Help The Work Continue

Beyond A Single Trip

Supply and Multiply's work continues beyond the days a mission team is present. Your generosity helps sustain ministry in Haiti and Honduras and the relationships at the heart of that work.

Please consider a one-time gift or ongoing monthly support. Pray for our partners, share the ministry with your church, and consider serving with a future team.

Unión Y Esperanza

On Saturday, we served tamales in Unión y Esperanza. Sharing food and time was a simple, tangible way to express love and strengthen relationships.

Supply Multiply

October 2026
Mission Trip Honduras

Joys

A Team With A Shared Story

Some came on their very first mission trip. Others returned to familiar friendships. Young people who began going on mission with Supply and Multiply as children now served as young adults. Some have served with us in both Haiti and Honduras.

That shared history made this team especially meaningful. Different ages and experiences came together around the same calling: to share the love of Christ.

Throughout the week, classrooms and communities became places to serve, learn, and build friendships together.

Faith, Learning And Laughter

Ebenezer School

At Ebenezer School, we shared Bible teaching, crafts, and time with the students. Colorful projects gave team members and children opportunities to work side by side.

A joyful highlight was Lana wearing traditional Honduran dress and dancing with the students. Their welcome and shared celebration made a lasting memory.

New Generation Christian Academy

At New Generation Christian Academy, our time with children and youth included Bible activities, creative projects, and play.

Gathering in the church and joining the children on the basketball court offered opportunities to share faith and build friendships.

Love In The Community

House Of Hope

Through House of Hope, we spent time with women and families facing difficult living conditions. We gathered for testimonies, encouragement, and the hope we share in Christ.

These visits were opportunities to listen, spend time together, and encourage the people and partners who continue serving this community.

Yolany's Hope

At Yolany's Hope, we visited with the children and those who care for them. Time together included the simple joy of ice cream.

Playing, laughing, and spending unhurried time with the children were meaningful parts of our visit to the children's home.
