# FOR IMMEDIATE RELEASE

**Author Richard Cadô Unveils "The Butterflies of Hell (Bow Tie) - Volume II": Beyond SpaceX and YouTube, the Manuscript Deciphering Our Future**

**MONTREAL, November 2026** – More than two decades after laying the foundation of a universe where fiction defies reality, author Richard Cadô announces the exclusive launch of his visionary novel, *The Butterflies of Hell (Bow Tie) - Volume II* (*Les Papillons de l'Enfer - Tome II*).

Entering the prestigious 2026 Kindle Storyteller Contest as the industry looks toward the 100th anniversary of the Oscars in 2028, Cadô offers readers a work that transcends speculative fiction to become a technological and spiritual manifesto.

**An Unprecedented Visionary Legacy** As early as 2002, Richard Cadô included the term "Dragon Space" 51 times in his writings—long before the emergence of Elon Musk's SpaceX—while foreshadowing the global content broadcasting model that would lead to YouTube. Volume II reveals other visions already in motion: the convergence of quantum genetics, resource management by an interplanetary authority, and the birth of the "Temples of Cinema"—true academies of the *Real Fake* designed to protect human authenticity against the slavery of the Metaverse and Deep Fakes.

**The Awakening of the "Robin of the Stars"** ¨

The protagonist, Apollon Butterfly, evolves from an Oscar disruptor to the "Guardian of the Earth". His mission: to establish a new state of global harmony through the *Billion Dollar Bow Tie Club* and the *Human Capital Bank (HCB)*—a revolutionary financial system based on intrinsic human potential rather than the current oligarchic regime.

**The Five Prophetic Pillars of Volume II**

- **The Human Capital Bank (HCB):** An inclusive economic model stabilizing global markets against crashes by investing in the intrinsic value of every individual.
- **The "Real Fake":** The antidote to virtual idleness, restoring human discipline, effort, and authenticity as ultimate safe havens.
- **Quantum Sovereignty of Mother Nature:** Environmental regeneration and systemic crises viewed as catalysts for mandatory international solidarity.
- **Interplanetary Governance (Sky People Federation):** Humanity's integration into a cosmic oversight council governed by quantum physics.
- **The Twin Revolution:** The emergence of heightened cognitive and sensory faculties required to pilot tomorrow's technologies.

**A Work Ready for the Small Screen & The "Richard Cadô Crash-Test"**
Structured like a fast-paced television series (3 Acts divided into 98 immersive subsections with 32 illustrations, including 25 full-page color plates), the Butterfly universe is primed for a major TV series adaptation. Richard Cadô also invites podcasters, streamers, and journalists to take the **Author's Crash-Test**: open the book at random live on air and read a single section to experience its immediate narrative pull.

**Availability & Media Contact**

The French edition is available now worldwide on Amazon Kindle. The English edition (*The Butterflies of Hell (Bow Tie)*) is currently in preparation—contact us for advance review copies (ARCs), global voice & screen casting, or B2B partnerships. **Richard Cadô** | Email: richard@cadoco.com | Website: https://cadoco.com
