SMS Disposable Coverall-2000 Serise

TYPE 5 TYPE 6

1. 3-Piece hood,provides improved fit and comfort.
2. Two-Way Front Zipper with resealable storm flap,for protection from contaminants.
3. Knitted cuffs at wrist/Elasticated wrist,for increased wearer comfort.
4. Elasticated Hood, Waist & Ankles,helps increase comfort and mobility
5. With /without front and rear reflectors.
6. Antistatic/Non-Antistatic.

Breathability ★★★★☆
Liquid Protection ★★☆☆☆
Dry Particulate Protection ★★★☆☆

Fabric: Multi layers SMS fabric
Design: Designed to protect against harmful particulates and light liquid spray in workplace with highly breathable comfortness.
Gram weight: 30-65gsm
Colour: White/orange/blue etc.
Sizes: S to XXXXL
Application: Agriculture, Automotive, Cleaning Process, Construction, Electronic Industries Food Industries,Petrochemical, Pharmaceutical, Painting, Steel
Serged Seam: Increased strength and an effective liquid&particle barrier 2.5-3 Stitched per Centimeter
Packing: 1 piece per sealed PE bag，50 pieces per carton

SMS - Protective Medical Overall· Material: 100% SMS · Feature: Anti-static / Dust & particles proof / Water resistant· Weight: 50GSM · Others: 3 x pieces hood / 2 way zip with stom flap elasticized hood, cuffs, ankles and waist.

Microporous Disposable Coverall-4000 Serise

TYPE 5 TYPE 6

1. 3-Piece hood,provides improved fit and comfort.
2. Two-Way Front Zipper with resealable storm flap,for protection from contaminants.
3. Knitted cuffs at wrist/Elasticated wrist,for increased wearer comfort.
4. Elasticated Hood, Waist & Ankles,helps increase comfort and mobility
5. Antistatic/Non-Antistatic.

Breathability ★★★☆☆
Liquid Protection ★★★☆☆
Dry Particulate Protection ★★★★☆

Fabric: Microporous film on polypropylene fabric
Design: Designed as a liquid barrier to liquid splash. It offers good liquid protection and breathability in general industry.
Gram weight: 50-65gsm
Colour: White
Sizes: S to XXXXL
Application: Asbestos Handling, Agriculture & Farming, Automotive, Biological Hazards, Chemical Handling, Clean Room, Electronics, Engineering, Hazardous Material, Military, Paint Spray, Printing
Serged Seam: Increased strength and an effective liquid&particle barrier 2.5-3 Stitched per Centimeter
Packing: 1 piece per sealed PE bag，50 pieces per carton

Microporous - Protective Medical Overall · Material: 100% Microporous film· Feature: Anti-static / Biological hazards proof / Chemical handling / Hazardous materials / Paint pray / Water proof.· Weight: 63GSM · Others: 3 x pieces hood / 2 way zip with stom flap elasticized hood, cuffs, ankles and waist.

Política de pruebas de diagnóstico para
Enfermedad por coronavirus-2019 durante la Emergencia de salud pública

Inmediatamente en efecto Orientación para Laboratorios clínicos, fabricantes comerciales y personal de la Administración de Alimentos y Medicamentos Documento publicado en la web el 16 de marzo de 2020. Después de un extracto del documento sobre las pruebas de serología para Covid-19: Desarrollo y distribución de fabricantes comerciales y desarrollo de laboratorio y uso de pruebas de serología Sin una EUA. La política descrita en esta subsección se aplica a los desarrolladores de pruebas de serología que identifican anticuerpos (por ejemplo, IgM, IgG) contra el SARS-CoV-2 de muestras clínicas. Esta política se limita a tales pruebas en laboratorios o por trabajadores de la salud en el punto de atención. Esta política no se aplica a las pruebas en el hogar. Teniendo en cuenta que las pruebas de serología son menos complejas que las pruebas moleculares y se usan únicamente para identificar anticuerpos contra el virus, la FDA no tiene la intención de objetar el desarrollo y la distribución por parte de fabricantes comerciales o el desarrollo y uso por parte de laboratorios de serología pruebas para identificar anticuerpos contra el SARS-CoV-2, donde la prueba ha sido validada, se proporciona una notificación a la FDA y se incluye información similar a la siguiente en los informes de la prueba: Esta prueba no ha sido revisada por la FDA.Los resultados negativos no descartan la infección por SARS-CoV-2, particularmente en aquellos que han estado en contacto con el virus. Las pruebas de seguimiento con un diagnóstico molecular deben considerarse para descartar infección en estos individuos.Los resultados de las pruebas de anticuerpos no deben usarse como la única base para diagnosticar o excluir la infección por SARS-CoV-2 o para informar el estado de la infección. Los resultados positivos pueden deberse a una infección pasada o presente con cepas de coronavirus no SARS-CoV-2, como el coronavirus HKU1, NL63, OC43 o 229E.

MONOGRAM
CLEANING DISPOSABLES

DISPOSABLE GLOVES

Monogram® gloves provide the helping hand for all of your foodservice needs. When we say our gloves are an excellent fit, we aren't just referring to size. We provide a variety of glove types to handle preparation, serving and all the jobs in between.

MONOGRAM
CLEANING DISPOSABLES

SUPPLIES TO KEEP YOUR OPERATION RUNNING SMOOTHLY

Monogram® is an extensive line of disposable products. Whether it's food preparation, serving or cleaning, Monogram has the disposable glove solution to all your kitchen needs under one brand.

Features & Benefits

Blown Poly Gloves
- Same low-cost solution as cast poly gloves
- Embossed surface has tiny air pockets, permitting air to circulate around the hand
- Powder-free

Stretch Poly Gloves
- Best solution for tasks requiring frequent glove changes
- For tasks requiring minimum dexterity
- Low-cost solution for multiple functions and where frequent hand washing is not an option
- Powder-free

Vinyl/Powder-Free
- Provide a close fit, improving dexterity and touch sensitivity
- Perform like latex but without the risks of allergic reactions
- More durable
- Best solution working near a heat source
- Economical alternative to latex and synthetic
- Ideal for handling sliced cheeses and meats, fresh-squeezed juice prep, prep for pies, pizzas, salads, tacos and burritos
- Latex-free
- Powder-free

Synthetic Powder-Free Gloves
- Form-fitting
- Similar properties as latex gloves
- No allergy-sensitivity issues
- Specially formulated with enhanced softness for delicate work requiring fingertip sensitivity
- Latex-free
- Powder-free

Latex Gloves
- Ultra-form-fitting gloves
- Best fingertip sensitivity and level of dexterity

(Note: Latex contains a protein that is known to cause an allergic reaction.)

Latex/Powder-Free Gloves
- Good fit
- Used frequently for food handling and service
- Powder-free

(Note: May cause allergic reactions in the user and/or in the guest who eats food that has been in contact with the glove.)

Latex/Powdered Gloves
- Good fit
- Used frequently for food handling and service
- Cornstarch inside helps user put them on more easily and quickly

(Note: May cause allergic reaction in the user and/or in the guest who eats food that has been in contact with the glove.)

Nitrile Gloves
- Form-fitting, powder-free and latex-free; blue or black in color
- Ambidextrous
- Ideal for tasks requiring puncture resistance and a high level of dexterity
- Use for handling meats and seafood, as the material is resistant to breaking down when it comes in contact with animal fats
- Powder-free

Technical specification

Ventilation mode

IPPV, A/C, PCV, SIMV, SPONT/CPAP, PSV,SIGH,MANUAL

Ventilator parameter

Tidal volume (Vt)	0 ~ 2000 mL
Frequency (Freq)	1 min ~ 100 min
Oxygen concentration	21 % ~ 100 %
I:E	4 : 1 ~ 1 : 8
PEEP	0cmH_2O ~ 40 cmH_2O
Pressure triggering sensitivity (Ptr)	-20 cmH_2O ~ 20 cmH_2O (Based on PEEP)
Flow trigger sensitivity (Ftr)	0.5 L/min ~ 30 L/min
Pressure control (PC)	5 cmH_2O ~ 80 cmH_2O
Pressure support (PS)	0 cmH_2O ~ 80 cmH_2O
SIGH	0 (off) 1/100 ~ 5/100
Apnea ventilation	OFF, 5 s ~ 60 s
Pressure limit	20 cmH_2O ~ 100 cmH_2O

Monitoring parameter

Frequency (Freq)	0 / min ~ 100 / min
Tidal volume(Vt)	0 mL ~ 2500 mL
MV	0 L/min ~ 99 L/min
Airway pressure	0 cmH_2O ~ 100 cmH_2O
Dynamic lung compliance testing	1 mL/cmH_2O ~ 1000 mL /cmH_2O
$ETCO_2$ concentration	0 mm Hg ~ 152 mmHg (0 % ~ 20 %)
Oxygen concentration	15 % ~ 100 %

Packing size

Main components: L 560 * W 560 * H 605 mm

G.W. : 40 KG, N.W. : 17 KG

Air compressor: L 670* W 700 * H 1160 mm

G.W. : 84 KG, N.W. : 46.2 KG

Alarm and protection

AC power failure alarm	Power failure or no connection
Internal backup battery low voltage alarm	≤ 11.3 ± 0.3 V
No tidal volume	No tidal volume within 6 s
High minute volume alarm	5 L/min ~ 99 L/min
Low minute volume alarm	1 L/min ~ 30 L/min
High airway pressure alarm	20 cmH_2O ~ 100 cmH_2O
Low airway pressure alarm	0 cmH_2O ~ 20 cmH_2O
High oxygen concentration alarm	19 % ~ 100 %
Low oxygen concentration alarm	18 % ~ 99 %
Continuous pressure alarm	(PEEP + 1.5 cmH_2O) over 16 s
Suffocation warning	5 ~ 60 s
Fan error	Show on screen
Oxygen deficit	Show on screen
The maximum limited pressure	< 12.5 kPa

Working condition

Gas source	O_2, Air
Pressure	280 kPa - 600 kPa
Voltage	220 V ± 22 V
Power frequency	50 Hz ± 1 Hz
Input power	900 VA (With air compressor)
	250 VA (Without air compressor)

Oscillogram

P-T(Pressure-Time)

F-T(Flow-Time)

V-T(Volume-Time)

$ETCO_2$ -T (End-Tidal CO_2-Time)

P-V Loop(Pressure-Volume Loop)

F-V Loop(Flow-Volume Loop)

P-F Loop(Pressure-Flow Loop)

MASSI HEALTH
BY MASSI INT

ICU Ventilator HS1100A

Application

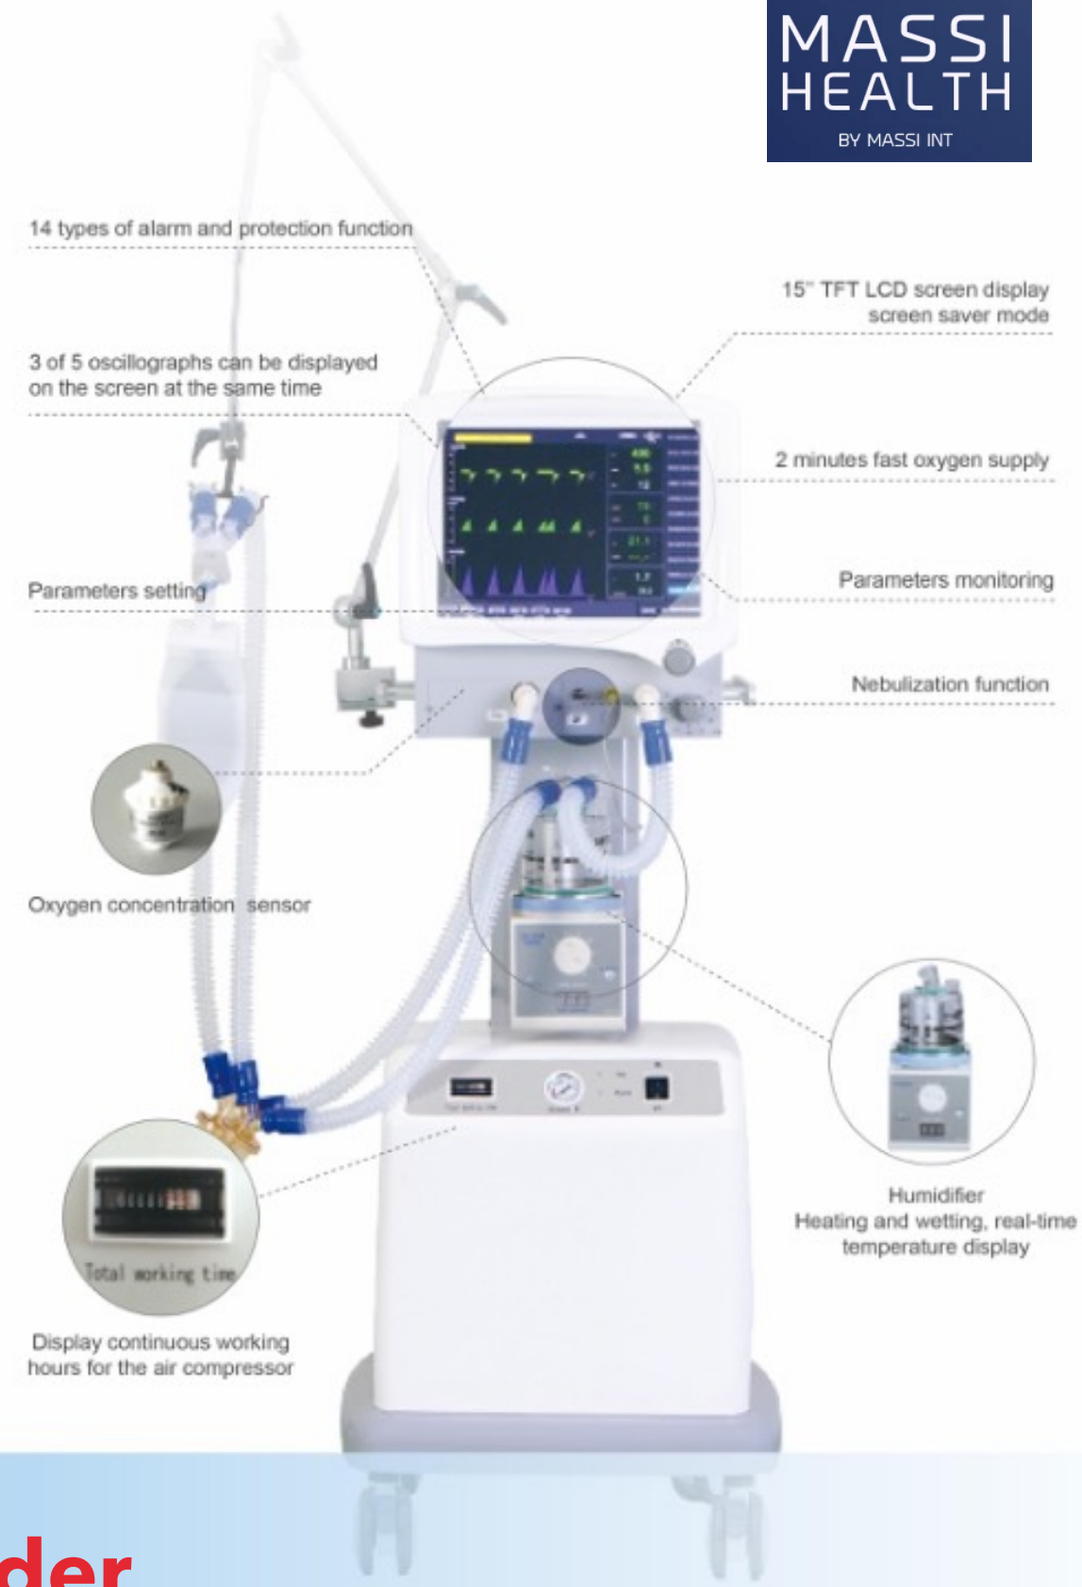
The ventilator makes a good performance in operation room,ICU department and emergency treatment.It used to assist or replace the spontaneous breathing for adult pediatric and neonatal more than 2kg. 25 years experience in Market-oriented ventilator make us professional and reliable, satisfying all your needs in ventilation. Due to the flexible configuration, good quality and competitive price, This machine has soon become the superstar of market.

Features

- 15" TFT touch screen displays the ventilation parameters, alarm information, and oscillograms, make every operation more easily.
- Multiple ventilation modes,suitable for ICU,emergency department and operation room etc: (IPPV, A/C, PCV, SIMV,PSV, SPONT/CPAP,SIGH,MANUAL)
- 5 oscillograms for your choice, 3 of them can be displayed on the screen at the same time.
- $ETCO_2$ is standard configuration for this machine.
- Humidifier can heat and wet breathing gas, makes it comfortable for patient to breathe.
- Rapid oxygen supply,automatically offer high flow rate oxygen within two minutes
- Nebulization make medicine into small liquid and particle,easier and quickier for patient to breathe in.
- High temperature resistance breathing circuit is reusable and anti-pollution.

Safety

- 14 types of sound and visual alarm information, easier for users to do some error checking and troubleshooting.
- Built-in oxygen concentration sensor, ensure stable precision of oxygen concentration.
- Easy to move with four casters, easy to stop with two brakes.
- Separate design of electronic circuit and gas flow rate keep safe running of ventilator.
- Compact long life internal battery can provide emergency power,avoid risk of patient.
- Self-check before operation,eliminate system mistake.



Friendly Powerful Reliable
