TWOFOURTEEN IMPACT LAB

Explore careers. Build real-world confidence.

Hands-on career exploration for middle and high school learners.

HOMESCHOOL | **NONTRADITIONAL LEARNERS**

How Students Learn

Students meet industry professionals, take part in hands-on workshops, and explore workplaces through in-person and virtual experiences.

They practice the ABCD™ skills:
Attitude, Behavior, Communication, & Delivery.

Our Mission

Help young people connect what they learn to four pathways after high school:

Employment, Enrollment, Entrepreneurship, & Enlistment.

Make Access Possible

Transportation is our first priority. Support also helps cover learning materials, curriculum and workshop development, and in-kind gifts for guest speakers.

Get Involved

Ask about student participation, hosting a career experience, or sponsoring transportation.
