# WINE

**We personally curate our wine list to highlight interesting producers, grapes, regions and processes.**
Wine shouldn't be defined purely by grape or region.
Don't be surprised if you don't spot your usual...that's part of the fun! Our list is curated to represent a variety of profiles - we hope to introduce everyone to something new and memorable!

Each section lists from lighter to fuller-bodied or more complex. All wines on our list are vegan.

## **ALL GLASSES £10 (175ml)** | 400ml carafe | 750ml bottle

### white

# Our Producers

*Behind every bottle is a story worth sharing.*
*Wine is about the people who make it, the land they work with, and the traditions they carry forward.*
***We personally curate our wine list to champion the producers who inspire us, from passionate independent winemakers and family owned wineries, to those exploring lesser-known grapes, unexpected regions and exciting approaches.***

*We haven't filled our list with the familiar grapes and regions you'll find everywhere. Instead, we've sought out wines that capture the flavour profiles you know and love, through unexpected grapes, places, people and techniques. Our hope is that you'll find something that feels familiar enough to try, but different enough to surprise you.*
***We hope you're as inspired by the people, passion and stories behind these bottles as we are.***
***Thank you for being curious, exploring and giving these producers a place at your table.***
*With love, Abda & Sophie x*

**VIBEYARD**
'Portugese Wines Re-born' VIBEYARD wine is harvested and fermented organically and vegan-friendly in the heart of Portugal. With a bold, modern twist on flavour and flair, they honor timeless traditions through low-intervention, handcrafted methods.

**PATTINGHAM**
Tucked away in the beautiful South Staffordshire countryside. South-facing slopes, natural spring water and free-draining sandy top soil, never exposed to chemicals. A low impact, sustainable approach. Their labels feature oil paintings by local artist Stu Perry, inspired by aerial shots of the Pattingham Vineyard.

**LOS HAROLDOS**
Owned by the fourth generation of the Falasco family since 1939, when 'Don Lolo', wheeled his bicycle through the streets of Chacabuco, selling his wines from the basket on the front. The glass-raising angel represents family who have passed away.

**LUNA GAIA**
Luna Gaia is a range of organic, biodynamic Sicilian wines created through a cooperative of biodynamic farmers working old bush vines in the Valle del Belice and volcanic slopes around Mount Etna in Sicily. Their vibrant labels pay homage to the Sicilian puppet opera, a historical storytelling tradition in Sicily.

**LOCO WINES**
Loco Wines bring wine back to what it's meant to be. To make wine cool again. To make it easy, playful, accessible. Every producer they work with farms organically or biodynamically; for the environment, for the people making it, and for what ends up in your glass. No shortcuts. No snobbery. Just wine made by people who care, for people who want to drink without the lecture.

**CRAMELE RECAȘ**
The main "ingredients" of winemaking at Cramele Recaș include passion, pursuit of optimal quality standards, and continuous performance with a history dating back to 1447. Winemakers Hartley and Nora, are listed in the top 100 internationally, occupying first place in the top of Romanian wine producers, as well as the largest family-owned exporter.
