We will watch "Dead On Arrival" a 22 minute film highly charged look at the fentanyl epidemic and its impact on regular people. Dominic Tierno, who wrote, directed, edited, filmed, and narrated it, was inspired by Alexander and hundreds of thousands of victims associated with this crisis.

Jaime Puerta, In April 2020, Jaime's 16-year-old son, Daniel, tragically lost his life after ingesting a counterfeit pill laced with illicit fentanyl that he had unknowingly purchased through Snapchat. This devastating loss compelled Jaime to take action — transforming his grief into a nationwide mission to prevent similar tragedies.

Steve is Jessica's Dad. Jessica was his 29-year-old daughter killed in Redlands on January 22, 2022, along with her boyfriend, Nicholas, due to fentanyl poisoning. He and other bereaved parents formed V.O.I.D., "Victims of Illicit Drugs," as a California non-profit corporation and dedicate their efforts to education and awareness of this fentanyl scourge confronting our society.

"New initiatives to enhance public safety & employee support. We remain committed to transparency, collaboration, and the well-being of San Diego County residents".
