

SOUR

NEUTRALIZING LAUNDRY SOUR

Sour is a concentrated blend of acids that prevents discoloring of fabrics caused by iron or mineral content. It neutralizes residual alkalinity and adjusts the pH of fabric to the proper level.

CONCENTRATED: A highly active product that completely neutralizes residual alkali in the wash load. Final linen pH should be 5.5 - 6.5.

PREVENT YELLOWING OR GREYING: Removes residual alkali, strips hard water (lime) deposits and helps to prevent and remove rust stains.

CAN BE USED ON ALL FABRICS: Use on white and colored cottons and linens, blankets, woolens, and rayons.

LIQUID CONCENTRATE: This product is fully soluble and works easily in all water temperatures.

CHEMICALLY COMPATIBLE: May be used with fabric softeners and starches.

PHYSICAL PROPERTIES

Appearance: Orange Liquid

Specific Gravity: 1.04

Odor: Characteristic

Ph (Conc.): 0-1

Flash Point: N/A

PACKAGING

This product is available in gallons, 5 gallon pails, 15, 30 & 55 gallon drums

DIRECTIONS

Use Sour by adding to the final rinse at 1 - 2 cup per 100 lbs. of laundry to maintain a pH of 5.5 - 6.5 on finished linen.

Recommended to hotels, motels, hospitals, nursing homes, commercial laundries, restaurants, and other on-premise laundries.

PRECAUTIONARY STATEMENT

Prevention: Wear eye protection/face protection. Wash hands and exposed skin thoroughly after handling. Wear protective gloves.

Response: IF IN EYES: Rinse cautiously with water for several minutes.

Remove contact lenses, if present and easy to do. Continue rinsing.

Immediately call a POISON CENTER/ doctor/ medical professional. **IF ON SKIN:** Wash with plenty of water for at least 15 minutes. Specific treatment (see section 4 on the Safety Data Sheet). If skin irritation occurs:

Get medical advice/attention. Take off contaminated clothing and wash it before reuse.
