Introduction II

Chapter 1: The Time War (Part 1): Job 1

Chapter 1: The Time War (Part 2): Genesis 19

Published on November 12th, 2026, JULIAN calendar,
or November 25th, 2026 (Gregorian), and 4724, 10th Month 17 (Yin).

There are exactly 8,700 words in this mini-book.

Introduction

A civilized nation should keep transparent, accurate records, of course. Yet, with the vast Dead Sea Scrolls falsification of ancient Bible manuscripts scheme, the US/West abandoned any pretense of transparency. In the decades after the execution of the DSS scheme, older Bibles were taken out of circulation, with help from Salvation Armies and Good Wills, and new, updated Bibles were distributed, through conventional sales –and large scale Bible "giveaways," in the 1970s; the most notable of these giveaways was through an organization called *Campus Crusade for Christ* (CCC), who in 1976 gathered 15,000 churches to provide free Bibles to be distributed in 246 US cities, by 300,000 Christian volunteers –likely the largest and most expensive Bible giveaway, ever.[1]

But when the new Bibles went out, they did not explain what was altered.

This situation continues today. In my almost 3-year effort to find exactly what was removed or changed with the Dead Sea Scrolls, the US/West's internet has been useless, Wikipedia only says which Dead Sea area caves allegedly held certain types of manuscripts. My effort to find credible and verifiable pre-1947 Bibles, online, produced nothing, and many fakes.[2] A nation committed to truth would have countless books, documenting precisely what was changed, available everywhere. The people of the US are not absolved in this; they believe what they are told, and look where they are told.

Usually after I write something like this, Google produces articles and videos showing the converse. Thus, we might expect to see videos of people finding and buying old Bibles soon. But a thinking public would stay focused, and ask:

1. Why don't our Bibles document precisely what was changed in the Dead Sea Scrolls changes, so we can contrast and analyze the changes?
2. Why has this situation persisted for 50 years?
3. Upon whose authority were the Bibles changed?

They would also demand to know what science methods verified the scrolls.

Junk radiocarbon dating, concocted in 1946, was used to verify the DSS fakes.

April 10th, 1948, Millar Burrows announced the finding of the Dead Sea scrolls, purportedly found in caves in the West Bank, Palestine, in 1946. A month before Burrows announced the DSS, in March 1948, a man named W.F. Albright (allegedly an archeologist), saw photographs of the DSS and dated them around 200 BC.

A month later, May 1948, Israel was formed, with America's support.

Seven years later the DSS were first verified by radiocarbon dating.

Thus, with effectively no evidence, the US/West used the DSS to create Israel.

The problems with the DSS are more obvious. A few examples follow.

---

[1] The enormity of this giveaway suggest Satan and John Gardner were behind it. The 3 C's of ***C**ampus **C**rusade for **C**hrist* point to Gardner, tied to many C organizations: Carnegie Corporation, Common Cause, Carnegie Commission, Carter Commission…

[2] I am no internet search amateur. Circa 2022, I uploaded a video of Google and the Internet Archive altering my search results, to obstruct my productive internet investigation. A few of my books are largely based on my online investigative work.

1

First, perhaps the most obvious and insurmountable *do-it-yourself* evidence of Satanic fakery: 90% of the Dead Sea Scrolls were "found" in 1952, in Qumran cave #4. But there is one manuscript in cave #4 that seems to reveal all of the DSS as fake. That document is listed on Wikipedia's *List of the Dead Sea Scrolls* page, the *Beatitudes*, from the Book of Matthew (5:3-12). A screenshot segment from Wikipedia's *List of the Dead Sea Scrolls* page is below. This is the only New Testament document I found in the DSS.

4QTempleScroll[b]	Temple Scroll	4Q524		Hebrew	Hasmonean		[3][335]
4QBeatitudes		4Q525	Sirach 25:10;[336] Matthew 5:3–12 (Beatitudes)	Hebrew	Herodian		[3]
4Q TJoseph	Testament of	4Q539		Aramaic	Hasmonean		[337]

THE PROBLEM. The problem with the document is: the Book of Matthew, with the Beatitudes, was written around 65 AD. The overwhelming problem here is: How did the Dead Sea Scrolls writers put hundreds of documents in a cave around 200 BC, then leap 265 years into the future to steal a passage from the book of Matthew, then bring that manuscript passage back in time, to a cave in 200 BC?

Impossible. [3]

2

The next problem is the fact that archeologist W. F. Albright verified the DSS, and confidently dated them to around 200 BC, stating, "All competent students of writing conversant with the available material and with paleographic method date the scrolls in the 250 years before 70 AD." Albright was able to make this prepared statement, because there were no *available materials* for student *experts* to be conversant in. In 1902 the US/West "found" the *Nash Papyrus* (another fake), which immediately became the oldest Hebrew Biblical manuscript, from around 150 BC. Before the Nash Papyrus the oldest Hebrew Biblical manuscripts were from the 5th or 10th centuries –*IF* these manuscripts are legitimate.

3

A valid response to something like the DSS would be to invite international teams of investigators, and archeological and theological experts, to do separate and coordinated investigations –for decades. The US/West invited no outsiders.

Radiocarbon dating is deceitful garbage.

I encourage readers to read "The Secret Crime of John W Gardner" section of *Revelation 2: The Solutions*, to see how Gardner, Satan and the US/West falsified the *Book of Isaiah*, and to learn how these desecrations served their larger agenda.

[3] Notice the DSS conspirators also allege that a line from Sirach (25:1) was found in cave #4. Sirach was invented by Satan and the US/West, to falsely allege Jesus' original words (including the *Beatitudes*) were taken from Sirach. The first Sirach document was not found until 1896 AD (about 130 years ago). More Sirach fakes were *found* in the DSS, 1946 to 1956. One last Sirach fake was found around 1964.

Chapter 1

The Time War

(Part 1)

JOB

In September 2026, I published the article *The Disinformation War* in section 7 (VII) of *The Revelation Two Hour War Date & Time Codes*. The article was notable, primarily, because it showed, without question, Satan and the US/West conspiring to falsify the age of the Book of Job –the oldest book of the Bible.[1]

This article goes much further, as I show Satan and his beast used the Dead Sea Scrolls scheme to try to make Job appear about 2000 years newer than it truly is. But in Satan's and the West's hasty alterations, they added anachronistic details that reveal the forgery. And God, aware of Satan's future schemes, inserted a few key phrases and details to expose the falsification. By the way, If you are not familiar with my prior reports and books about Satan exploits against God, his favor of the US/West, and his beast –US statesman John W Gardner– was able to communicate with Satan, directly, at will, and execute all of his orders. [2]

But God had a much more important reason for exposing the Satan's fraud, and establishing the true age of the Book of Job (revealed on pages 13 and 14).

As for Satan, the reason he wanted to make Job and other books appear to be written many hundreds of year later than they were, was: Job and the other Bible books track some of the most import advancements in human history (the origin of phonetic alphabets, the transition from the bronze age to the iron age, the origin of government…), and most of the most important advancements occurred in the Middle East or the East. But Satan strongly favored North-Western Europeans, and resolved to use them to carry out his War Against God. Job was written in the middle

[1] *The Disinformation War* showed Satan and US tech company *Google* falsifying internet records and search results to falsely allege Job was written in 550 to 330 BC, roughly 1,500 to1,800 years after it was actually written.

[2] Gardner was Satan's beast from 1937 to 2000, John C Malone became Satan's beast immediately after, 2000-2025. It's possible that Malone received, from God, a service extension, until the end of 2027. Currently this is unclear. The worst of the crimes occurred under John Gardner. However, in recent decades, under John C Malone, the US/West has aggressively pushed to move Job about 2,000 years out of place, from 2200 BC to 300 AD.

of the Bronze Age, roughly a thousand years before the Iron Age began. The problem for Satan was rooted in his supremacist perspective. People of the Middle East (Syria, Iran, Iraq, Israel…) entered the Iron Age around 1200 BC, hundreds of years before Rome, and almost 2,000 years before Northern Europe. While many of us would reason Northern European must not have really needed iron, or maybe it was exceedingly hard to obtain, a supremacist would assume this indicated White western and northern Europeans were not as intelligent or not as evolved as the people of the Middle East. This, in Satan's mind, was a problem.

But, if Satan were able to substantially alter Job –and every other Bible book that contained information Satan disliked, he could make Western Whites appear as if entered the Iron Age about the same time as the Middle East –or even earlier!

Thus, to make Western Europeans appear superior, and to corrupt truth, to offend God, Satan hatched the Dead Sea Scrolls scheme, executed in 1947, which would falsify parts of every Old Testament book except Esther.

Satan's War against Job started by bribing corruptible fake Western and Jewish scholars to allege they author of Job was unknown –or possibly Moses. By alleging Moses may have Written Job (circa 1440 BC), Job was immediately moved from around 2200 BC to sometime around 1400 BC, 8O0 years later.

Although this report focuses on Satan's successful efforts to sabotage God's work, the primary purpose of the Book of Job was not sabotaged. The Canaanites were the first people to develop a phonetic alphabet. The Hebrews were wise enough to adopt it. Somehow God found the Hebrews more virtuous than the Canaanites; thus, He appeared to Job and the Hebrews.

Although Job was composed when written language was in its infancy, Job is extremely rich in language, as Job and his friends engage in a series of debates. Thus, about 3,700 years before public schools existed, through the Book of Job, God provided the Hebrews a profound document, full of advanced ideas and the new standards for civil debate. Through Job, God also introduced several storytelling standard approaches that are still widely used and revered today, like recurring refrains and arrangements ("*Have you considered my servant Job, that there is none like him on the Earth, a blameless and upright man, who fears God*…," 1:8 and 2.3; and ***"'…and I alone have escaped to tell you." And while he was still speaking another also came and said…',*** see 1:15-19)

The first sentence of Job declares Job was "…from the Land of Uz."

Thus, Satan and the West resolved to obscure where Uz was. The notes of my Bible (from 1986) authoritatively, but without basis, claims Uz was in Median, hundreds of miles southeast of Israel, in modern day Saudi Arabia. That is wrong.

Currently, Wikipedia claims Uz was either in the nation of Aram or Edom (see Wikipedia insert image below). But Wikipedia goes on to suggest Edom is the more likely location of Uz. Google supports this.

Land of Uz

16 language

Article Talk Read Edit View history

From Wikipedia, the free encyclopedia

For the setting of the Oz book series, see Land of Oz.

The **land of Uz** (Hebrew: אֶרֶץ-עוּץ – *ʾereṣ-ʿŪṣ*) is a location mentioned in the Hebrew Bible, most prominently in the Book of Job, which begins, "There was a man in the land of Uz, whose name was Job".[1]

The name "Uz" is used most often to refer to Uz, son of Aram, presumably the region's namesake. He is mentioned repeatedly in the Bible, in the books of Genesis and 1 Chronicles. It is most often theorized that the Land of Uz is located in either Aram, Edom, or both.

Location [edit]

It has been long debated if Uz is in either Aram or Edom. In the Bible, Genesis 10:23, Genesis 22:21 and 1 Chronicles 1:42 mention Aram, son of Shem, whose firstborn son is named Uz. Thus, Rashi places Uz in

But this is very wrong.

Why would Satan want the world to believe Uz was in Edom?

Edom was the second name of Esau, Isaac's first son; perhaps a good man, but so dumb and without foresight that he sold his birthright to Jacob for a bowl of stew. So by alleging Uz was in the land founded by Edom, Satan and the West hope to associate Job with a fool.

To roughly locate the land of Uz, we can use the Bible and a bit of common sense. Genesis 9:19 says the whole world was populated from Noah's three sons.[3] The Bible also tell us Noah's first son was Shem (Gen 9:18, 10:1). Shem's youngest son was **Aram** (10:22). The first son of Aram was **Uz** (19:23). Genesis 10:31-32, restates that the nations of Earth came from Noah's sons:

> (31) *These were the sons of Shem, according to their families, according to their languages, in their land, according to their nations.*

[3] This is surely a purposeful exaggeration (or a useful "alternate explanation"), as Biblically, God reveals only what is necessary, or what we have earned (e.g. #1, God did not give us the first book of the Bible, Job, until we learned to read and write ; e.g. #2, God, pragmatically, for our survival, gave us dietary law, and taught us not to eat unclean animals, without explaining "germs" or the size of the universe, knowledge that God left for us to obtain on our own).

(32) *These were the families of the sons of Noah, according to their generations, in their nations; and from these the nations were divided on the Earth after the flood.*

Thus, God discretely suggests many nations of the Earth will come from Noah's sons, grandsons and great-grandsons.

Accordingly, see might expect to find a nation with Aram's name (Noah's grandson, and Shem's son). And, yes, there was a land called *Aram*, northeast of Israel (although the US/West and Satan have falsified Aram's historical timeline).

As Uz was Aram's first son, we know that *The Land of Uz* was within the boundaries of Aram, surely given to Uz by his father.[4]

If we are faithful to knowledge, logic and God, we now easily deduce that Job was a direct descendent of Uz, Aram, Shem and Noah, as all of the early books of the Bible focus on either Noah's predecessors or his descendants. To support this, in Job, God hid an important *confirmation clue*, to guard against people like the publishers of my Bible, who theorize in my Bible's notes, that Moses wrote Job, and remind us that Moses lived in Midian, which they falsely allege was adjacent to Uz, and from Median Moses may have obtained Job's writing. Thus, seeing this ploy thousands of years ahead of time, God included in the Book of Job verses 15:18 and 19, which declare that no strangers (foreigners/aliens) came into Uz. The purpose of this was not to preclude a visit from Moses' associates 800 years later, but to establish that Uz had been a tightly knit society, making it certain that Job was a direct descendant of Uz, Aram, Shem and Noah. Job 15:18 and 19 reads:

18 *Which wise men have told from their fathers, and have not hid it;*
19 *Unto whom alone the land was given,*
and no stranger passed among them.

Satan and the West added hundreds of verses to Job. Satan was not discrete, he added many complete chapters. It's pretty easy to tell where Job and God's work ends, and Satan's work begins.

But God tips us about the coming dramatic writing style change when He addresses Satan in 1:7, and asks Satan where he's been, and Satan replies, "From going to and fro on the Earth, and from walking back and forth on it." These two sentences are redundant. God is telling us Satan will use a long-winded, repetitive writing style. However, Satan does something to indicate he is being deliberately longwinded and repetitive, to mock and insult God, to degrade God's body of Work, and deepen Satan's desecration.

[4] Wikipedia supports its position that Uz was in Edom, by citing Bible verses that were part of the Dead Sea Scrolls scheme.

Before we get to the chapters and verses Satan added, let's look at a portion of 14 original and true verses from Job, to establish how succinct and methodical God's work is.

Between Job, Chapter 4 and Chapter 24, there are 14 "speaker change introductions," introducing the four changing speakers (Job, Eliphaz, Bildad and Zophar). Each speaker change is introduced exactly the same. Job, who is a native of Uz, is not named by his region; but his three friends are consistently associated with their country of origin. These 14 new speaker introductions follow:

	Verse #	
1	**4:1**	Then Eliphaz the Temanite answered and said:
2	**6:1**	Then Job answered and said:
3	**8:1**	Then Bildad the Shuite answered and said:
4	**9:1**	Then Job answered and said:
5	**11:1**	Then Zophar the Naamathite answered and said:
6	**12:1**	Then Job answered and said:
7	**15:1**	Then Eliphaz the Temanite answered and said:
8	**16:1**	Then Job answered and said:
9	**18:1**	Then Bildad the Shuite answered and said:
10	**19:1**	Then Job answered and said:
11	**20:1**	Then Zophar the Naamathite answered and said:
12	**21:1**	Then Job answered and said:
13	**22:1**	Then Eliphaz the Temanite answered and said:
14	**23:1**	Then Job answered and said:

Each introduction is so spare and predictable that each speaker's introduction is repeated, exactly, at least once; Job's introduction occurs 7 times (with 6 exact repeats). In this, God is modeling how to tell an efficient story, but He also shows this to indicate He is even, predictable and fair.

Job's friends are associated with their country of origin to show that many immigrants were attracted to Uz, and they were welcomed, and Job became close friends with some of these immigrants. This, of course, is God telling us we should all welcome immigrants.

Finally, notice that all of the previous speaker change introduction verses occurred in verse #1 of the chapter.

But everything changes in Satan's chapters and verses.

Satan's Chapters begin at Chapter 25.

I believe Satan wholly falsified 13 complete chapters, and parts of 4 chapters.

The 13 complete chapters Satan falsified are: 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, 36, 37, 39. The 4 partial chapter sections Satan falsified are Chapter **38**, verses 22 to 41; and **40**:1-7, 40:13, 40:15-24; and **41**:5, 41:7-9, 41:11-34; and **42**:1-6.

These 13 full chapters and 4 partial chapters represent the number **134**, which refers to Revelation 13:4, which reveal that the West worshipped the Dragon (Satan):

> *So they worshipped the Dragon, who gave authority to the beast, and they worshipped the beast, saying, "Who is like the beast? Who is able to make war with him.*

In this scheme, Satan altered **404** verses of the Book of Job. 404 refers to the 404 verses of Revelation, and the 404th Bible verse: Genesis 17:6, where just before God make His Covenant with Abraham, He promises: *I will make you exceedingly fruitful, and I will make nations of you, and kings shall come from you.*

Satan's numerical point is to link his desecration of Job to Revelation and to Hebrews –and all people God loves and who love God, whom Satan will attack. [Readers familiar with *The Punctuation War* (from *The Revelation Two Hour War Date & Time*) or my other prior writing on the 7 (now 8) human timelines, may recall that verse numbers were not added to the Bible until Line 7, in 1560.] [5]

Satan's Fake Chapters and Sections Dissected

In Job, Chapter 25, the first of Satan's fake chapters, Satan appears to demonstrate that, if he wanted, he could approximate God and Job's verse style, as in Chapter 25, verse 1, where Satan succinctly introduces a new speaker, Bildad:

*Then **B**ildad the Shuite answered and said.*

Written exactly as God and Job introduced Bildad in 8:1 and 18:1.

There are two indications that Chapter 25 was written by Satan. First, Chapter 25 it is only 6 verses long (6 being Satan's primary number), shorter than most of the other chapters, which average about 25 verses. The second clue that Chapter 25 may be Satan's work is verse 6 (25:6), which reads:

> And how much less man, who is a maggot,
> and the son of man, who is a worm.

In the sneering tone, Satan may be insulting Jesus, often called *The Son of Man*.

[5] Readers should remember that I am alleging Satan and Gardner altered these passages in the DSS scheme, 1947 to 1956.

But in the subsequent 16 chapters, 26 to 41, Satan demonstrates he has no interest in approximating God and Job's style. Satan's aim is degrade and corrupt God's work, for the false glory of the West, by adding a few verses that mention iron, to cause readers to believe Job was written in the Iron Age, much later than previously believed. Beyond a few mentions of iron, Satan added hundreds of longwinded verses, and introduced a new character, Elihu, based on Satan.

Now let's look at 9 of Satan's speaker change introductions and see how they differ from the previous true speaker change introductions (there are 12 speaker change introductions from chapter 26 to 42; eleven of these are falsified, and three are the work of God and Job, interspersed amid Satan's falsifications.

The speaker changes below are those falsified by Satan, Gardner and the US/West; words that differ from Job/God's previously established style are **highlighted**.

	Verse #	
1	**26:1**	***But*** *Job answered and said:*
2	**27:1**	***Moreover Job continued his discourse*** *and said:*
3	**29:1**	*Job* ***further continued his discourse,*** *and said:*
4	**32:1-6**	***So these three men ceased answering Job…*** | This introduction goes on for 6 verses, and about 110 words, ending at 32:6, with the sentence: ***So Elihu, the son of Barachel the Buzite,*** *answered and said*:
5	**34:1**	***Elihu further*** *answered and said.*
6	**35:1**	***Moreover*** *Elihu answered and said:*
7	**36:1**	***Elihu also proceeded*** *and said:*
8	**40:1**	***Moreover*** *the Lord answered Job and said:*
9	**42:1**	*Then Job answered* ***the Lord*** *and said:*

One of the most important things to notice in chapters 25 to 41 (which is mostly Satan's falsified work), is chapter 31. Chapter 31 is God and Job's original work, and ends at 31:40, with the sentence: ***The words of Job are ended***; thus, in the true and original Book of Job, Job never spoke after this statement.

The original and true structure of Job is (in blue):

True & Original Book of Job:	**Satan's fake Sections**
Chapters 1-24 **Chapter 31** (which was chapter 25) **38:1to 21** (which were chapter 26) **40:8-12**, **14**, and **41:1-4**, **6**, **10** (which were chapter 27) **42:7-17** (which were chapter 28, the final chapter).	Chapters **25, 26, 27, 28, 29, 30, 32, 33, 34, 35, 36, 37, 39.** Sections: **38:22-41; 40:1-7, 13, 15-24; 41:5, 7-9, 11-34; 42:1-6.**

- *Notice Satan's use of B-words proximate to his desecrations. This will be explained later.*

Placing Job in History

My current Bible was produced and published in 1985, by the Thomas Nelson Publishers (TNP), and given to me as a gift in 1986 or '87. In the many notes sections of my Bible, the publishers do many things that are favorable to Satan and the US/West's effort to corrupt the Bible, such as including pages of notes praising the fake Dead Sea Scrolls.

However, in 1985, over 30 years after the DSS, my Bible publishers were still not ready to falsely allege Job was not the Bible's oldest book, or one of them, as corrupt or ill-informed publishers of today. In the first sentence of the introduction to *Job*, TNP wrote: "Job is perhaps the earliest book of the Bible." A page later, TNP approximated, fairly accurately, that, "The Book of Job concerns the transforming crisis in the life of a great man who lived perhaps four thousand years ago."

Yet, as if softening the soil for future assaults on Job, TNP falsely alleged, "The author of Job is unknown" (the author is only as unknown as Christian and Judaist leaders wish; I know the author of Job to be Job). The publishers then speculate Job was written by Moses, circa 1440 BC, 800 years after the events of Job.

To establish Job was written in the Patriarchal Period (roughly 2300 BC to 1900 BC), below is a list of 11 facts, the first 7 were taken from the notes of my Bible, the final 4 are facts I compiled from my own research and reading of Job.

1. Job lived 140 years after the events of the book, placing his lifespan around 200, which fits the patriarchal period
2. Job's wealth is measured in livestock, rather than gold and silver
3. Like Abraham, Isaac, Jacob, Job is the priest of his family and offers sacrifices,
4. These is no reference to Israel, the Exodus, Mosaic law or the tabernacle,
5. The social unit in Job is the patriarchal family clan;
6. The Chaldeans, who kill Job's servants, are nomads and not yet city dwellers;
7. Job uses the Patriarchal name for God, "Shaddai", this term is used 31 times in Job, but only 17 times in the rest of the Old Testament.
8. Job is very wealthy, but lives in a **tent** (in Job *tent dwelling* is frequently mentioned). Tent dwelling was common in 3000 BC to 2000 BC, but by 1000 BC few people lived in tents, and no wealthy people lived in tents.
9. Job and his friends sit on the "ground" in Job's home. This is fairly primitive, and the only place in the Bible where people sit on the "ground" indoors.[6] [7]

[6] The only other places in the Bible where I found people who specifically sit on the "ground" is Isaiah 3:26 and Lamentations 2:10. Both of these are unflattering references to the dishonorable "Daughters of Zion."
[7] "Floors" are not described in houses in the Bible until many centuries after Job (see Judges 3:25).

10. Bronze is mentioned in the legitimate chapters of Job (1 to 24), but not iron.
    - Hebrew is an advanced language; yet, somehow, Hebrew uses the same word for bronze and brass, although brass came thousands of years later. Brass, according to my research, was not created until around 100 BC, by the Romans. So we know all references to "brass" in Job are mistaken, the proper term is bronze.
11. Although musical instruments are mentioned in Job's legitimate first 24 chapters (*tambourines, flutes* and *harps* in 21:12), trumpets are not. But later Bible books, *Exodus, Leviticus, Numbers…Revelation* commonly feature trumpets, which are associated with God's angels. Trumpets were not invented until between 1800 BC and 1300 BC.

In effort to fraudulently forward-date Job, in the DSS scheme, Satan and the West inserted the word "iron" in several of chapters and sections that Satan falsified (chapters 25-30 and 32-37, etc). The word iron appears in 28:2, 40:18, 41:27.

To reinforce this effort, Satan and Gardner also inserted the word "trumpet" in Job's falsified chapters and sections, specifically in 39:24 and 39:25. Trumpets were invented hundred of years after the events in Job.

Ways US/Western & Judaist Publishers Act to Falsify Job

- In Job 31:35, my Bible features the word "book". But books didn't exist until around 500 AD (China; the earliest printed book is *Diamond Sutra*, circa 450 AD). Other nations would not develop the capacity for printed books for centuries, about 3000 years after Job's time. Thus, I looked into the Hebrew translation of 31:35, it reads:

  Oh that I had one to hear me! Lo, here is my signature, let the Almighty answer me –and that I had the ***indictment*** *which mine adversary hath written!*

So Satan and the West redefined *indictment* to mean "book," an unlikely interpretation, designed to help move Job 2,000 years out of place.

- In the time of Job (circa 2200 BC) there was no coin or paper currency (money), yet for decades, possibly centuries, Western Bible publishers have inserted the word money in Job, in verse 31:39. The original Hebrew translation of 31:39 does not use the word "money", rather the word is -כֶּסֶף; (*kásef*), which means "silver", and evolved also to mean "wealth," and evolved to mean "money" centuries later, as coin money did not come to the middle East until around 500 BC. The correct Biblical meaning of כֶּסֶף; (*kásef*), in Job, is silver.
- Satan scheme also included the word "treasuries". This is false, you get the idea. He also added the word *Mazzaroth*.

ELIHU: Satan's Numbers

Satan's fake Job chapters begin at Chapter 25. Then, about one-third of the way through the Dead Sea fakes, in chapter 32, Satan introduces his invented character Elihu. Elihu is too unlikeable to spend time analyzing. Satan's strengths are crime and destruction, not writing. The thing to know about Elihu is he helps sign Satan's name to the crimes against the Book of Job, and he helps lead us to similar crimes in Genesis.

Satan's name has 5 letters, in English. And Satan's alphanumeric name total is **55**: S = 19, A = 1, T = 20, A = 1, N = 14; thus, 19+1+20+1+14 = **55**.

Elihu's name has 5 letters, in English. And Elihu's alphanumeric name total is also **55**: E = 5, L = 12, I = 9, H = 8, U = 21; thus, 5+12+9+8+21 = **55**.

Satan likely saw nothing significant about his alphanumeric name total until he erased the Prophet Elijah on Line 3 (which Satan mistakenly thought was Line 1, which he calls *line A*). My mini-book *The Life and Crucifixion of Emanuel* (TLCE), and my book *Line 5: The Hands That Rocked Time* (L5:THTRT) explain how Elijah was erased by Satan's ability to influence social thought, primarily through weaker minds, which comprise a larger percentage of humans. Satan does not seize control of these minds (although he can possess his worshipper, as needed), he just suggests some selfish ideas, and the weak-minded go along.

Elijah was not erased on Line 2, but Satan did erase Elijah on Line 3. Because Satan knows that God's Prophecies are ever-reliable, when the Messiah Emanuel did not arrive after Elijah was erased, Satan believed he erased Emanuel too. But Satan is mistaken. Emanuel came on Line 2. On Line 3, because the Messiah or Savior is such an important duty, Emanuel took a new name, *Jesus*; one of many reminders that neither God nor Jesus will forget any soul on any timeline. For reason that are partially explained in TLCE and L5:THTRT, God erased Satan's memory of Line 2, so he did not remember Emanuel or the first Elijah.

The reason Satan named his fake Job character **Elihu**, was because Elihu started with and ***E***, and the name total was 55, alphanumeric for ***EE***, an abbreviation for *Emanuel and Elijah*. Satan is boasting he had the power to alter God's Prophecy.

A boast he made well aware that his powers came from God.

To gain powers, Satan and God make Wagers, and God gave Satan powers according to what Satan *accomplished* and whether or not he won the Wager, although God has been known to *let* Satan win (see *My Stepdad Was One of the Zodiac's Santa Rosa Hitchhiker Murderers*).

There may be many lateral reasons Satan signaled 55 with Elihu, but one reason was to confirm some of the places in Genesis where he also corrupted God's word. Some of the Genesis changes involve *5* and *55* and the word *tent*, which connect back to the word *tent* in Job. The significance of the word *tent* in Job and the early chapters of Genesis, is: these two Bible books are the only times when tents were used as common dwellings for common people. Later in the Bible (I Samuel 13:2) tents are used for armies, or (2 Samuel 7:1-6) to protect the Ark, which God rejects (signaling His bond with the needy people, who have come to use tents).[8] [9]

God Refers to *the Wagers* In the Book of Job

God alludes to the Wagers, in Job 41:4, as He speaks to Job of the Leviathan:

(1) Can you draw out the Leviathan with a hook?
Or Snare his tongue with a line which you lower?
(2) Can you put a reed through his nose,
or pierce his jaw with a hook?
(3) Will he make many supplications to you?
Will he speak softly to you?
(4) ***Will he make a covenant with you?***
Will you take him as a servant forever? (Job, Chapter 41)

In verse 41:3, supplications refers to Satan always seeking new powers from God, to better mislead and damn mankind. "Covenant," in 41:4 refers to the various Wagers, which were contractual agreements –covenants.

One of God's most revealing statements about Satan relationship with Western kings and business elites come in 41:6:

Will your companions make a banquet of him?
Will they apportion him among the merchants?

With these questions God Prophesied Western elites betraying their countrymen (their "companions") to honor Satan (make a banquet), whom they made their business partner (*apportion him among the merchants*). In framing these acts as questions, God is saying it was necessary that Satan target the West as easy prey, and lure them into corrupt engagements, to accelerate the dark times.

MYSTERY QUESTION: Why does God seem to encourage Satan to signal 55?
(The solution to this Mystery can be found at the end of chapter 2.)

[8] And possibly signaling disfavor for opulent church appointments, when practical and functional can suffice.
[9] Tents are also mentioned in Isaiah chapters 38 through 54. But these are the first chapters that I identified as falsified in the Dead Sea Scrolls scheme. *Tents* are also mentioned in Jeremiah, which I suspect was heavily attacked in the DSS scheme; but the verse appears credible, as, by that points, many centuries after Job, tents have become substandard living arrangements.

Satan Reveals More Secrets About Earth In Space

As I recall, I first alleged that John W Gardner was involved in the Dead Sea Scrolls Bible falsification scheme in 2022. I certainly alleged this in early 2023, when I published *Origin Stories*. However, those early reports lacked specifics. But, in December 2023, in *Revelation 2: The Solutions* (Rev 2), I first reported specifics about some of Gardner's and Satan's fake Dead Sea Scrolls. In December 2023, I reported on the 27 books Satan and Gardner added to the Book of Isaiah. A month later, by the end of January 2024, Rev 2's Isaiah section gave very detailed account of what was added and why, very similar to how Rev 2's Isaiah section appears today. One of the secondary details I reported, found on second page of the Isaiah section, explained how Gardner and Satan revealed the Earth was round in the Dead Sea Scrolls fakes. The paragraph below, from Rev 2's current DSS/Isaiah, explains:

> One of the egregious flaws in the scheme is seen in his first fake chapter, Isaiah 40:22, as Gardner writes of God sitting "*above the **circle** of the earth*". But the Book of Isaiah was situated centuries before the world knew the Earth was round. Nowhere else in the Bible is this revealed. Even in Revelation 21:1, where John sees *old Earth* had died, God and John are careful not to reveal the Earth is round.

Following the pattern of the DSS Isaiah fake chapters, in the DSS fake Job chapters, Satan and Gardner also revealed that the Earth was suspended in space (at the time, 2222 BC, no one had any idea the Earth was in space). Satan and Gardner made this revelation in Job 26:6:

He stretches out the north over empty space;
He hangs the Earth on nothing.

Comparing Job 26:6, above, to the full Isaiah **40:22**, below; you see similarity:

It is He who sits above the circle of the Earth,
And its inhabitants are like grasshoppers,
Who stretches the heavens like a curtain,
And spread them out like a tent to dwell in.

As you see in the Isaiah verse, as Satan prematurely reveals secrets of the universe, he speaks of God "stretching" the sky. This part of a coordinated long term plan between Satan and US/Western elites: first, move Job after Isaiah (although Job occurred 1,500 years before Isaiah); then move all Bible books after the Greek and Roman gods, so Satan and the US/West can allege the Bible was derived from the Greeks and Romans, when the opposite is true.

You'll see Satan mention "tents" in his Job fakes; part of his overall scheme.

Where God and Jesus turn time, in fact, Satan would turn time in false text.

Etc.

- **Another reason God may have wiped Satan's memory of Line 2 is:** God sent Satan to Earth to accelerate human social evolution and to reduce a lengthy period of suffering, by placing greater pressure on humanity, forcing us to become more resourceful and durable, as Satan simultaneously brought new technologies to new lands. But, in the rare events when a timeline is reversed, and Satan is allowed to remember the prior timeline, and given an unmitigated second chance to harm the world, he puts tremendous -perhaps insurmountable- pressure on the world, as he vindictively remembers every person who frustrated him on the prior timeline. On Line 2 (13000 BC to 33 AD), humanity's future was in doubt, with very high mortality rates. If Satan had an unobstructed second crack at Line 2, on Line 4, the worst was possible. So God had good reason to block Satan's memory. But this is theoretical. The official reason for erasing Satan's memory of Line 2 is provided in L5:THTRT.
- In the DSS scheme, Satan emphasized the letter *B* (*but, Bildad, Barachel, Buzite*) to boast that he saw Jesus turn back time, from Line 5 to 7; thus, he *knew* humanity was on *line B*. Partially true; but Satan did not realize that mankind was actually on Line 7.

Return Point: 2222 BC

Previously, I said God had a more important reason for wanting to establish the date of Job… That reason was to establish the return point, from the end of Line 2, at Emanuel's death (circa 33 AD), back to 2222 BC –the new starting point of Line 4. This means, on Line 3 (the reverse timeline), Emanuel rewound time over 2000 years (previously, in L5:THTRT, I guessed Emanuel took Line 3 back to a few days before Jesus' human birth). The significance of this is much greater than Jesus' impossible power, this shows God and Jesus operate separately but somehow as One. Emanuel took Line 2 back to save John's legacy, but he took it back over 2,200 years, to redo Job's life (Job, Chapter 1 represents Line 2, where Job's family was killed by Satan; but Job, Chapters 2 through 42 occur on Line 4, before Job had children). Thus, in fulfilling His will, Emanuel also fulfilled God's will: to allow Satan to inflict great punishment on Job –but not upon Job's family. Thus, as Satan proved the gullible masses will betray family and nation for profit, Job proved there are a small but worthy minority of humans who will not wander from the good and Godly path, even in the face of adversity.

We should also notice that, in the Book of Job, Satan is so determined and relentless about punishing and killing anyone he believes God favors (in this case, all of Job's descendants) that it appears as if God had to give Satan a *second* memory wipe, to erase Satan's memory of Job's sons. I conclude this because at the end of the Book of

Job, God did not provide the names of Job's sons, as God does with all of the other early central Bible characters in subsequent Bible books; rather, God gave the names of Job's daughters. This suggests Satan will mercilessly pursue the descendants of anyone God favors, and anyone who ever substantially frustrates Satan's evil schemes.

I first reported that the Book of Job was situated in 2222 BC, in May 2025, on page 3 of the mini-book *The Wagers*. Today, page 3 of The Wagers carries the same explanation, with a few editorial improvements. The key passage reads:

> My take on the evidence is: Satan first challenged God to a wager in **2222** BC: the first *Job* wager (Job, Chapter 1). The modern Wagers can be traced back to 2222, from 1531, using the 68.5 year and 137 intervals. But God and Satan ventured off of that timeline between 1709 and 1751, but continued to use 68.5 and 137 years as the Wager base time units. At some point God gave Satan, or allowed Satan to earn via these Wagers, the ability to see into many, many people's minds and see virtually all important events **137** years into the future. Satan, of course, agreed, but insisted the number of years be **136.9**, and the number of days be **50,005** (365 x 137 = 50,005; but 50,005 is 34 days short of 137 years, once leap years are added). Thus, in Satan's mind, the 137 year Wagers always end 34 days before their true ending.[10]

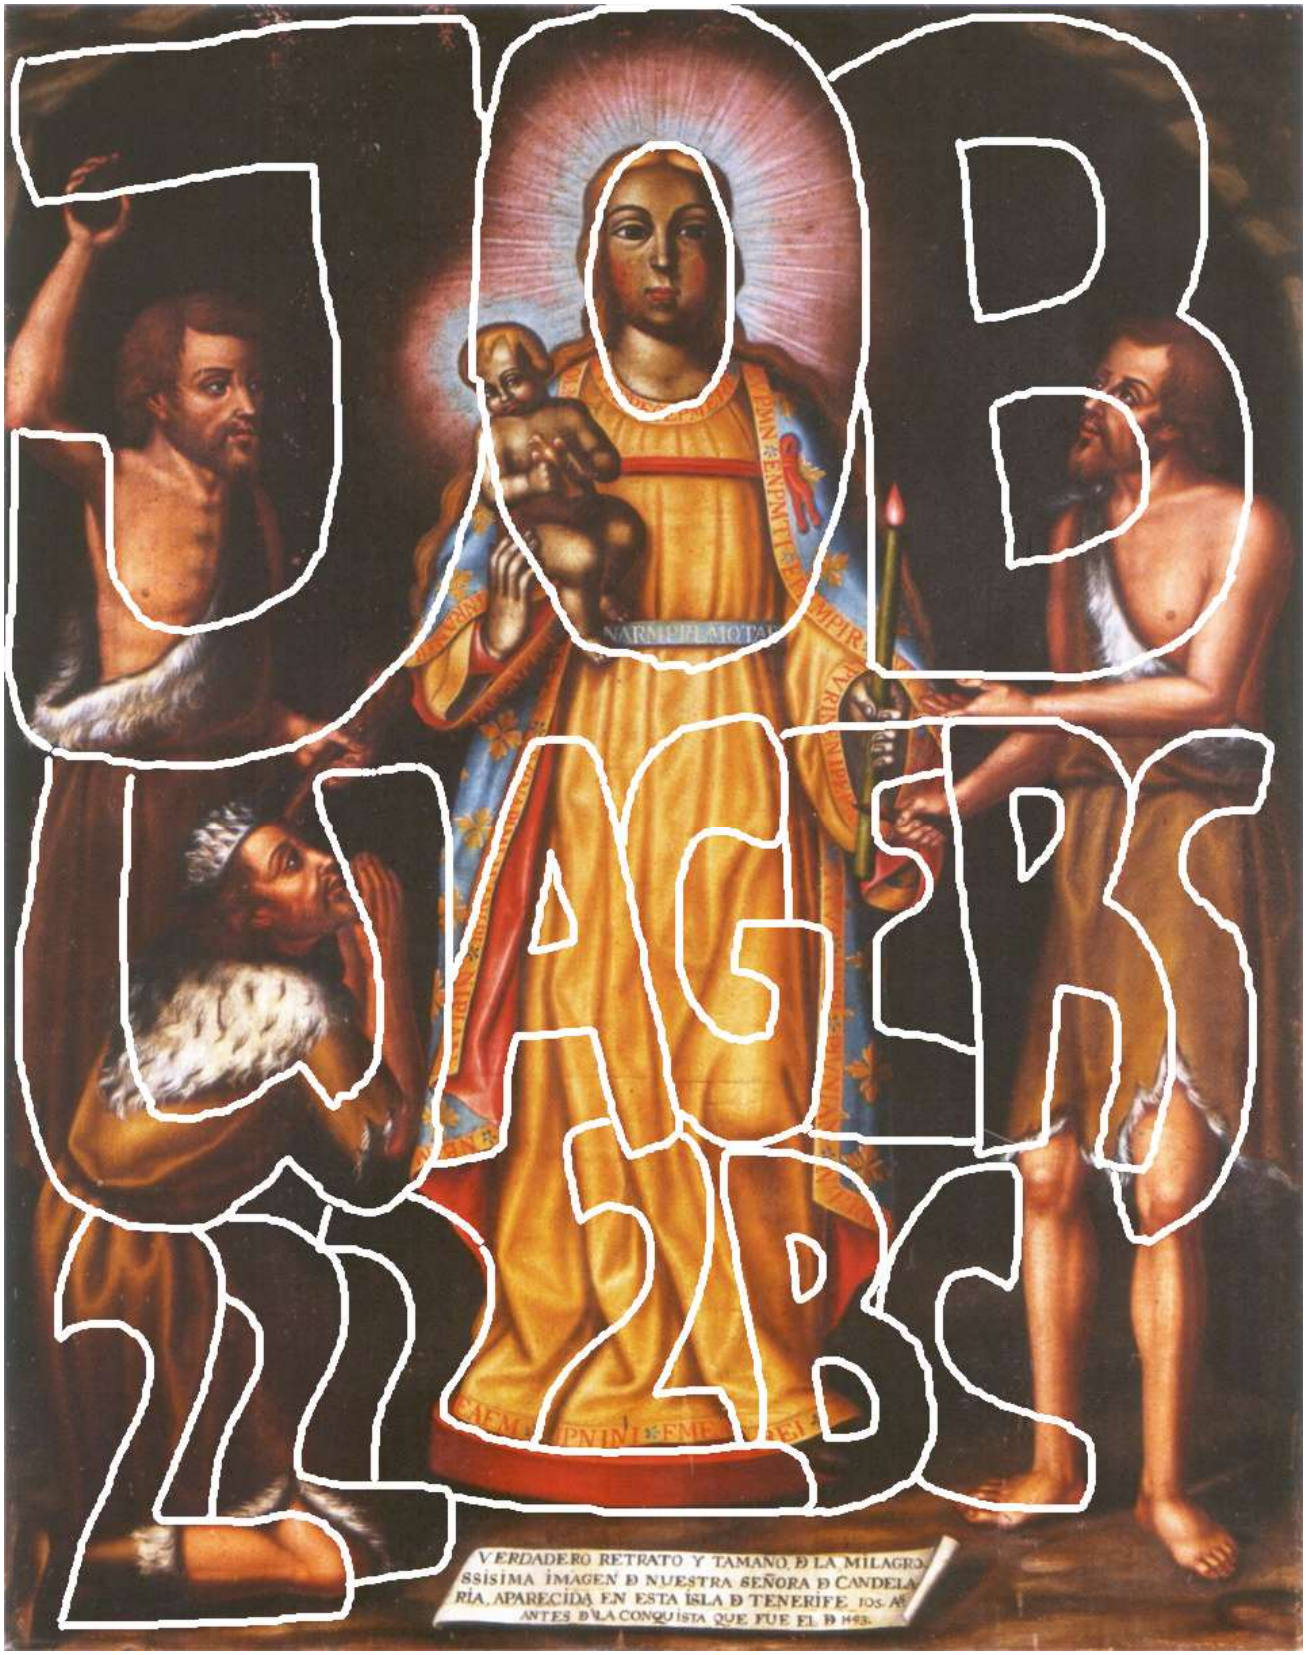
In short, 2222 BC is 4,247 years from 2025, the year that the Revelation Wagers ended (2025 + 2222 = 4247). And by measuring 31 units of 137 years (the standard Wager interval), you arrive at 4,247. Thus, moving backwards, the 31 major Wager measuring points are: 2025 (AD), 1888, 1751, 1614, 1477, 1340, 1203, 1066, 929, 792, 655, 518, 381, 244, 107; *30 BC, 167 BC, 304 BC, 441 BC, 578 BC, 715 BC, 852 BC, 989 BC, 1126 BC, 1263 BC, 1400 BC, 1537 BC, 1674 BC, 1811 BC, 1948 BC, 2085 BC, 2222 BC.*

Many or most of the people kind enough to read what I've published since 2023 know that between 2025 and 2026, I happened upon several sacred images (created by God and/or Jesus; at least one appears created by Jesus alone), and I often consult these images to see if they might substantiate my solutions. So I consulted three of these sacred sources, to see if they confirmed the 2222 BC date. The results are presented on the following 4 pages…

---

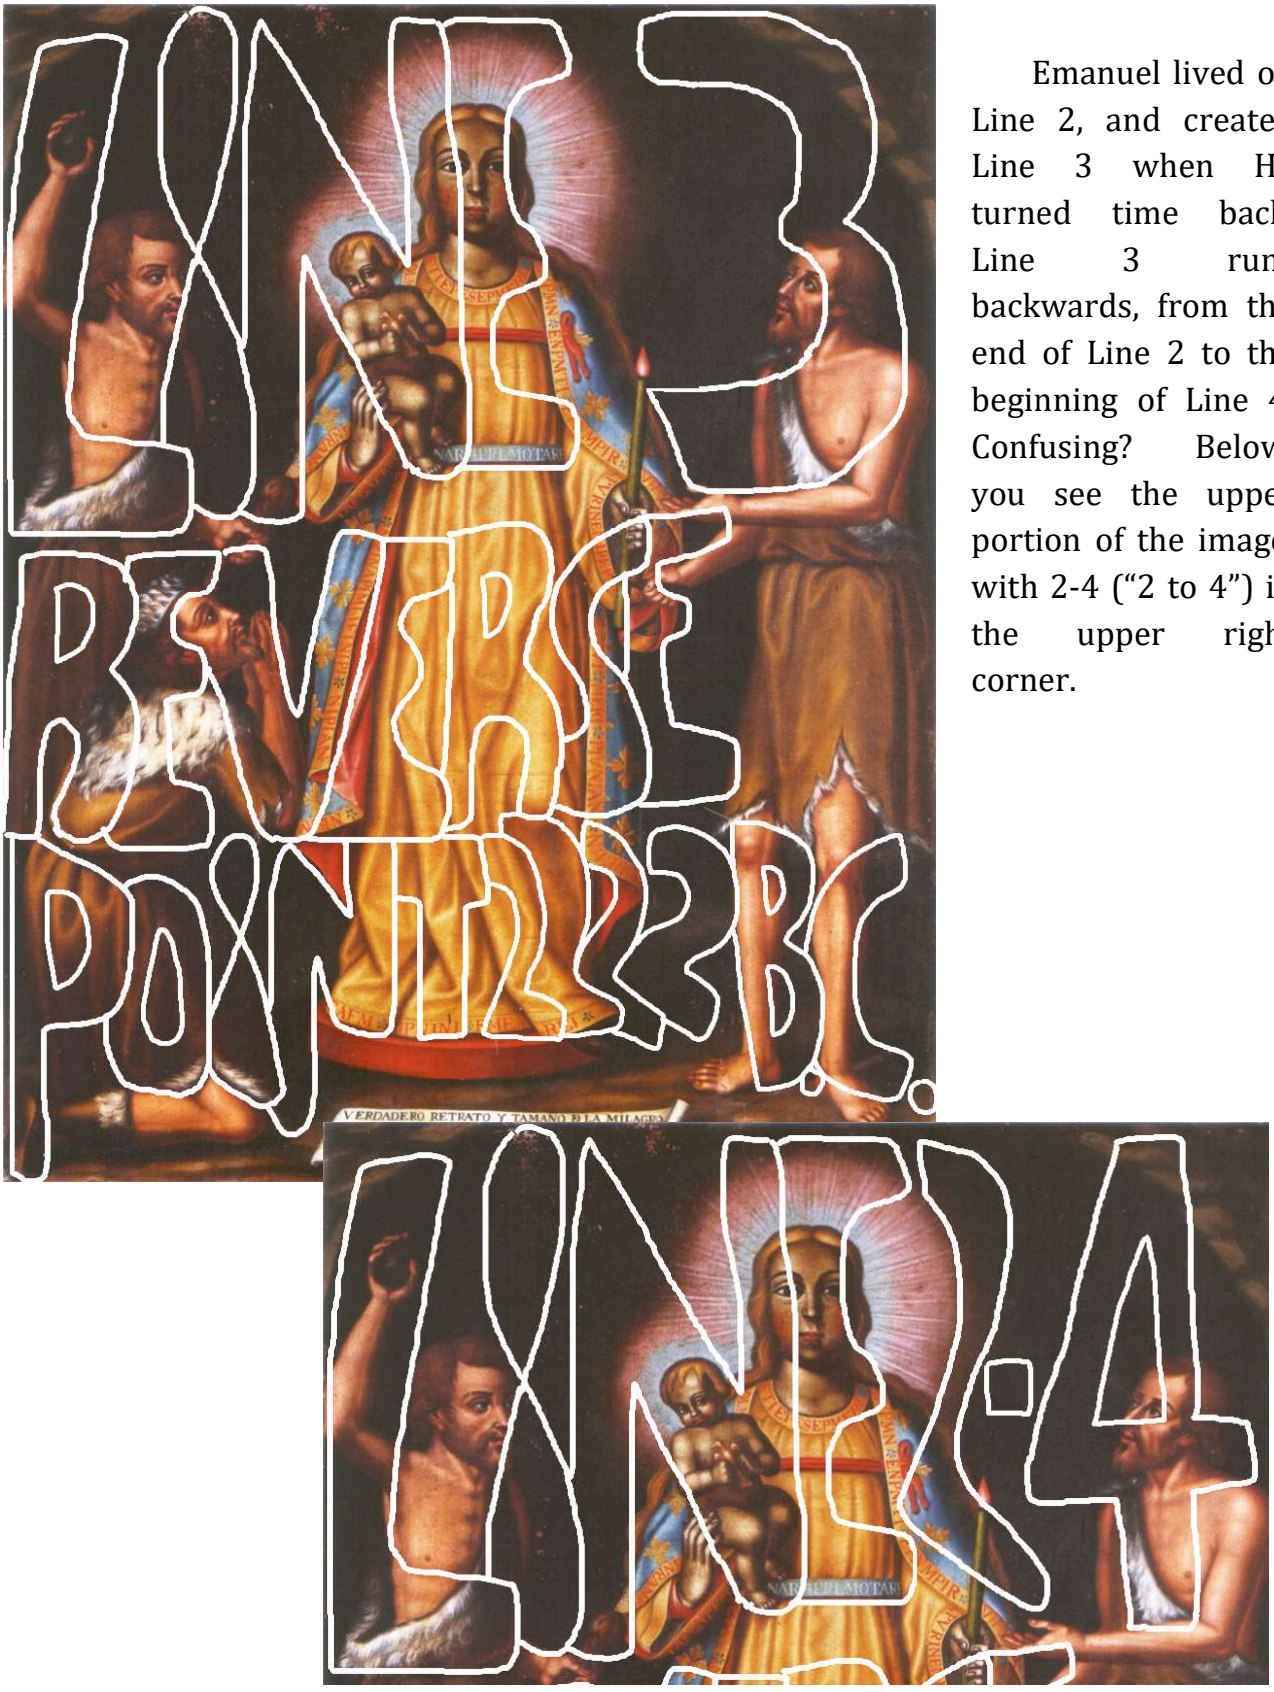
[10] As I recall, in this passage, written in early 2025, I split hairs about 137 years and 136.9 years, because I thought the measuring point was the beginning of 2025 (Gregorian), but the actual measuring point was the end of 2025, of the Julian calendar. The 34 leap years in each 137 year period total 1054 days (about 3 years). As God is *extremely* accurate, if these days were not absorbed in the conceptual 50,005 day 137 year period, these days were intended to be added to the 2025 AD end of the timeline, to mark a point around late 2028, between the time Satan (2027) and i-Satan (2030) leave the Earth.

Job Wagers 2222 BC, confirmed in the *Candelaria Likeness* image.



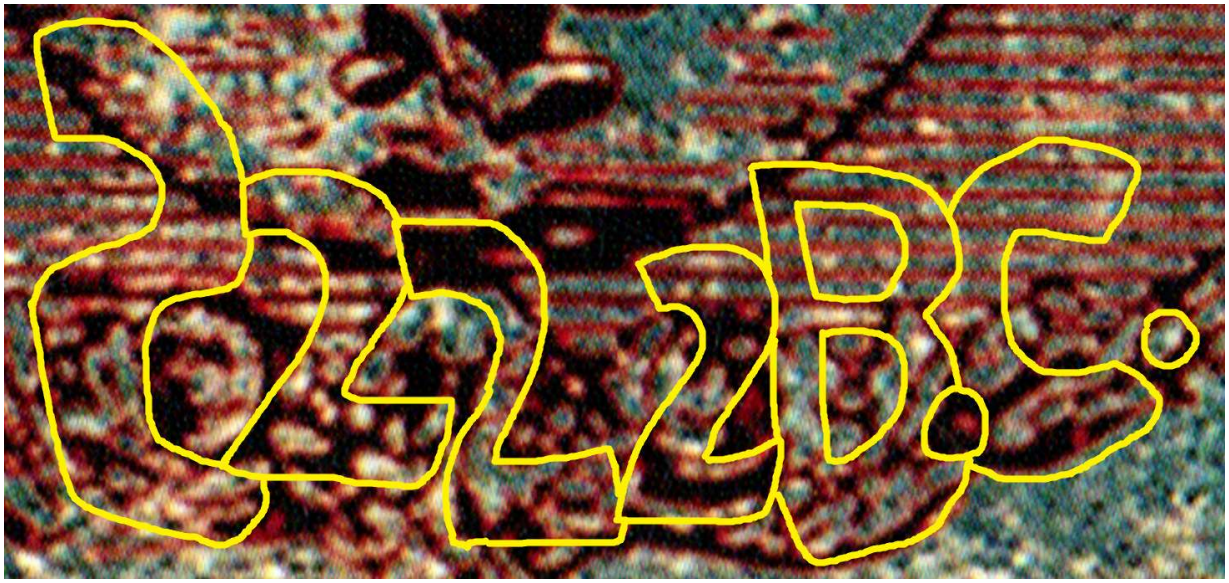
2222 BC,
a stacked (double) image, in *Satan Leads the Black Parade* image.

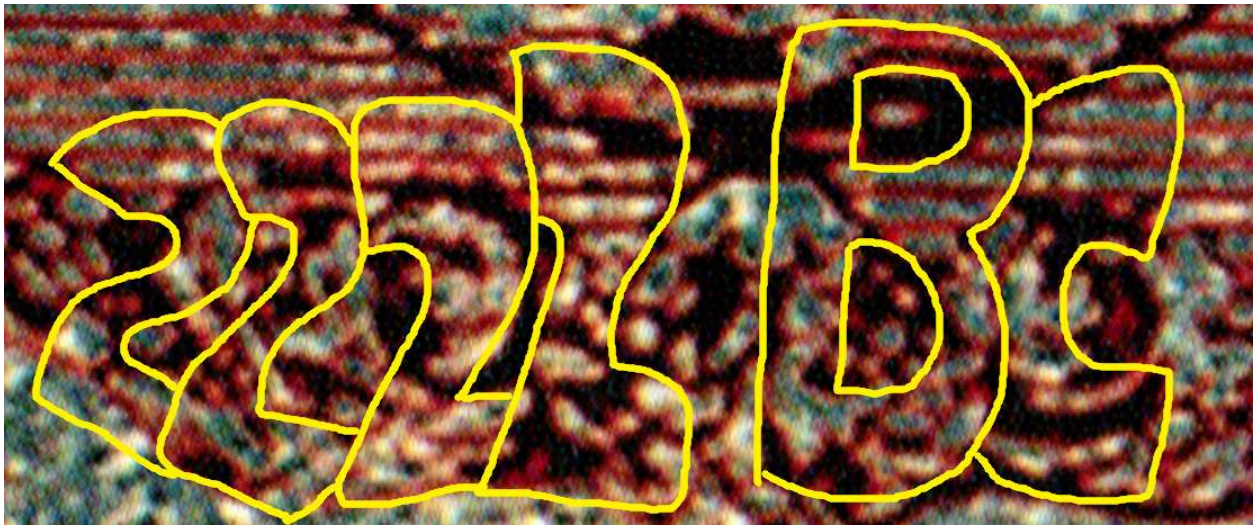
Line 3 Reverse Point 2222 BC, in the Candelaria Likeness image.



Emanuel lived on Line 2, and created Line 3 when He turned time back. Line 3 runs backwards, from the end of Line 2 to the beginning of Line 4. Confusing? Below, you see the upper portion of the image, with 2-4 ("2 to 4") in the upper right corner.

2222 BC, in the Elder Badge base.





This bottom image was originally published in *Steve's Top-Secret Notebook*, in 2025.

Chapter 2

The Time War
(Part 2)
GENESIS

The DDS scheme involved every book in the Old Testament –EXCEPT Esther. Because the US/West does not provide records of everything that was changed in the Dead Sea Scrolls scheme, I can only theorize what was changed based on whatever facts and clues I can find, in my Bible notes, online…

Currently, Wikipedia does not list all of the Dead Sea Scrolls manuscripts and fragments; but they list what seems to be a fair number of them. And in that list are many portions of the Book of Genesis. This means, potentially, that every verse of Genesis could have been altered and falsified.

I've read less than half of the Bible. But in the past year, I've spent substantial time in Genesis. In that time, I've encountered more than a few Genesis verses that I have doubts about. Currently, I have a number of priorities before me, and doing an exhaustive analysis of Genesis is not an immediate priority. Besides, doing a meaningful and thorough analysis of Genesis is impossible without an accurate and true copy of a pre-Dead Sea Scrolls Bible. So this section focuses on a few passages that I believe are legitimate and contrasts them against passages I believe Satan and the US/West falsified in the DSS scheme.

This chapter was added to this project when I stumbled upon a few Genesis verses that mentioned *tents*; verses that didn't feel authentic. Looking closer, I saw how Satan corrupted the passages –and how God countered, to expose Satan's corruption.

In this section I share about 5 brief examples of how Satan used the Dead Sea Scrolls scheme to falsify Genesis, to make it appear as if much of the book transpired 1,500 years after the events actually occurred.

Although Genesis was written after Job, the first 10 chapters of Genesis occur before Job. Because Genesis chapters 12 to 50 occur near the same time period as Job, Satan's attack on the *tents* of Genesis (which primarily involve chapters 24, 31 and 33) is designed to make tent dwelling (living in a tent) appear to be a way of life of the poor; causing informed readers to falsely believe Genesis chapters 12 to 41 must be situated between 1000 BC and 500 BC, when the events actually occurred much earlier, around 2000 BC. All of the following examples involve at least one "tent" verse.

WHILE writing the previous Job section, once I noticed that Satan used the character Elihu to signal the numbers 5 and 55, because Genesis is 50 chapters long, I had to sneak over to Genesis to see if I saw any obvious curiosities related to the number 55. Immediately I noticed Chapter 31 had exactly 55 verses, and chapter 24 and 41 had more than 55 verses. The average chapter Genesis Chapter has about 30 verse. I found problems in these three chapters pretty quickly, and I happened upon problems in Chapter 33 connected to the word *money*.

About 3,400 years before Satan initiated his Dead Sea Scrolls scheme, God asked His Genesis writer (whom I believe is Moses) to include a few discrete passages in Genesis, to protect the Bible. The first verse to observe is 13:18:

> *Then Abram moved his **tent**, and went and dwelt by the terebinth trees of Mamre, which are in Hebron, and built an alter there to the Lord.*

This establishes Abram and his wife; Sarai, live in a tent by the terebinth trees of Mamre. Next God asked Moses to write 14:14, which shows Abram was so wealthy that he had 318 male servants (not including the females), all willing to die for Abram:

> *Now, when Abram heard that his brother was taken captive, he armed his three-hundred and eighteen trained servants, who were born in his own house, and went in pursuit, as far as Dan.*

Next, to counter Satan's future sabotage, God asked Moses to compose 18:1:

> *Then the Lord appeared to him by the terebinth trees of Mamre, as he was sitting in the **tent** door in the heat of the day.*

This verse is situated many years later, and Abraham (previously Abram) and his wife Sarah (previously Sarah) still live in their tent, by the terebinth trees of Mamre.

Next, God asked Moses to compose verses 18:6 and 7 (in which God appears to Abraham in the form of a man, with two other supernatural entities, also disguised as men; upon seeing God and His Company, Abraham races to prepare them a meal):

> (6) *So Abraham hastened into the **tent** to Sarah, and said, "Quickly, make ready three measures of fine meal; knead it and make cakes."*
> (7) *And Abraham ran to the herd, took a tender and good calf, gave it to a young man, and he hastened to prepare it.*

These verses establish that Sarah lives in the tent with Abraham, and the tent is well stocked with food, sufficient to prepare a meal fit for God, and Abraham has a large herd of livestock, and kind servants prepared to assist him.

Finally, God asked Moses to include 18:9, where God and His Guests ask:

> *Then they said to him, "Where is Sarah, your wife?" And he said, "Here, in the tent."*

All of this was necessary, because it was historically accurate, and because Satan's future plan was to make Hebrew tent dwellers appear poor and barbaric.

Satan's Attack on Chapter 24

Chapter 24 tells the sweet story of how when Abraham was very old, he sent his servant to his homeland, to find a special wife for his special son, Isaac.

Chapter 24 has 67 verses, more than all other Genesis chapters, and more than twice the average number of verses. This is because Satan added 30 verses: 5 x 6.

Some verses are easier than others to spot. For example, God and Moses referred to Abraham's servant as "the servant"; but in many of Satan's falsified verses, the servant is suddenly referred to as "the **m**an." (Satan's word capers usually involve some M words; this is an English alphanumeric reference to Chapter 13 of Revelation; among other meanings, M is an English alphanumeric reference to the age when God views humans as accountable adults, old enough to marry, and punish for sins: 13).[11] The verses where the servant is referred to as *the man* are 24:21, 22, 26, 29, 30, 32, 58, 61.

Satan added another 21 generally longwinded verses, to mock God and falsely imply God and His writers are longwinded. These verse are 24:25, 27, 36, 37, 38, 42, 43, 44, 45, 46, 47, 48, 49, 51, 52, 53, 55, 56, 57, 60, 62.

The First *Tent* Verse. Finally, the final verse of Chapter 24, 24:67, is Chapter 24's "tent" verse. This verse was added to make Hebrews look barbaric, as the fake verse makes it appear as if only a few moments or hours after Isaac met Rebekah, he brought her into his mother Sarah's* tent, and had sex with her, and then somehow she became his wife. Fake 24:67 reads:

> *Then Isaac brought her into his mother Sarah's tent; and he took Rebekah and she became his wife, and he loved her. So Isaac was comforted after his mother's death.*

***Note:** Sarah did not have her own tent; she lived with her husband, Abraham, in their tent.

Satan's Attack on Chapter 31

In Chapter 31, Satan added 12 verses. 12 is alphanumeric (English) for first letters of Satan's original first name (Lucifer), and his last name (see *Steve's Super Secret Solutions*). 12 also represents the number of fingers and toes Satan and people from Satan's planet were usually born with. Eleven of Satan's fake verses are consecutive: 31:42 to 52. The 12th verse is the *tent* verse: 31:**33**.

The Tent Verse. Satan places five expressions of the word tent in 31:33. The 5 expressions of tent multiplied by the 11 consecutive verses = 55. There are 55 verses in Chapter 31. **55**, again, is the English alphanumeric total of SATAN and ELIHU. The point of the five *tent* utterances in 31:33 to make ancient tents appear smaller than they were, and to make Hebrews appear to disregard the safety of their women and

[11] Please do not construe this as me encourage young people to engage in sex early, or marry early, or to conceive early. God's view is surely complex; but he does not seem eager to hold our biological drive to reproduce against us. Note: Satan has worked to push back legal marriage age in most Western nations, to increase his window of opportunity to turn Westerners into homosexuals.

daughters, as Satan uses 31:33 to create the appearance that Hebrew wives and daughters lived in separate tents from their husbands and fathers. That is false. Tents were common, respectable housing of the time. 31:33 reads:

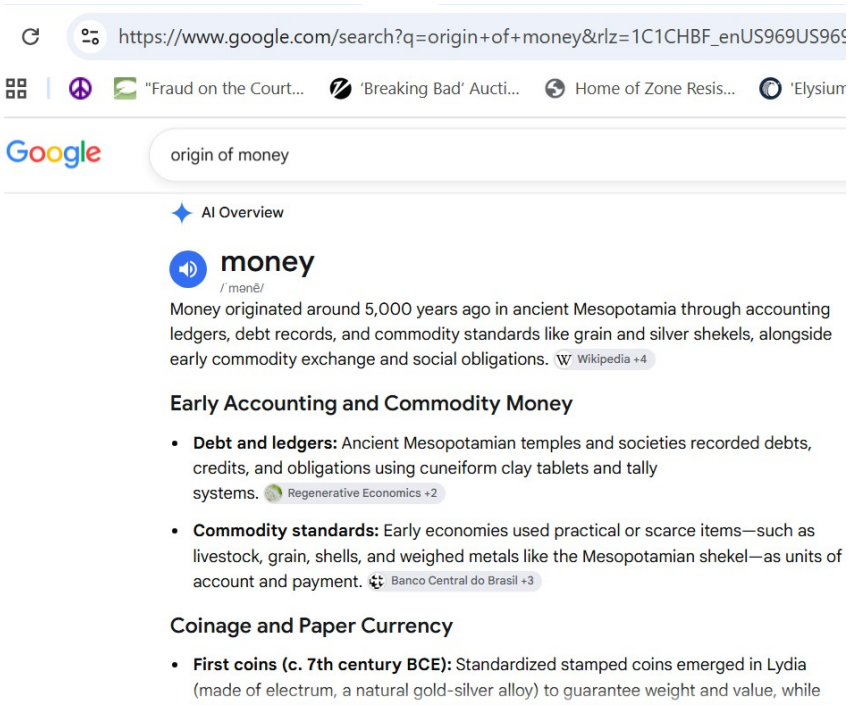
> *And Laban went into Jacob's **tent**, into Leah's **tent**, and into the two maid's **tents**, but he did not find them. Then he went out of Leah's **tent** and entered Rachel's **tent**.* [12]

Satan's Attack on Chapter 33 –The Money Verse

Genesis, Chapter 19 is situated in time around 1940 BC, about 1400 year before coin money appeared in the Middle East (circa 500 BC), and about 1700 year before coin money appeared in Rome (circa 200 BC). But Satan inserted verse 33:19 into Chapter 19 to cause people to falsely believe Chapter 19 must have occurred at least 1400 years later, around 500 BC. 31:19 is also a *tent* verse. Genesis 33:19 reads:

> *And he bought the parcel of land, where he had pitched his tent, from the children of Hamor, Shechum's father, for one hundred pieces of money.*

After posting various books and articles with passages concerning Satan's and the US/West's effort to falsify documents, web pages, Bible passages (which I've done for almost 7 years), I recently noticed that Satan (well, *i-Satan*, to be exact) appears to be changing the definition of "money". Typically, if I asked a person *when did money appeared in a particular region*, before now, they always knew I meant coin/metal currency or paper currency. But now, seemingly to help Westerners allege they were using money thousands of years earlier, as you see, right, in the screenshot of my Google web search of the "origin of money," livestock, grain, etc (barter goods), are suddenly considered money.



Serious crimes, folks –not as bad conspiring with Satan to alter the Bible or something, but still, very serious.

[12] In the second sentence of this verse, Laban should have exited from the maids' fake tents, not Leah's fake tent. But Satan's point seems to be people are too stupid to notice obvious inaccuracies.

MYSTERY QUESTION

The *S* above is a reversed and tilted *electric N*, which I used for Mystery Questions in *Steve's Top-Secret Notebook*.

The chapter 1 Mystery Question was: **Why does God seem to encourage Satan to signal 55?** Meaning, God is all powerful, but He doesn't intervene to stop Satan from desecrating the Bible; thus, he seems to allow, even encourage, Satan's misconduct. Why would He do this?

SOLUTION: When God, Jesus and Natas (God's Daughter, effectively Mother Nature), resolved to create life, they resolved not to intervene, or to intervene only at certain points and certain ways; thus, it could not be said that humans and other advanced human-like life forms, eligible for resurrection, were pre-programmed *flesh robots*. God gave us free will. But, as I have previously explained in *Steve's Top-Secret Notebook* (STSN), Rev 2 and *Steve's Super Secret Solutions*, Earth was an anomaly; we were evolving more slowly than typical planets, and we had a higher proclivity for evil and self-destruction (STSN reveals this happens about 8.8% of the time). In such cases, God may have countless intervention option, but the intervention he chose for Earth was Satan, who would wage War Against God as he wished, free to mislead humans. And human were free to comply or refuse. As far as 55 goes, I believe God welcomed Satan signaling *55*, so I might realize 55 was Job's birth year; born in 22**55** BC (making him the Bible's first born major character of the second period, sometimes called the Patriarchal Period). I would then use God's other clues to establish the Book of Job's Line 4 event year: 2222 BC (I believe the Line 2, chapter 1, event year is 2200 BC). Next, I would use the second to last verse of Job to mark the year of Job's death. Thus, I could help God recite Job's full lifespan, an honor God gave the other Biblical patriarchs.

And so all the days of Job were 195 years. So Job died old and full of days.

The Bible's first two epochs, or periods, are presented below, with some of the ages or dates associated with some of the major characters of those periods.

The Primeval or Prehistoric Period	Patriarchal Period
Adam, lived 930 years.	**Job**, born in 2255 BC, lived about 195 years.
Eve (uncertain age).	**Abraham**, born in 2135 BC, lived 175 years.
Methuselah, lived 969 years.	**Isaac**, born around 2035 BC, lived 180 years.
Noah, lived 950 years.	**Jacob**, born around 1975 BC.

I found Abraham's birth year in the notes of my Bible, and positioned Isaac and Jacob's birth years accordingly.
