Getting Started with an Empowerment Scholarship Account

Please note that The Ogburn School is not notified when a parent or guardian applies, gets approval, or receives ESA funding for their student so please follow the steps below.

→ Apply for an ESA

Visit the Arizona Department of Education website to review eligibility requirements and begin the application process.

→ Check your application status

Applications are processed quickly so check your status regularly.

→ Send The Ogburn School proof of your approval

After you receive notice that your application is approved, please advise The Ogburn School. A screenshot is fine. We will email you the invoice for you to upload to your account.

→ Log into your student's ClassWallet account

ClassWallet is the ESA Program's payment platform. Here is where you make purchases and spend ESA funds. After approval, you will receive an email once your ClassWallet account has been set up and funded. For assistance, follow the directions sent to you by the ADE in your email or in your ESF account.

→ Make a tuition payment

Here is where you make tuition payments with ESA funds! The Ogburn School is a registered vendor through ClassWallet, so you will be able to search for and select us. After selecting The Ogburn School, upload the invoice we sent to you.
