SAFETY DATA SHEET

1. Identification

Product Identifier Sani-Bowl Non-Acid Bowl Cleaner

Other means of identification

Product code CU-1200

Recommended use Ready to use disinfectant.
Recommended restrictions Professional use only.

Manufacturer information

Company name

Ultra Soap International

Address

3330 South Outer Road East
Grain Valley, MO 64029

Telephone (816) 471-3602

Emergency phone number PERS (800) 633-8253 24 hour Emergency (800) 633-8253

2. Hazard(s) Identification

Physical hazards Not classified.

Health hazardsSkin irritantCategory 3Serious eye damageCategory 1

Environmental hazards Not classified.

OSHA defined hazards None.

Label elements

Signal word Danger.

Hazard statement Causes mild skin irritation.
Causes serious eye damage.

Precautionary statement

Prevention Wear eye protection/face protection.

Response If skin irritation occurs: Get medical advice/attention. IF IN EYES: Rinse cautiously with

water for several minutes. Remove contact lenses if present and easy to do. Continue

Rinsing. Immediately call a POISON CENTER/doctor/medical professional.

Storage Disposal

Hazard(s) not otherwise None. classified (HNOC)

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	CAS number	%
Diethylene glycol monobutyl ether	112-34-5	8
Alkyl (68% C12, 32% C14) ammonium chloride	85409-23-0	0.105
Alkyl dimethyl benzyl ammonium chloride	68391-01-5	0.105
Other components below reportable levels		90-100

4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Remove contaminated clothing immediately and wash skin with soap and water. In case of

eczema or other skin disorders: Seek medical attention and take along these instructions.

Rinse with water for at least 15 minutes. Remove contact lenses if present and easy to do so. Eve contact

Immediately call a physician or transport to hospital.

Dermatitis. Rash. May cause an allergic skin reaction.

Ingestion Rinse mouth. Get medical attention immediately. Do not induce vomiting.

Most important

symptoms/effects, acute and

delayed

Indication of immediate medical attention and special treatment needed

Provide general support measures and treat symptomatically. Keep victim under observation.

Symptoms may be delayed.

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to

protect themselves.

5. Fire-fighting measures

Suitable extinguishing media

Unsuitable extinguishing

media

Water fog. Foam. Dry chemical powder. Carbon dioxide (CO₂) Do not use water jet as an extinguisher, as this will spread the fire.

During fire, gases hazardous to health may be formed.

Specific hazards arising from

the chemical

Special protective equipment and precautions for firefighters

Self-contained breathing apparatus and full protecting clothing must be worn in case of fire.

Fire-fighting

equipment/instructions

Specific methods **General fire hazards** Move containers from fire area if you can do so without risk.

Use standard firefighting procedures and consider the hazards of other involved materials.

No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during clean-up. Avoid inhalation of vapors or mists. Do not touch damaged containers or spilled materials unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up This product is miscible in water.

Large spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water.

Small spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original container for re-use. For waste disposal, see section 13 of the

Environmental precautions Avoid discharge into areas not consistent with package labeling.

7. Handling and storage

Precautions for safe handling
Avoid breathing mist or vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged

exposure. Provide adequate ventilation. Wear appropriate personal protective equipment.

Observe good industrial hygiene practices.

Conditions for safe storage,

including any incompatibilities

Store in original tightly closed container. Store away from incompatible materials (see section

10 of the Safety Data Sheet).

8. Exposure controls/personal protection

Occupational exposure limits Not classified.

Biological limit values Not classified.

Appropriate engineering

controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust

 $ventilation, or other engineering \ controls \ to \ maintain \ airborne \ levels \ to \ an \ acceptable \ level. \ It$

is recommended that users of this product perform a risk assessment to determine the

appropriate personal protective equipment.

Individual protection measures, such as personal protective equipment

Eye/face protection Avoid contact with eyes. Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection Wear appropriate chemical resistant gloves.

Other Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

Respiratory protection In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations

When using do not smoke or use chewing tobacco. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Contaminated work clothing should not be allowed out of the workplace.

9. Physical and chemical properties

Appearance

Physical StateLiquid.ColorBlue.OdorFresh.Odor thresholdNot available.

pH 12-12.5

Melting/freezing point 32°F (0°C) estimated.

Initial boiling point and boiling range

>212°F (>100°C) estimated.

Flash point >212°F (>100°C) estimated.

Evaporation rate Not available. **Flammability** Not available.

Flammability Limits

Upper Not available.
Lower Not available.
Vapor pressure Not available.
Vapor density Not available.

Specific gravity (water=1) 1.01

Solubility in water Soluble.

Partition coefficient Not available.

(n-octanol/water)

Auto-ignition temperatureNot available.Decomposition temperatureNot available.ViscosityNot available.

10. Stability and reactivity

Reactivity This product is stable and non-reactive under normal conditions of use. **Chemical stability** Material is stable under normal conditions. Store in a cool dark place.

Possibility of hazardous

reactions

Hazardous polymerization does not occur

Conditions to avoid Avoid storage in elevated temperatures.

Incompatible materials Bases, amines, metals.

Hazardous decomposition

No hazardous decomposition products occur. In case of fire see section 5.

products

11. Toxicological information

Information on likely routes

of exposure

Ingestion Do not ingest. May be harmful if swallowed.

Inhalation Do not inhale. May cause damage to the upper respiratory tract.

Skin contact Can cause skin irritation with persistent contact.

Eye contact Can cause serious eye damage. Wear appropriate protective clothing (see section 8).

Symptoms related to the physical, chemical and toxicological characteristics

Dermatitis. Rash. May cause an allergic skin reaction.

Acute toxicity Not classified.

Product Route and Species LD₅₀

Sani-Bowl Non-Acid Bowl Cleaner (CAS mixture)

Acute Oral, rat >5,000 mg/kg estimated

Skin corrosion/irritationCauses mild skin irritation.Serious eye damage/Causes serious eye damage.

irritation

Respiratory sensitization Not considered a respiratory sensitizer.

Skin sensitization Not considered a skin sensitizer.

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are

mutagenic or genotoxic.

Carcinogenicity Not considered a carcinogen.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not Listed.

Reproductive toxicity

No data available.

Specific target organ toxicity

No data available.

- single exposureSpecific target organ toxicityNo data available.

repeated exposure

- No data available

Aspiration hazard No data available.

^{*}Estimates for product may be based on additional component data not shown

12. Ecological information

Ecotoxicity

Product	Species	Test Results	
Sani-Bowl Non-Acid Bowl Cleaner (CAS mixture)			
Aquatic			
Fish	Fathead Minnow	LC ₅₀ =243 mg/L estimated	
Crustacea	Daphnia	EC ₅₀ =6 mg/L estimated	

^{*}Estimates for product may be based on additional component data not shown

Persistence and degradability No data available.

Bioaccumulative potential Not data available

Partition coefficient n-octanol/water (log K_{OW})

Not available.

Mobility in soil No data available.

Other adverse effects Harmful to plants or wildlife in high concentrations.

13. Disposal considerations

Disposal instructionsCollect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of

contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations

Hazardous waste codeThe waste code should be assigned in discussion between the user, the producer and the

waste disposal company.

Waste from residues/unused

product

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see:

Disposal instructions).

Contaminated packaging Empty containers should be taken to an approved waste handling site for recycling or

disposal. Since emptied containers may contain product residue, follow label warnings even

after container is emptied.

14. Transport information

DOT

Not classified as dangerous goods.

15. Regulatory information

US federal regulations

SARA 302 Extremely hazardous substance

Not listed.

SARA 304 Emergency release notification

Not listed.

SARA 311/312 Hazard Categories

Immediate Hazard - Yes

Delayed Hazard – No

Fire Hazard – No

Pressure Hazard - No

Reactivity Hazard – No

SARA 313 (TRI reporting)

Not listed.
