 Flash Point: >385°F (196°C)

AVAILABLE PACKAGING

1gal, 4x1 gal., 200 oz., 5 gal., 15 gal., 55 gal.

ABOUT THIS PRODUCT

Ultra Fresh® Professional Commercial Fabric Softener leaves clothes smelling fresh and feeling extra soft while eliminating static cling. It is safe for use in standard or HE machines.

FEATURES & BENEFITS

Safe for use on all fabrics. Reduces drying time by up to 25%. Significantly reduces the need for touch-up ironing of permanent press fabrics. Softens and fluffs harsh, rough fabrics in one application. Imparts anti-static properties to synthetic fabrics such as nylon, orlon, dynel, or rayon.

DIRECTIONS

Softener should be added directly to the laundry during the final rinse cycle by adding 1 to 2 ounces per 100 lbs. of laundry. Do not use on VISA polyester and other fibers that are stain resistant.

PRECAUTIONARY STATEMENTS

WARNING: may cause eye irritation. Do not reuse package or product. Never mix household chemicals. Do not reuse this container for dispensing beverages or other liquids. Liquid fabric softener can increase fabric flammability. Using more than recommended can increase this effect. Do not use this product on children's sleepwear or garments labeled as flame resistant as it may reduce flame resistance. Do not use this product on garments made with fluffier fabrics (such as fleece, velour, chenille, and terry cloth). **KEEP OUT OF REACH OF CHILDREN.**

First Aid Treatment: in case of eye contact, rinse with water for 15 minutes. If irritation persists, seek medical attention.
