# QUICKSTART

## LAUNCH YOUR PROGRAM IN 72 HOURS

Turn CMS/Payer intelligence into measurable care, coordination and value—without changing your workflow or replacing your systems.

72 HOURS

### 1 SEE WHAT CMS & PAYERS SEE

Your CMS/Payer Report Card shows your compliance grades and proven missed compliance-mandated medically necessary services.

### 2 IDENTIFY PATIENTS

Precision identifies the specific patients connected to the missed compliance-mandated medically necessary services.

### 3 VALIDATE & DOCUMENT

The identified services are reviewed and documented by the provider, consistent with clinical judgment.

### 4 ENGAGE PATIENTS

Provider-branded outreach connects patients to the care they may need.

### 5 KEEP YOUR EXISTING SYSTEMS

PYC operates upstream to coordinate data, patient engagement and care actions with the systems you already use.

### 6 PROVIDERS REMAIN IN CONTROL

Providers retain full clinical decision-making authority, including whether to order, perform and bill for services.

## My MD Hub™

Free consumer-controlled access to available health records. Share ongoing access with chosen providers through a link.

## Stealth Workflow Intelligence

Connects CMS/Payer grading intelligence to patient engagement, provider review and care coordination.

## EVERY RESPONSE CREATES VALUE

### PREVENTIVE CARE REVIEW

Identifies and documents preventive care needs based on CMS/Payer guidance.

### PATIENT ATTRIBUTION & POPULATION INTELLIGENCE

Provides current patient attribution and a clearer picture of your active population.

### CURRENT PATIENT DATA

Refreshes information you can use when reviewing care needs and closing quality gaps.

### CLINICAL TRIAGE

Uses the patient's current response to help identify the next appropriate care action for your review.

### REIMBURSEMENT WHEN QUALIFYING REQUIREMENTS ARE MET

When a service meets applicable CMS/Payer requirements, the service can be billed and reimbursed according to policy.
