MAID FOR EACH OTHER LTD.

To all employees and subcontractors,

Health and safety is a top priority for me. I also believe maintaining safe working practices is a shared aim for both management and cleaning staff.

My approach is to take every reasonable step to prevent injury, protect property, and reduce exposure to any foreseeable hazards at work. That said, every member of staff has a responsibility to fully support and cooperate with this policy.

A lot of time has been spent preparing this information on our website to help you. Please take a moment to read through it and make sure you understand the information inside.

Most importantly, never compromise your own safety—or anyone else's—to complete a cleaning task. It's simply not worth the risk.

Please remember: if you're unsure, STOP and ask for guidance before proceeding.

Thank you.
