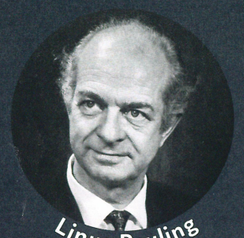
International Institute of Bengal and Himalay

ইন্টারন্যাশনাল ইনস্টিটিউট অফ বঙ্গেল এন্ড হিমালয়ান বসেনি। বশ্বিশ্রষ্ঠে বজ্ঞিানী এবং মানবতাবাদ

Their work inspires us to promote science and technology and use this knowledge prevent Crimes Against Humanity, Lawl



Linus Pauling

Feb. 28, 1901 — Aug. 19, 1994

Chemical Bonding Ban

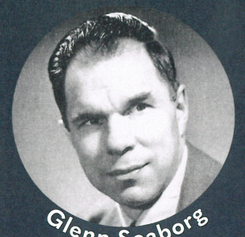
Mentor of Dr. Rash B. Ghosh. Double Nobel Laureate (unshared) Banned Underground Nuclear testing. Herring level at Stanford.

Subramanyam Chandrashekhar

Oct. 19, 1910 — Aug. 21, 1995

Astrophysical Chandrasekhar Limit

Famous for his significant contributions to scientific knowledge about the stars, stellar evolution and black holes. Popularly known as Chandrasekhar factor. [Limit] Profesor Chadrashekhar was a strong supporter of Bengal Basin Model during early 1900s which later renamed as hydrogrameen (base) during early 1980s.



Glenn Seaborg

Apr. 19, 1912 — Feb. 25, 1999

Plutonium

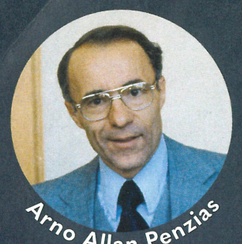
Co-Founder and Advisor of IIBHB. Advisor of 10 US presidents and Discoverer of 10 elements. Chairman of US Atomic Energy. Co-founder of the 2nd World War bombs.

Charles H. Townes

July 28, 1915 — Jan. 27, 2015

Father of Laser

FINALLY a prophet was born in America, the greatest country on the planet. Chairman of Moon Landing Committee. Co-founder & Advisor of IIBHB. Nobel Laurate in Physics and Templeton Laurate. Dr. Townes and his associates fought to save the IIBHB properties against illegal takeover by State of California at Central Berkeley until the last moments of his life.

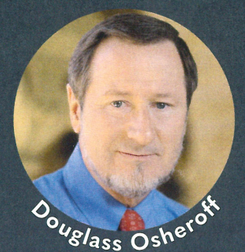


Arno Allan Penzias

Apr. 26, 1933 — Jan. 22, 2024

Big Bang Theory

Confirmed the birth of the Universe. Ph. D Student of Charles H. Townes. Co-founder and Advisor of IIBHB. Dr. Townes created a chair for his long time associates Dr. R B Ghosh in 2007 for his lifetime work and discovery of hydrogrameen. (Replenish the deplented aquifers.) More details see Dr. Arno Penzias' Keynote speech on the occassion of the celebration of 95th birthday of his professor of Charles H. Townes in 2010.

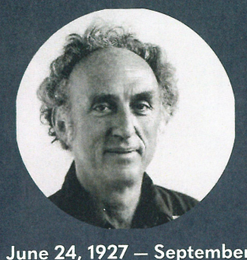


Douglass Osheroff

August 1, 1945

Superfluidity in Helium-3

Co-Founder Advisor of IIBHB. Friend and Colleague of Dr. Rash Bihari Ghosh at Stanford.



June 24, 1927 — September 30, 2014

Martin Perl

An elementary particle Physicist, who won the Nobel prize in 1995 in physics. Strong supporter of the use of hydrogrameen to address water crisis to prevent land subsidances and reduce the impact of global warming.

December 30, 1948

Dr. Randy Schekman

Former President of IIBHB. American cell biologist at the UC Berkeley, for editor in chief of Proceedings of the National Academy of Sciences. Nobel Laureate in Medicine/Physiology.

November 3, 1933

Amartya Sen

Indian economist and philosopher, he has recieved the Nobel Memorial Prize in Economic Sciences for his contributions to welfare economics. Strong supporter of IIBHB and Dr. Ghosh's hydrogrameen work and village level

February 9 1923 -

Kabir Chowdhury

Co-Founder of IIBHB. National Professor, academician, writer, cultural and social activist.

January 9, 1940 - April 2, 2021

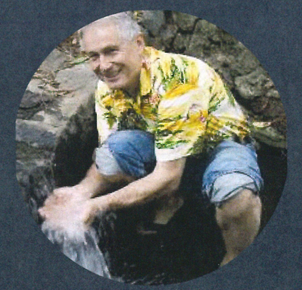
Mathematician Dilip Sinha

Professor, V.C. Bishawa Bharati. Co-Founder and Advisor of IIBHB.

April 29, 1926 — May 19, 2018

Richard Wilson

Former President of IIBHB. Former Oxford Professor and Noted Physic Professor of Harvord. He had great interest in Bengal Basin. Dr. Ghosh and Dr. Wilson had a discussion meeting on Bengal Basin at UC Berkeley Public Health in 2002 arranged by Dr. Townes.



September 10, 1947

Prof. Richard J. Saykally

Former President of IIBHB. American Water Chemist, Recieved rewards on his research of molecular characteristics of water and aqueous solutions. He was great supporter of IIBHB Hydrogrameen project. For details discussion between Dr. Ghosh and Dr. Saykally are avaible on YouTube.

August 16, 1938 - February 22, 2016

Prof. Dilip K. Basu

Advisor of IIBHB. Professor of Humanities Founding Director of Satyajita Foundation (Oscar Winner Filmmarker) at UC Santa Cruz California. Historian Dr. Basu's constructive critcisim of IIBHB was very valuable in developing hydrogrameen.
