Our website changed in Feb. 2026 to **vermonttowing.com** which is now up and running and managed in house. We anticipate a better member experience as we will no longer be relying on an outside vendor to make changes as needed. We hope our new website brings value to our members' businesses by listing all members with a simple click to bring someone to your website or contact information. We want to drive business to our members around the state.

We also encourage you to help grow the VTA by asking other tow company owners you may know to get involved and join today by reaching out to info@vermonttowing.com or kevin@twinlinetowing.com or any officer/director listed.
