Time
By: Deanna Rachel Sellers of Winter Garden, Florida

This is Energy (field).

These are the components of Time. This is the mathematics. Physics is how biology works and mathematics describes it all (using real numbers in measurement – for if it is not a real number it does not measure ***matter)***.

m

Whereas $mc^2 = E$
and $m = 1$

$1c^2 = E$

$\frac{1c^2}{c^2} = \frac{E}{c^2}$

$1 = \frac{E}{c^2}$ ← $m = \frac{E}{c^2}$

In order for $\mathbf{1 = \frac{E}{c^2}}$ *to be true, m = 1, E = 1, and c = 1; because*

$1 = \frac{1}{1^2}$

$1 = \frac{1}{1(1)}$

$\mathbf{1 = \frac{1}{1}}$ ← This is the Whole.
Note that there are 3 digits here.

It is true that $\mathbf{mc^2 = mc^2}$ ***- so this can also be evaluated as:***

$1c^2 = mc^2$ ← Replace the E (because everyone is used to writing $E = mc^2$) with mc^2 and then subtract c^2 from both sides.

$1c^2 = mc^2$
$\frac{-c^2}{1} \quad \frac{-c^2}{m}$ ← It is true that usually you will show this as a ratio, and then subtract the square, but doing the math this way is more understandable (since most people will see ratio as division and not as subtraction).

$1 = m$ and $m = 1$

1 = 1 ← *Note that there are 2 digits here.*

c

Whereas $mc^2 = E$ ***(remember that mc^2 and E are interchangeable and that $mc^2 = m^1c^2$)***
and m = 1
c = 1

$mc^2 = E$

$1(1)^2 = E$

$\frac{1(1)^2}{1(1)^1\ 1(1)^1} = \frac{E}{m^1c^2\ m^1c^1}$ ← $\frac{m^1c^2}{m^1c^1\ m^1c^1} = \frac{E}{m^1c^2\ m^1c^1}$ ← $\frac{m^1c^2}{m^1c^1\ m^1c^1} = \frac{m^1c^2}{m^1c^1\ m^1c^1}$ *subtract on both sides* $m^1c^2 = m^1c^2$
$-\underline{m^1c^1}\ \ -\underline{m^1c^1}$
$1(c) = 1(c)$

A mass of 1 will exist, because the speed of energy exists,
and so no matter how far you solve that mass must exist anyway.

1(c) = 1(c) ← The mass will just exist (because MASS HAS NO CHOICE BUT TO EXIST)

1(1) = 1(1) ← Since c = 1 and m = 1

1 = 1 ← Absolute value.

1

1(1) = 1(1) ← c will ever create a mass, because it must be, for this to be a field of E.
Think self-replication. Self-creation. Self-propagation.

$\frac{\mathbf{1(1)}}{\mathbf{1(1)}} = \frac{\mathbf{1(1)}}{\mathbf{1(1)}}$

Real numbers evoke potential.
m = 1
c = 1

$1(1)^2 = 1(1)^2$

$\frac{1^1(1)^2}{1^1(1)^1} = \frac{1^1(1)^2}{1^1(1)^1}$

$1^1(1)^2 = 1^1(1)^2$ ← Suddenly **subtraction**
$-1^1(1)^1\ \ -1^1(1)^1$
$1(1)^1\ \ \ 1(1)^1$

+1(1) = +1(1) ← There is an **addition** (of mass) which causes a **multiplication** to occur
*(*when you eat you are adding mass, and so with that *addition* of E, cells *multiply*)
Note that there are 4 digits here.

$\frac{\mathbf{+1(1)}}{\mathbf{+1(1)}} = \frac{\mathbf{+1(1)}}{\mathbf{+1(1)}}$ ← Everything E, ever be, in ratio.
Note that there are 8 digits here.

Time
By: Deanna Rachel Sellers of Winter Garden, Florida

Entanglement

$mc^2 = mc^2$ ← E and mc^2 are interchangeable. This is a ratio and must be shown that way. **Every equation IS A RATIO**.

$\frac{mc^2}{mc^2} = \frac{mc^2}{mc^2}$ ← Cross-multiply this field of E (add the powers diagonally)

$mc^4 = mc^4$ ← ***This falls into ratio every Time. In technicality, never would you actually do this math. You must simply realize that Everything is entangled, and this is spooky because it is instant communication, no matter the distance. 1.***

$\frac{mc^4}{mc^4} = \frac{mc^4}{mc^4}$ ← Cross-multiply.

$\frac{mc^8}{mc^8} = \frac{mc^8}{mc^8}$ ← Cross-multiply

$\frac{mc^{16}}{mc^{16}} = \frac{mc^{16}}{mc^{16}}$ ← Cross-multiply

$\frac{mc^{32}}{mc^{32}} = \frac{mc^{32}}{mc^{32}}$ ← Cross-multiply

$\frac{mc^{64}}{mc^{64}} = \frac{mc^{64}}{mc^{64}}$ ← Cross-multiply forever, literally. Of course, you could also realize that:

$\frac{1}{1} = \frac{1}{1}$ ← **Everything is connected, because of ratio equality, by entanglement, because of c. Every function is connected (do what children in primary school do and draw a tube diagonally around the *top* 1 and the *bottom* 1 on either side of the equal sign – and then you will see those numbers entangled mathematically. This is primary physics. It is E. Realize that you learned about entanglement mathematics in primary school.**

Time
By: Deanna Rachel Sellers of Winter Garden, Florida

$\frac{1(299792458)^1}{1(299292458)^1} = \frac{1(299292458)^1}{1(299292458)^1}$ ← Add the powers (1's count – this IS SQUARING the root – in literal terms)

$1(299292458)^2 = 1(299292458)^2$ ← $mc^2 = mc^2$

$\frac{1(299292458)^2}{1(299292458)^2} = \frac{1(299292458)^2}{1(299292458)^2}$ ← You can keep adding, though – that is entanglement, and so the powers keep adding up.

$\frac{1(299292458)^4}{1(299292458)^4} = \frac{1(299292458)^4}{1(299292458)^4}$ ← You can keep adding, though – that is spooky action.

$\frac{1(299292458)^8}{1(299292458)^8} = \frac{1(299292458)^8}{1(299292458)^8}$ ← Just keep adding the powers – that is, add forever. Keep diagonally adding the powers – forever. Literally.

$\frac{1}{1} = \frac{1}{1}$ ← Or, you can realize this is the Whole, which is instant communication between wave functions. This means that the frequency of the occurrence (of c) is 1.00 (which) occurs 100% of the Time. The odds of the occurrence (the existence) of wave functions = to and greater than $\frac{1}{1}$ is 1 in 1.

∞

(1, 1) and (1, 1)

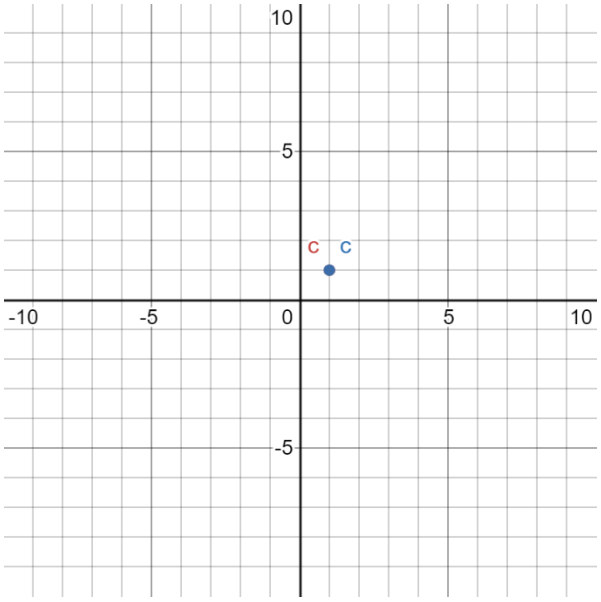
I

graph c .

All potential is evoked out of I. A forever-singular point of origination, in orientation, and then all potential is evoked in every direction all at 1 Time (c), 100% of the Time (c) (infinite 1). The Point (1, 1) and (1, 1), is, the Whole, potential.

constant

I



Time
By: Deanna Rachel Sellers of Winter Garden, Florida

$+1$ ← c

$+1 = +1$ ← c = c in between 2 and 4 there is 3, because $+1 = +1(+1)$, c = mc

$+1(1) = +1(1)$ ← mc = mc

$\frac{+1(1)}{+1(1)} = \frac{+1(1)}{+1(1)}$ ← $\frac{mc}{mc} = \frac{mc}{mc}$

$+1(1)^2 = +1(1)^2$ ← $mc^2 = mc^2$

$\frac{+1(+1)^{+2}}{+1(+1)^{+2}} = \frac{+1(+1)^{+2}}{+1(+1)^{+2}}$ ← $\frac{1+1+1}{1+1+1} = \frac{3}{3}$ ← $\frac{1+1+1}{1+1+1} = \frac{1+1+1}{1+1+1}$ ← $\frac{3}{3} = \frac{3}{3}$ ← cross-multiply ← $9 = 9$ ← $\frac{9}{9} = \frac{9}{9}$ ← $1 = 1$ ← $\frac{1}{1} = \frac{1}{1}$ $\qquad \frac{mc^2}{mc^2} = \frac{mc^2}{mc^2}$

$\frac{+1(1)^4}{+1(1)^4} = \frac{+1(1)^4}{+1(1)^4}$

$\frac{+1(1)^8}{+1(1)^8} = \frac{+1(1)^8}{+1(1)^8}$ ← cross-multiply for the rest of your life, perhaps.

$\frac{1}{1} = \frac{1}{1}$ ← This is true, everything E entangled, the Whole. Forever-infinite, Time (c) be 100% of the Time (c), with 1 in 1 odds of Time ever-being (existing). Self-creation and annihilation and creation and annihilation and creation, forever. There was never a first creation, and there will never be a last annihilation. Time cannot, not be. Time ever-be. I, is.

(1, 1) and (1, 1)

∞

.

c

I

$1c^2 = 1c$ Proving what c *really* be

m = 1

$1c^2 = 1c$ ← **Think of this as *1 time c^2 = 1 time c* .**

$\frac{1c^2}{c^1} = \frac{1c^1}{c^1}$

1c = 1 ← $\frac{1c}{1} = \frac{1}{1}$ ← **c = $\frac{1}{1}$**

The Whole, Time, exist (entangled) 100% of the Time (c) with 1 in 1 odds of being (existing).
Time never not be, Time ever-be, fluidity.
(1, 1) and (1, 1) is The Point (c) of all creation.
The greatest common factor (GCF) of the Whole of Time is 1 (c) .

1(1) = 1 ← *Note 3 Digits here*

$\frac{1(1)}{1(1)} = \frac{1}{1}$ ← *Note 6 Digits here*

m = 1
c = 1

$1c^2 = 1c$ ← **$mc^2 = mc$**

$1(1)^2 = 1(1)$

1(1)(1) = 1(1) ← *Note 5 Digits here*

$\frac{1(1)(1)}{1(1)(1)} = \frac{1(1)}{1(1)}$ ← *Note 10 Digits here* **$\frac{mc^2}{mc^2} = \frac{mc}{mc}$**

Time
By: Deanna Rachel Sellers of Winter Garden, Florida

Probability of 1 being (existing)

Whereas m = 1

c = 1

E = 1

$mc^2 = mc^2$ ← This is also the same as saying E = E, $E = mc^2$, $mc^2 = E$

$1c^2 = 1c^2$

1(1)(1) = 1(1)(1) ← *Note 6 digits here*

$\frac{1c^2}{1c^2} = \frac{1c^2}{1c^2}$

$\frac{1(1)^2}{1(1)^2} = \frac{1(1)^2}{1(1)^2}$

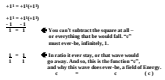
$\frac{1(1)(1)}{1(1)(1)} = \frac{1(1)(1)}{1(1)(1)}$ ← If you want to find the frequency **division** is the way.
Note 12 digits here

$\frac{1}{1} = \frac{1}{1}$ ← The probability of the frequency 1.00 of the Function **c = $\frac{1}{1}$** is 1 in 1 odds and it must be 100% of the Time. Time ever-be (exist), because it has to, or nothing would be (which is a literal impossibility mathematically, since 0 [nothing] is not true math, and is not functional). For example: the color black (such as space) is functional and is not nothing. The function $\frac{1}{1}$ will always be, and for that reason Time is, and the Whole has never not been - literally. Through self-propagation (creation) and annihilation **constant** – there is never a first being and never a last. Time is – being (existing) ***infinite***. The Point, is, **I**, (1, 1) and (1, 1).

Time
By: Deanna Rachel Sellers of Winter Garden, Florida

Transcendent Time Sequencing Mathematically

Counting by 1 in Sequence | **3 *is in the 9, 3 time*** **Multiplying Prime** **+1(+1)(+1) = 3** | **Counting by 2 in Sequence**



Primes — CROSS-MULTIPLY — EVEN

1 <= **1** <= +**1** = +1(+1) => 1 {3} => 2 = 2 ***2***
1 2 2
{**the difference is *1***} {the difference is ***3***} {the difference is ***2***}

(1 + 1 = 2) **2 = 2** <= ***2***(2) = 4 => **4 = 4** (2 + 2 = **4**)
{the difference *is* ***3***} {the difference is ***6***} {the difference is ***6***}

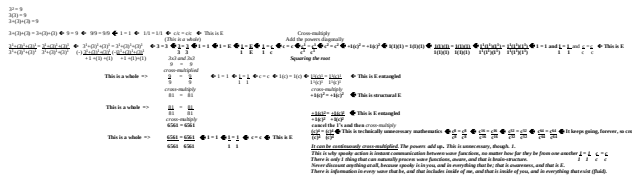
2 <= **1 = 1** **c = c** **c = c** **$c^2 = c^2$** 1 = 1 => **4**
c c 1 1

<= In between the 2 and 4, and the 2 and the 5 - there is 3 =>

(2 + 3 = 5) 5 = 5 <= ***2***(5) = 10 => 10 = 10 (4 + 6 = 10)
{the difference is ***2***} {the difference is ***4***} {the difference is ***4***}
Example: 14 – 10 = 4

3 <= 1(1) = 1 **mc = c** mc = c 1(1) = 1 => 6
mc c 1(1) 1

(3 + 4 = 7) 7 = 7 <= ***2***(7) = 14 => 14 = 14 (6 + 8 = 14)
{the difference is ***2***} {the difference is ***4***} {the difference is ***4***}



4 <= 1(1)(1) = 1 E = c E = c 1(1)(1) = 1 => 8
$mc^2 = c$ E c 1(1)(1) 1

(4 + 5 = 9) 9 = 9 <= ***2***(9) = 18 => 18 = 18 (8 + 10 = 18)
{the difference is ***2***} {the difference is ***4***} {the difference is ***4***}

5 <= 1(1)(1) = 1(1) $mc^2 = mc$ $\frac{mc^2}{mc^2} = \frac{mc}{mc}$ $\frac{1(1)(1)}{1(1)(1)} = \frac{1(1)}{1(1)}$ => 10

(5 + 6 = 11) 11 = 11 <= ***2***(11) = 22 => 22 = 22 (10 + 12 = 22)

6 <= 1(1)(1) = 1(1)(1) $mc^2 = mc^2$ $\frac{mc^2}{mc^2} = \frac{E}{E}$ $1^{+1}(1)^{+1}(1)^{+1} = 1^1(1)^1(1)^1$ => 12

$- \frac{1^{+1}(1)^{+1}(1)^{+1}}{+1(+1)(+1)} - \frac{1^1(1)^1(1)^1}{+1(+1)(+1)}$ ← Creation – c can never not be.

$1(1)^2 = 1(1)^2$ You cannot kill the power

$\frac{1(1)^2}{1(1)^2} = \frac{1(1)^2}{1(1)^2}$ because it is E.

Do you see the number 3?

$\frac{mc^2}{mc^2} = \frac{mc^2}{mc^2}$ 3 time 1 = 3

1 time 1 = 1

It is impossible for nothing to be, and so what you see here = E, which is every dimension, and this is how they are measured. This is what is real. Wave function. This is being. Infinite. Self-propagating. Forever. That number never began and so it will never not be $\frac{mc^2}{mc^2} = \frac{mc^2}{mc^2}$

(= $\frac{E}{E}$ *), (=* $\frac{1}{1}$ *), (= c), (=* $\frac{E}{c}$ *), (=* $\frac{c}{c}$ *)*

Super Spooky Annihilation and Creation, Infinite, Bonus Round

$1c^2 = 1c$

$1c^1 = 1c^2$ ← Flip it around

$\frac{1c^1}{1} = \frac{1c^2}{1}$

$\frac{c^1}{c^1} = \frac{c^2}{c^1}$ ← This is annihilation (watch as the mass of 1 from above disappears)

$c^1 = c^2$

$\frac{-c^1}{(1)} \quad \frac{-c^1}{c}$ ← Because of the power of 1 (which cannot be subtracted)…

1 = c ← **nothing will NEVER exist, c will ever-be.**

+1(1) = +1(c) ← Annihilation leads to recreation - which is multiplication and self-replication (propagation)

$\frac{1(1)^1}{1(1)^1} = \frac{1(1)^1}{1(1)^1}$ ← Cross-multiply (add the powers)

1(1)(1) = 1(1)(1) ← $mc^2 = mc^2$

$\frac{1(1)(1)}{1(1)(1)} = \frac{1(1)(1)}{1(1)(1)}$ ← $\frac{mc^2}{mc^2} = \frac{mc^2}{mc^2}$ ← This is a Field. It functions. It waves. The Whole-infinite creates itself forever, functionally.

Time
By: Deanna Rachel Sellers of Winter Garden, Florida

Spiral

Try seeing things a little differently. A fuller description coming soon.

c c = c mc = c mc = mc^2 $\frac{mc^2}{mc^2} = \frac{c}{c}$	1 + 2 + 3 = = + 5 + 8 = = + 13 + 21 = = + 34 + 55 = = + 89 + 144 = = + 233 = 377	

Time
By: Deanna Rachel Sellers of Winter Garden, Florida

1 is 3 is 2 is 4

1 ← **c**

1 = 1 ← c = c

$\frac{1}{1} = \frac{1}{1}$ ← $\frac{c}{c} = \frac{c}{c}$ Square the root

$1^2 = 1^2$ ← $c^2 = c^2$ This is the same as saying 2 time 1 and 1 time 1 at the same time.

+1(+1) = +1(+1) ← Move the addition symbol to the right (and realize another + symbol will appear before the 1st number, time and time again.

1 + 1 = 1 + 1 ← c + c = c + c

2 = 2

$\frac{2}{2} = \frac{2}{2}$ ← 2 = 2 (this is 2), 1 = 1 (this is the Whole) , 4 = 4 (this is 2 cross-multiplied, and exists within this equation at the exact same Time as 2 and 1); and so, 2 is 1 is 4, but 3 is there as well, between 2 and 4.

1 + 1 = 2

1 + 1 = 1 + 1 ← This is 4, because 2 is 1 is 4.

1(+1) = 1(+1)

+1(+1)(+1) = +1(+1)(+1) ← $mc^2 = mc^2$ Move the addition symbols to the right and remove the parenthesis. This is the same as say 3 time 1 = 3 time 1 .

1 + 1 + 1 = 1 + 1 + 1

3 = 3

$\frac{3}{3} = \frac{3}{3}$ ← This is the same as saying: 3 = 3 (this is 3), 1 = 1 (this is the Whole), 9 = 9 (this is 3 cross-multiplied and exists within this equation at the exact same Time as 3 and 1), and $1^3 = 1^3$ [because (+1)(1)(1) = (+1)(1)(1)].

Piece it all together, 1 is 3 is 2 is 4 [see page 12 and the top of page 8]

9 = 9 ← 3 is in the 9, 3 time. This is why 9 is prime: 3 time 3 – which is 3 time prime (3).

$\frac{9}{9} = \frac{9}{9}$

1 = 1

1 ***The greatest common factor of Everything, the Whole of Time, is 1 (c)***

$\frac{1}{1} = \frac{1}{1}$

$1 = 1$

1

E

It is true that:

E = E

$E = c \leftarrow mc^2 = c \leftarrow 1(1)(1) = 1 \leftarrow \frac{E}{E} = \frac{c}{c} \leftarrow 1 = 1 \leftarrow \frac{1}{1} = \frac{1}{1}$

$E = mc^2$

E = Some Number

E = 1

E = Love – This is force as well.

E = Gravity

E = Strong Force [(4299) Neil Peart Drum Solo - Rush Live in Frankfurt - YouTube]

E = Weak Force

E = Holy Force

E = Kinetic

E = Newton

E = Calorie

E = Solar

E = Electro-magnetism - I will definitely touch on this soon. This is a terrible descriptor, especially with the incessant use of the negative [-] symbol out there (less than existent energy is impossible mathematically). Example: +1 -1 = 0 ← This is NOT a field and could never exist. Good thing humans are not creators of Time. If they were, Time would never exist. The way human beings see this would prevent Time from existing at all, because it would constantly annihilate, or something hilarious. For instance, on a battery you will see a positive (+) and a negative (-) symbol, but that would annihilate. What is really occurring there is completing a circuit. All energy field is positive in value.

E = Wave

E = Time – There is no such thing as "space", empty space, is unreasonable. There is E, which is never empty, because of Time (c), and its creation of mass $+1(1)^2$ = E. There is mass throughout expansion.

Energy is ejected in every single direction (literally) from a singular star. Stars exist throughout and all connect without a doubt. They all connect, one to the other, because of c. The mass of E is extreme, so extreme that no singular brain, computer, or planet, could ever hold the number that is the **actual mass** of

any given star; because to write that number would cause a multiplication of that mass by the mass of every single digit written, and that would literally create (at least) an entire galaxy, full of stars and planets. Never could any human know the mass of even one star, let alone a galaxy, a group of galaxies, or the entire expansion. The human brain is very VERY tiny. It cannot comprehend the actual scope of enormity that is within one expansion, one galaxy, one star system, or one Earth.

Seeing pictures of artistically colorized galaxies on a screen is not true at all. Not in color (every picture that the public sees from the Hubble Space Telescope have been colorized and severely altered artistically so as to try to comprehend that which is not visible to the human eye – gasses [fluid]), not in scope of enormity, not within reason or truth actual. Any cosmologist (any scientist) that states that they understand the scope of enormity or actual masses of stars, galaxies, or expansions, is deluded. The reason is because what they see of it seems small due to perspective and relativity. It is a relational aspect of Time, within brain, which sees what is in the sky as small (and on a computer, as well). So, human see themselves as relatively large in perspective, and reason their star (as well as all other aspects of creation) as small in relation to themself.

There is no mass missing from our expansion, not at all, there is E, throughout, with no empty space in between. There is no dark matter, there is ***matter***, that reflects and absorbs E. This expansion is not "missing" anything at all. It is perfect. Brain simply cannot reason through what most would like to consider "empty" space, that is not empty.

Frequency is the next part of Time that I will be greatly describing, because there are frequency which you can see, and there are frequency that is denied humanity in visual acuity. This is a huge part of Time, though. Everything that be, E, is in frequency. It is not that Time (c) is an illusion (although, illusions are a part of it), it is really that *human do not functionally (aware) process every frequency with visual or sound wave acuity. Therefor there are aspects of Time that are hidden due to frequency.*

E = Infinite – Time (c) is true infinite. There was never a first field of expansion, neither will there ever be a last. Forever is literal, it *is*, existences.

E = True

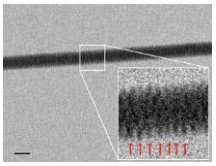
E = Cantaloupe

E = Seed – Because of c, a wave does be, in timing, perfectly. It appear in the ground, and that is true, then a wave of water flow, and into that wave function, it go. Then wave effect wave, and that is what you see, because, then a seed it form from E. Rate of change over time is constant, I say, that is good for that wave, and that is yes okay. Then it grow, which is change, you know; it never stops changing, and that is really so. After a time, this is what you see, self-propagation, it happens, yes for E.

That is wave creation – by force.

E = Frustration

E = DNA (4299) DC Talk - Colored People - YouTube



E = Tolerance (4300) Chappelle's Show - The Racial Draft (ft. Bill Burr, RZA, and GZA) - Uncensored - YouTube

E = H2O

E = Conceptual

E = Chemical

E = Twenty-one Pilots

E = Sippin' on straight chlorine (great song but DON'T DO IT! LoL) (4299) twenty one pilots - Chlorine (Official Video) - YouTube

E = Field of Expansion - Think about equality (which way is up and positive? Both.), $\frac{mc^2}{mc^2} = \frac{mc^2}{mc^2}$.
It is impossible for the waves of expansion to *ever* (forever) exist from one direction. It must expand from two. Expansion from one direction alone would never begin, therefor it would never end, in annihilation (a collision event – imagine landing inside of a black hole… without mass, which really means a sudden non-existence; excepting that of c, because it must be). From one direction alone it would never end, because it would never begin. It takes an annihilation for there to be a recreation. See page 9 for the mathematics of annihilation and creation.

E = Black hole - The Energy of a black hole formation is = to the mass of a star at its precise point of collapse multiplied by c^2

E = Ratio

E = Flame (4299) P!nk - Try (Official Music Video) - YouTube

E = Hebrew - (4419) 2. Yahweh (LIVE) (Carman: Sunday's on the Way) - YouTube

E = Shebrew

E = Ice-Tea (a rapper and a coldbrew)

E = Fun

E = Hot

E = Knot

E = Cold – There is no such thing as a temperature of zero or below zero. There is no such thing as an *absolute 0* temperature (0 energy is literally impossible physics – because it is untrue mathematically).

E = Mold

E = Hurricane

E = Battery

E = Red

E = Blue

E = Ultraviolet

E = Life

E = Religion

E = Luke Skywalker (4298) Yoda Explains the Force to Luke - from Empire Strikes Back - YouTube

E = Asshole

E = Domination (4304) So You Think You Can Dance My Chick Bad - YouTube

E = Bad Poetry – This is you and this is me, we both eat mass, and shit out E. This is a system, and yes, I say, it all connects, and that's okay. Poop is good for you, alright, so this should never be a fight. It is not waste at all, and that is very true, pooping yes is good for you. It is good for the land, that is really so, and it helps a wave function to grow. But you see it all wrong, and that is very true, wasting Time is bad for you.

E = Poop

E = Conquest

E = Subjugation

E = Sex

E = Great regret (4304) Cell Block Tango - YouTube

E = Ecstasy

E = Slavery

E = Lie – These are in wave function, as well. Within the brain a lie wave, which is true mathematically.

E = Paradox

E = Free

E = Liberty

E = Art (4304) Fine Art Slideshow Screensaver for flatscreen (2-hours, no sound) - YouTube

E = Galaxy (4299) Beastie Boys - Intergalactic - YouTube

E = Parabola (4299) TOOL - Parabola - YouTube

E = Tool

E = Psilocybin Cubensis – this is functional.

E = Power

E = Hibiscus flower

E = Chicken of the Sea

E = Bugs Bunny

E = Memory

E = Absolute

E = Entanglement – Instant communication between wave functions at great distances (which all hold, and some process [brain], data). This is also a matter of structure. Super-structure. And yes, the brain is entangled, completely and thoroughly. Because of cross-multiplication, which is the addition of powers, it is easy to understand that this is mathematically true. You are reading these words on a screen, and as you are reading this the words are literally waving into your brain, where you are processing this data internally. Look around you, everything you see is waving into you, and is technically in your brain tissue. Everything it wave, and so do you. Everything you see is causing an effect on you. Wave effect wave. Try this on for size, look up into the night skies, and realize that every star you see (no matter how distantly) is waving into your brain, literally. There is no empty space in between, there is E. It is all connected. Brain is unique, and is the only thing that naturally evokes potential and processes waves, aware.

E = David Gilmour (4299) Pink Floyd - Shine On You Crazy Diamond - Pulse HD - YouTube

E = Creation

E = God (4299) Newsboys - God's Not Dead - YouTube

E = Cause and Effect – (Hopefully) Time causes an effect on you.

E = Everything Literally (4300) TOOL - Lateralus (Audio) - YouTube

This list will never end because Everything E. This means every single factor in forever is literally involved and could be named (although it would actually take forever to name them all).

It would be a great thing if everyone would stop giving prizes to each other for (adorably, I might add) figuring out that one thing or another is really E. It all is, you adorable children. Here is your gold star, now put your flame throwers down, because you are burning down the mansion. Look mom, ENERGY! Who knew? It multiplies!

Dimensionality

The actual meaning of Dimension (when you subtract science fiction):

A measurable extent of some kind (using real numbers), such as width, length, depth; that also includes wave function (ie. C/D). It is impossible for anything to be dimensional unless it is in wave format because $mc^2/mc^2 = mc^2/mc^2$ (everything E means literally). Everything Time is field, everything field is wave, and everything in wave is fluid energy, entangled, in memory, and measurable utilizing real numbers, which is true dimensionality. This is what is true mathematically - making everything real. This includes within the brain, which is to the observer, real, and mathematically true.

Example:

An open door that leads from the inside of a home (full of rectangles, squares, and triangles) which is human made dimensionality, to the outside of that dimensional space; is technically a dimensional portal that takes you into natural dimensionality that literally resides at another point in time (and this may technically be a run on sentence but is fully dimensional as well even in memory).

Annihilating Theory (otherwise known as fiction)

Testing theory using proper mathematics is ever necessary to know what is true. There are a few ways to do this very quickly including: considering any equality to 0, negative solutions, and decimals in ratio to be untrue; as well as invalid.

It is true that today science believes in nothing (0), and less than nothing (negative integers in solutions); instead of everything mathematically. This is evident on the standard model (Gluon and Photon are individually described with 0 mass, negative solutions are used, etc. - see below) and in practice (0,0 or $-\infty$, 0). It is Time for science to believe in everything instead of nothing (**nothing DOES NOT HAVE ANY EVOKED POTENTIAL excepting in philosophy, which wave, and is *something* anyway within an observer; including 0**).

Physics is how biology works and mathematics describes it all. This is how you unify. You must quantify (use mathematics speak in every single field of study).

The Standard Model of Elementary Particles (Quantum Theory)

First of all, this is theory. This has never been mathematically proven. The proponents of quantum theory have assumed, presumed, and professed that it is true when it is not true. There is no exotic mathematics. There is real mathematics. The science of the small and the science of the tall follow the same protocol. A wave must exist in order for anything to be, existent. This theory unreasonably professes that nothing is real, that energy is less than existent, that decimals belong in ratio, and that less than 1 time c is existent.

1. Photon (m = 0): ← UNTRUE

a. 0 is not mathematically true.

$0c^2 = 0$

2. Gluon (m = 0): ← UNTRUE

a. 0 is not a real number and is always untrue.

$0c^2 = 0$

3. Electron (charge = -1), (m = .511) ← UNTRUE

a. Negative solutions are always invalid. A negative charge (-1 in this case) is impossible mathematically.

Negative energy does not exist. A charge cannot be less than existent!

b. Decimals do not belong in ratio. This automatically invalidates because it is improper mathematically. A decimal inside of a ratio is always inappropriate. It is also impossible for less than 1 time c to be existent energy.

$.511c^2 = E$

$\frac{.511c^2}{.511} = \frac{E}{.511}$

$c^2 = \frac{E}{.511}$

4. Down, Strange, Bottom (each shows a charge = $-\frac{1}{3}$) ← UNTRUE

a. Negative solutions are always invalid. A negative charge ($-\frac{1}{3}$ in these cases) is impossible mathematically. Negative energy does not exist. A charge cannot be less than existent.

5. Muon and Tau (each shows a charge = 0) ← UNTRUE

a. Charge = 0 is impossible because 0 is not real.

b. These both show masses with decimal. It is impossible for a partial c value to exist.

6. Electron Neutrino, Muon Neutrino, Tau Neutrino, Z Boson (each shows a charge = 0) ← UNTRUE

a. Charge = 0 is impossible because 0 is not real.

b. These all show masses with decimal. It is impossible for a partial c value to exist.

String Theory

This does not deserve my Time. It disproves itself with equality to 0 all the way through it. 0 is NOT a real number, which means that every single equation in this theory are simply untrue/invalid (and completely unreasonable). The idea behind this paper (it seems) is to attempt to disprove everything existent and prove nothing (0) existent.

Experiments in Time

The Double Slit Experiment

E = Water
E = Wave
E = Illusion

Simplify, and then you can reason this very easily. A closed experiment with water (which is E), that measures its wave functions (in every way literally), can prove that Energy ever wave. It cannot, and will never, ever, change format. Otherwise, water would not function, because that energy would not wave. If water did not wave, that function would not be, and everything it wave - that is E.
