Town Board

- B. Weisbroad Solar Project discussion. Adam Rowles brought in some new plans for the project. The Board talked about a berm where the house is and screening for the project. Adam also brought a decommission estimate for the project that he would put in a bond and held in escrow adding 2% every year to it for the Town of Lincoln. Mat Spendley asked that if after this was decommissioned will it be able to go back to farming, Adam replied yes. He did ask if the Town would hold them in escrow and if the application fee can be paid in installments. This was deferred to the Town Board for decision. The Board did say the project will need a variance.

The Planning Board will send Adam Rowles to the Town Board for permission for payment in installments for the Fees for the application do to the unforeseen changing costs of the project and to go ahead with submitting an application so he can be seen by the Variance Board
