## DO WE OFFER DRY-CLEANING SERVICES?

Traditional dry-cleaning uses toxic chemicals that are bad for the environment and bad for you! Instead we offer 'wet-cleaning', this is a professional garment/textile cleaning method that uses water, specialist detergents and specialist machinery. Wet-cleaning is better for the environment and better for most fabrics.

**TERMS & CONDITIONS!**
We always make every effort to treat your items with the utmost care, always following expert guidance. Very rarely results beyond our control can result in damage or other undesirable
**We can not be held responsible for outcomes beyond our control and all work is undertaken on this understanding**
