside that Government and create a new Government, with new safeguards to protect Citizens' freedoms and liberties.

This is what has and is still happening to citizens within many areas of California who have long been patient in this matter of suffering governmental tyranny. The citizens within these consolidated counties have reached a point where they have no choice but to alter the current system of Government where their rights have been abused and denied.

The history of the current and preceding Governors and the Government of California, throughout decades of neglect and mismanagement, has demonstrated repeated injuries and usurpations, all having one single objective: an absolute Tyranny over the Citizens within California and the aggrieved Counties of the area to be known as the State of New California. To prove this, consider the following facts which we make public for the whole world to evaluate:

"ENTER GRIEVANCES HERE"

To The End

Whereas:

At every stage of our suffering and oppression under this existing Government, we have humbly, repeatedly, officially and publicly asked for the ceasing of this oppression, and the corrections of these abuses. Our requests have been ignored and met only with further injury and insult. The recent Governors and Governments, and the injustices they have instituted as laws and regulations, with this type of character and morals, can be defined in only one possible way: Tyrants, unfit to govern free People.

The current government of California subordinates the individual to the state, rather than working to address the needs of the people who hire it, and tries to control all aspects of its Citizens' lives by coercive and oppressive measures. Its totalitarian policies are designed to tax and regulate its citizens in an unjust manner.

We have never failed to warn or inform our State Brethren of these perils. We have warned them multiple times of attempts by their Legislature to over-extend their authority over the Citizens who hire and empower them with the duty to protect our common welfare. We have reminded our fellow Citizens of the circumstances of our immigration and settlement here as free Citizens of the United States of America, and their rights as Citizens.

After appealing for a sense of Justice and Goodness in our Citizens and our Government, many are still deaf to the voice of Justice and the relationship to our common heritage and rights.

Therefore we Conclude and Declare that:

The Representatives of the united Council of County Representatives of New California, in General Congress, having assembled and prayed to God about the honor and rightness of our conclusions, publish and declare with grave seriousness by the name and authority of the good people of these counties and areas the following:

The Citizens of these united Counties and areas within New California are, and of Right ought to be, a Free, Independent and Sovereign state within the United States of America.

We are absolved from all Allegiance to the State of California, and that all political connections and control between the New California state and the State of California, are and ought to be totally and permanently dissolved.

Further, as a Separate, Free, Sovereign and Independent state, we shall have the same full powers of any state in the Union to levy Law and Order, conclude Peace, contract Alliances, establish Commerce, and do all other Acts and Things which an Independent New California state, as a Sovereign Constitutional member of the United States of America, may of right do.

With the support of this Declaration of Separation and Independence from the State of California, and a firm reliance on the protection of Divine Providence, we mutually pledge to each other our Lives, our Fortunes, and our Sacred Honor.

In the year of our LORD.
