TrikeSanta's Delivery Rules

- TrikeSanta must visit every numbered house in **order**, starting at **1** and finishing at the highest number. No house numbers are skipped.
- Draw a single continuous path through **every white cell** in the grid, moving only up, down, left or right. The path cannot cross itself or enter a shaded cell.
- Some house numbers are missing. Work out where they belong and write them in.
- The clues outside the grid show the sum of the house numbers in that row or column. Not every row or column has a clue.
- A clue beginning with **>** means the total is **greater than** that number.
- A clue beginning with **<** means the total is **less than** that number.
