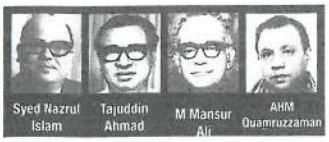
Rash B. Ghosh

Freedom Fighter - Berkeley Scientist running for U.S. Senate CA 2018
USA must provide water infrastructure where needed at low interest loan. No war and prevent american soldiers blood in foriegn contries.

Dr. Ghosh - Berkeley Scientist, paid a heavy price both in his native country (Bangladesh) as a freedom fighter who lost 3 close family members during liberation war in 1971. Rash also lost his home in his dream city Bekreley CA,which was raided at McGee Street. The city took control and closed both his house, his non profit (iibhb.org) institute and his temple activity center at 1700 Dwight way. The city Berkeley fraudulently collected 177K from him,sold his properties and put him in jail. An indictment attempt failed due to a false arrest. Rash exercised his civil rights and won the case against Cal EPA that was supported the federal government. Unlike other famous scientists Rash's invention of hydrogrameen (Refill Aquifies) was self financed and supported by family.

Rash B Ghosh confering matters of inter ation importance with his long time associate Presidedent Zillur Rahman

Sk Majibur Rahman 7th March Declared Independence of Bangladesh after t the lection resukt was denied by Pakistan.



1975, Jail killing of 4 National leaders after Majib's murder.Rash B Ghosh was a acting secretary(A.S.) of Bangladesh teachers' association at Majib Nagar. Rash was drafted by Syed Nazrul Islam, Commender in Chief and acting president of exile Government to work with him. Prof. Anisuzaman (G.S.) was drafted by Prime Minister Tajuddin Ahmad.

Rash B Ghosh;s political career Begins with Maharaja T N Chakroborty (bachelar) a family friend and mentor who spent 33 years in Prison of British and Pakistan. Mrs Indira Gandhi, (Prime-minister of India) feeding him dinner by herself.

Nnobel laureate Glenn T Seaborg (Advisors of 10 US Presidents) with Rash reffered by Professor Linus Pauling of Stanford who became a co-founder of IIBB and connect Rash with Noble laureate Charles H. Townes (Father of Lasers).

Rash B Ghosh (5th from left) a younger member of Awami League and close associates of SK Majibur Rahman (center) Reference: founding father of the nation by Sk Hasina etal Zillur Rahman (First from right)general secretary of Awami League..

Sheikh-Hasina (Prime Minister of Bangladesh - Daughter of SK Majbur Rahman escaped 19 assasinations attempts. She is a role model of the world for protecting demorcarcy.

San Joaquin Vally, CA lost 30ft of naturally created aquifer space (Safest source for fresh water storage) forever dispite having the best science technology to protect invaliable underground storage areas. According to Prof.Richard Sakally UCB, Hydrogrameen is beautiful and intellegent solution to addrress global water crisis.

Professor W. E. Kershaw (World leadingTropical Medicine Expert) Rash was studying Brintin's most polluted MerseyRiver.Estuary (Photo taken on the Mersey Estuary below Speak airport .

Rash B. Ghosh with three other nobel Laureate (Physicists) Charles H. Townes (Laser), Arno Penzias (Big Bang and Douglas Osheroff (Helium 3 - Stanford), at UC Berkeley during his IIBHB Conference to address global water crisis.

August1975, Sheikh-Mujibur-Rahman (One of the fathers of modern democracy)was murderd by military Juntawith 32 members of his family, youngest was 10 years old. His followers continued to save democracy and Rash is one of them.

Ghosh's family pond where the work began, now installing hydro - grameen technology (Born in Berkeley) refilling with fresh water to prevent land subsidence 5ft went down in 60 years, dispite seasonal monsoons .

Rash B. Ghosh for US Senate

Elect City College Student, Berkeley Scientist, Dr. Rash B. Ghosh to US Senate California 2018

Prevent Corruption, Systemic Racism & Fraud At All Levels

I am fighting against corruption, systemic racism, hate crimes, bank fraud, legal and medical malpractice.

Student Loans Must be Waived

Level the playing field by deferring payment of all student loans, effective immediately.

Health Benefits for All

It is shameful that the richest country in the world is not offering healthcare benefit to all citizens.

Fight Drought

Build water infrastructure to fight drought where needed, nationally, and internationally, and make it sustainable with services by American science and technology.

Prevent Land Subsidence & Protect the Environment

Refilling aquifers will prevent further land subsidence. For example, San Joaquin Valley has sank 30-33ft. Restore and protect naturally created aquifers, the most invaluable resources by using our science and technology.

Build Water Infrastructure for Clean Drinking Water & Refill Empty Aquifers

Protect high quality drinking water, underground reservoirs (aquifers, the safest source of clean water). Build water infrastructures where people need it the most. Make a trustworthy bridge and build friendships with all nations, reaching all citizens of the world by providing water, not by sending soldiers or smartbombs.

Dr Ghosh's Housing Plan will Eliminate Homelessness

There must be a strong political will to solve this chronic problem. Create affordable housing and make it so occupants can be the owner of their home. Provide incentives to all parties involved to address the housing crisis by giving the tenant the option to be owner of property, while waving transfer tax for the owner.

Use Science &Technology to improve the performance of Judicial Systems

The judicial system must provide legal support to low income people and the poor in all matters, and provide more funds to record all judicial and enforcement activities during court proceedings. Currently this is not the case.

I am Fighting for you. Join my campaign!

$250,000 REWARDS FOR VICTIMS OF ELDER ABUSE, CORRUPTION AND SYSTEMIC RACISM, WHO CAN MATCH DR. GHOSH'S CASE

Dr Ghosh is a victim of American Injustice

We must respond to Charles Townes' call

2012 Townes and Tagore Seminar
A Call to Help Dr. Ghosh and the IIBHB

I would like to mention here that the IIBHB's work was disrupted by the closure of its facility at 1700 Dwight Way by the City of Berkeley about 5 years ago, and I made all the efforts I could to help. Please see the poster3 that summarizes the events and how the city took over the property and sold it for 1/6 of its value plus the more than $200K which had been deposited for repair. This repair fund was used to close escrow rather than for actual repairs. I appeal and encourage all of you to stand behind Dr. Ghosh to fight this injustice and support him as best you can. Dr. Ghosh is a man of honesty, integrity, courage, and vision, and his dedication and sincerity are beyond question. Despite having lost his two properties and his $200K cash deposit, he is still here to continue his mission of over 3 decades to improve the lives of millions. He deserves our support.

(L-R: **David Seaborg**, Founder of World Rainforest Fund & former Vice President of IIBHB, son of Nobel Laureate **Glenn Seaborg** Co-founder of IIBHB, Nobel Laureate **Charles H. Townes**, Inventor of Laser and co-founder of IIBHB, **Dr. Rash B. Ghosh**, **Charles Townes** Professor of Water Chemistry, Inventor of Hydrogrameen and co-founder of IIBHB, Nobel Laureate **Arno Penzias**, Big Bang Theory and former student of Dr. Townes, and Nobel Laureate Douglas Osheroff (Helium 3 and Professor at Stanford)

Dr. Rash B. Ghosh, Nobel Laureate Charles Townes Professor and close associate and follower of Bangladesh Founding Father, paid the heaviest price than any scientist or scholar of our time. His house was raided on 29 August, 5 and 6 September

Dr Ghosh himself became a victim of Berkeley City officials who caused him to lose his home of 17 years, displacing many Section 8 tenants including a black single mother and 5 little children. Additionally it closed his nonprofit organization, the International Institute of Bengal and Himalayan Basins and a non denominational temple activity center without any notice from his owner occupied house, which is grossly illegal and should be prevented by the city's own law. The city evicted them unannounced using a fire truck and the police in a span of a few minutes to one hour at the direction of Berkeley officials, the mayor, and city attorneys (Manual Albaqurque, Zach Cowan and Laura Micknney). This action was supported by Judge Frank Roesch and his bosses at the appellate court. When the city's indictment attempts failed, the city brought 3 false felony charges and jailed Dr Ghosh for 3 days. All charges were dismissed. This has been a retaliation against Dr Ghosh who made a case law against the state of California, his employer, for age discrimination. The collusion between the two were investigated by Dr Felix Motzoi, Professor of Physics at Denmark University and Charles Townes. This case must be investigated by the FBI to break the current cycle of corruption and jail the law breakers. The city and the Judge Frank Roesch grossly violated the order of the Judge Richmond to remove only a small portion of the front of the 2507 McGee, but the Judge Frank Roesch took the entire property including 1700 Dwight Way and denied to real to Dr Ghosh and to his new nonpofit.

Afterword by Dr. Townes

I should also mention that the soundness, practicality, and science of Dr. Ghosh's approach to the remediation of toxics in surface and ground waters has been endorsed by the many highly qualified scientists, engineers, public health professionals, and medical doctors who have supported him and attended his seminars in the past. These have included the Nobel Laureates Linus Pauling, Glenn Seaborg, Arno Penzias, Martin Perl, Douglas Osheroff, and me, as well as Professor Richard Wilson of the Harvard Physics Department, who has a special interest in the arsenic toxicity of the ground and surface waters in Bengal. Additionally, Dr. Ghosh has secured the support and participatic of many other highly qualified and educated scholars and professionals in other fields. Please refer to the IIBHB.org web site for further information about Dr. Ghosh, his life's work, which is the work of our institute, and about the injustices he is suffering at the hands of city officials.

Honorable Leah T. Wilson Executive Officer
Superior Court of California
County of Alameda

Dear Honorable Executive Officer Wilson

Copy for Ci

I am requesting for your urgent intervention on my case (#2002 043750) and investigate th for Fraud and Elder Abuse and to save my house; the temple; and non-profit institute facili protect me from further elder abuse and fraud at the hands of Berkeley City attorneys Zac Laura McKinney, also some Berkeley city high officials and the city appointed receiver J B McGrew. McGrew joined with them and fraudulently sold my house and nonprofit and tem center located in central Berkeley at the corner of McGee and Dwight way.

The two houses were sold for a combined $265,000 and their combined monthly rental inc approximately $12,000 per month and the receiver bluffed me and made me deposit $177 for repairs of my two buildings.

I provided that money in addition to another $43,000 for professional services and I paid tc $210,000 when the receiver demanded $189,000 for everything including his fees. The re my repair deposit and which included ($17,000 permit fees) supported by the judge Frank despite he declared in the open court that $160,000 for repair of these two buildings were substantial amount of money, and, yet he sold the properties at a historically low price in B deposited the money based on Judge Roesch's written order but he did not keep his writte rather, he helped his right hand, the Receiver and the city's attorneys.

I brought the fraudulent activities of the receiver and the city attorneys: Zach Cowan and L McKinney, before the judge but the judge has been ignoring my request and objections an exonerating the receiver and his bonds.

Please take action to stop these illegal activities and unfair business practices and corrupti

I have attached a few examples (email from Robert Cheasty, former mayor of Albany, CA, several years ago and shared the information with) for your review and action. I shall provi more details and further information by next Monday. I am meeting with Mr. Cheasty this cc week, please feel free to contact him (see email attachment).

I am also requesting for you to remove the Receiver but not discharge him and also excus and assigned a new judge for my future hearing.

Respectfully,

Rash B. Ghosh

Dr. Rash B. Ghosh,
Charles Townes Professor of Water Chemistry

Dr. Ghosh-I have also left a message on your voicemail as well with your attorney's office phone.

Placer Title has informed me (see below) that you talked with them today and bluntly and summarily refused cooperate with them to advance/close the sale and escrow as ordered by the Honorable Frank Roesch. You are hereby in contempt (again) of the Order(s) of the Alameda Superior Court to cooperate with this Receivership Estate in closing this sale.

Please accept this email as formal and final demand that should you not fully comply with all requests of this Receiver and Placer Title by noon tomorrow I will move to have you appear in front of the Department 24 – Alameda Superior Court-Honorable Frank Roesch and have you answer to him.

Clearly understand that you are to cooperate with this Estate through the successful close of escrow/transfer of the property including but not limited to signature of documents, providing personal information and or anything else reasonably required to close the escrow and transfer the property.

I look forward to you cooperation.

My cell is 916-804-3900- do not hesitate to call me.

P.S. After you got to hear Judge Roesch's comments about "chickens coming back to roost" (re: contempt) –not to mention his multiple Orders to comply–I thought you would cooperate—you still have the chance to do the right thing. I would also mention that this Court and Receiver WILL succeed in closing the escrow and transferring the property but unfortunately at great additional expense (read less $$ to Mazumder) to the estate –not to mention additional personal trauma for you.

Council votes to aid homeowners

BY DOUG GARLEY
DAILY NEXUS STAFF WRITER

The Berkeley City Council on Tuesday night directed its staff to come up with possible programs for those about to lose their homes to foreclosure, including one-time loans, counseling and mandated mediation between homeowners and banks.

The council also asked staff to investigate how hard Berkeley has been hit by the problem of rising foreclosures.

Berkeley foreclosures rose 330 percent, from 10 in the first 10 months of 2006 to 43 in the same period this year, according to DataQuick, a San Diego company that tracks real estate trends.

And the number of Berkeley homeowners behind on mortgage payments who are facing foreclosure rose 85 percent, from 67 in the first 10 months of 2006 to 124 in the same period this year.

"People who own homes may be feeling overwhelmed, and this item is to make them feel that they are not all by themselves," Council Member Darryl Moore said. "We're asking the city manager to come back with some programs and proposals the council can look at."

ACLU
AMERICAN CIVIL LIBERTIES UNION
125 BROAD STREET, 18TH FLOOR
NEW YORK, NY 10004-2400
WWW.ACLU.ORG

ANTHONY D. ROMERO
EXECUTIVE DIRECTOR

Dear Friend,

I am writing with a special sense of urgency to encourage you to renew your ACLU membership.

Seldom in our history have the threats to our civil liberties been more severe or the risks faced by vulnerable people more alarming than they are right now.

Donald Trump, whose proposals show a stunning lack of regard for the Constitution, is in the White House. Positions of power in the administration and in Congress are filled by people with horrendous records on civil liberties. And emboldened extremists are waging assaults on people's fundamental freedoms in state after state.

It is in times like these that the nation counts on the ACLU to vigorously protect civil liberties. In the days and weeks ahead, we have to be ready for anything.

And that's what your renewed support is all about. We need your passion, your energy and your renewed financial support to **wage the strongest possible defense of the Constitution** and the rights it protects. Together you and the ACLU must:

- **Protect the First Amendment and free speech** by challenging efforts to spy on and harass peaceful protestors, intimidate news media, and silence dissent.

- **Defend reproductive rights** by working to stop state by state attacks on access to abortion and birth control, fighting efforts to defund Planned Parenthood, and challenging federal restrictions no longer blocked by a pro-choice President.

- **Stand with vulnerable immigrant families** who could face racial profiling; abusive enforcement; immigration raids in schools, hospitals, and churches; and lengthy detention in private prisons under abominable conditions.

(over, please)

Subject: 1700 Dwight Way and 2507-09 McGee Berkeley Ca Boarding must look like occupied property (not blighted)

Jim Hynes
Deputy City Attorney,
2180 Milvia Street, 5th floor,
Berkeley Ca 94704

March 25, 2009

RE: 2507- 2509 McGee and 1700 Dwight Way

Dear Mr. Hynes:

Yesterday, about 11 a.m., I found that several city employees and the police had been inside my property without my permission since 9 a.m. They told me that I could not continue the work of closing up my property and that I must leave. I was given 20 minutes to gather my papers and go.

Sometime later, you graciously told me that I could have more time, perhaps even an "indefinite" amount of time and you would call me later to confirm this. I was told by building inspector Greg H when I was rescheduling my appointment with him yesterday late afternoon. that I only had two days. However, he asked me to contact you.

I have also been told that the City staff contractors that building doors must be "boarded up." during yesterday's inspection of McGee and Dwight Way buildings. But city officials have told me the building must not look blighted and that putting thick opaque paper or similar materials on the inside of the windows was adequate. Also, yesterday as a new matter, City workers (contracting staff) wanted to put boards across the doors as well which block entry for worker/s at my property

This conflicting communication is confusing. Could you please let me know specifically what must be done, and by when.

Kind regards

Rash B Ghosh
2507 McGee Avenue
Berkeley Ca 94703
Phone 510-5755112

PS. Sorry for wrong spelling of your name in my yesterday's email to you

US Senator Diane Feinstein

QUALIFICATIONS:

Bachelor of Arts in History – Stanford University

Former Mayor of San Francisco, California Senator since 1992

ON THE ISSUES:

WAR: Voted for the Iraq war and continued to fund it; before the invasion gave $1 billion in military contracts to her husband's companies as Chair of the Senate Appropriations Committee; approved Trump's budget request to increase annual military funding by over $50 billion

CLIMATE: Supports fracking in California, which brings heavy methane & CO2 pollution while threatening the state with earthquakes

HEALTH CARE: Opposes healthcare-for-all, while millions of Americans go uninsured and untreated

POLICING: Has repeatedly voted to renew unconstitutional & warrantless mass domestic surveillance

TRUMP: Thinks Trump can be a "good president" and his critics need to be patient with him. Voted to approve Koch-funded Mike Pompeo as CIA Director

Dr. Rash B. Ghosh

QUALIFICATIONS:

PhD from the University of Salford

Decades-long career as Scientist and Inventor at the Jaganath, Salford, and Stanford Universities as well as the California DHS and EPA

ON THE ISSUES:

WAR: Dr. Ghosh's Number One Priority is to redirect the hundreds of billions of dollars spent annually to fund pointless wars towards providing jobs and public services at home

CLIMATE: With 40 years experience in water politics and as a climate scientist, has the scientific expertise necessary to truly protect our planet's health for generations to come

HEALTH CARE: Supports healthcare-for-all to support the millions of Americans who go uninsured and untreated

POLICING: Opposes warrantless mass surveillance and supports the need for comprehensive judicial reform to ensure accountability and racial justice

TRUMP: Will unapologetically oppose Trump's agenda, including discriminatory immigration policies, erosion of climate protections, and warmongering

State Senator Kevin De Leon

QUALIFICATIONS:

Bachelor's in Political Studies from Pitzer College

Former California Assemblyman, Current California State Senator & President of the Senate

ON THE ISSUES

WAR: Says no to war, but has accepted more than $20,000 in campaign funding from corporate military contractors

CLIMATE: Has accepted more than $50,000 in campaign funding from oil companies, auto manufacturers, and big banks invested in fossil fuels

HEALTH CARE: While supporting healthcare-for-all, has accepted more than $30,000 in campaign funding from the pharmaceutical industry profiting from privatization

POLICING: Has accepted more than $40,000 in campaign funding from three of California's largest police unions

TRUMP: Promises to more strongly oppose Trump, but accepts campaign funding from many of the corporations backing him

VOTE RASH B. GHOSH for California Senator – A Truly Progressive Leader who is NOT backed by the corporations responsible for the problems we face today

EMBASSY OF THE
PEOPLE'S REPUBLIC OF BAI
3510 International Drive
Washington, D.C. 200

No. BEW/POL/029

31 July 2007

Honorable Tom Bates
Mayor, City of Berkeley
2180 Milvia Street, CA 94704

Dear Mr. Mayor,

Please accept greetings from the Embassy of Bangladesh in Washington, DC.

Congratulations on your good work in reducing the greenhouse gas emission from municipal sources by 14% and on being named as the third most sustainable city in the United States, and numerous other initiatives taken by you to improve the life of the citizens of Berkeley.

You may kindly be aware that Dr. Rash B. Ghosh, housed at 2507 McGee Avenue, Berkeley and operating the activities of International Institute of Bengal Basin (IIBB) from the same address for over last ten years with permission from appropriate authority. It is worthwhile mentioning that, Dr. Ghosh has dedicated his life for improving the Bengal Basin's water resource and environment. The IIBB is working on reducing the impact of toxics, improving water quality and advocating for the environment and women rights for about two decades, focusing on Bangladesh and West Bengal State of India. The same property is also housing a Temple, a religious shrine for the Hindu Community residing in Berkley.

Unfortunately, Dr. Ghosh has received notice from the City Attorney's Office to demolish the property and to give the property to a developer for reconstruction, which is beyond his financial ability.

In view of the above, you are requested to reconsider the decision considering the financial constrain of Dr. Ghosh, save the Temple from demolition and help the non profit IIBB in minimizing the need for expensive structural change of the property at 2507 McGee Avenue.

Please accept, Mr. Mayor, the assurance of our highest consideration.

Yours Sincerely,

(Golam Sarwar)
Political Minister

Subject: Request to investigate the illegal takeover of the property of a retired senior scientist that also served as facility and non-denominational temple of the IIBHB, a non-profit organization in Berkeley

Dear Attorney General Holder:

I would very much appreciate your consideration of the case of my friend and colleague, Dr. Rashbihari Ghosh's long standing housing dispute with the City of Berkeley, California that resulted in the loss of his residence, temple and non-profit facilities for the last four years. More recently, on June 16, 2011, Dr. Ghosh was arrested without being served a warrant, which is another instance of action against him by the City.

I have written to the Berkeley City Council in 2006 and to the East Bay United Nations Association in 2007 on behalf of Dr. Ghosh but have not received any response. The Governments of Bangladesh and Indian and US Small business administration Ombudsman have also written to the City of Berkeley on his and the Institute's behalf (see attached letters A). I have attended meetings and events at the commercial buildings and also at his residence, a corner property at McGee and Dwight Way, which is a prime property in Berkeley. Dr. Ghosh retired in early 2000 from California Environmental Protection Agency to pursue his non-profit work to address the global water crisis

Dr. Ghosh and his tenants were evicted by the City of Berkeley without notice or due process from their residence at 2507-09 McGee St. on September 6, 2007. Before that, on August 29, 2007, the City of Berkeley suddenly closed 1700 Dwight Way, the commercial building adjacent to the McGee residence, which was also used as event/activity center by the non-profit organization, the International Institute of Bengal and Himalayan Basins (or IIBHB) founded by Dr. Ghosh. I served as an advisor of the Institute and have known Dr. Ghosh and been familiar

with his work for more than 11 years. Dr. Ghosh is a well-qualified scientist, a person of great integrity, and a good man. His work was supported by his PhD supervisor Professor W.E. Kershaw (world leading expert in tropical medicine and water borne diseases) as well as Nobel Laureates Linus Pauling and Glenn T Seaborg and me. Recently, his former colleagues from Stanford Nobel Laureates Douglas Osheroff and Martin Perl and my wife, Frances Townes (human rights activist), joined IIBHB in a seminar to discuss the global water crisis.

It is very unfortunate that because of the closure of his residence and commercial buildings, the operation and activities of IIBHB have slowed down immensely for the last four years. Moreover, Dr. Ghosh's technical and professional contribution to the Institute have been greatly hampered by all the legal matters and financial costs associated with his legal battle with the City of Berkeley.

Dr. Ghosh invested a great deal of money and tried his best to comply with the City of Berkeley's demands for the second time (because the city did not honor their first; please see my first letter to the city council), but until now he does not see any immediate solution to return to his home as well as to open his commercial building for IIBHB's use. I understand from Dr. Ghosh that his repair work, as demanded by the City of Berkeley, has been completed except for cosmetic work. But the City has seized the property and denied him access to continue the work. I was also informed that his residence (duplex) passed Federal Housing inspections but the city has been placing road blocks against his going back to his house. This has already costs him much in mortgage, taxes, insurance and other expenses and this does not include the revenue lost through rental income. He indicated that he has spent almost $500,000 to address the city's unreasonable demand and Dr. Ghosh is now on the verge of foreclosure (Dr. Ghosh will provide detailed information, and evidence to your office immediately upon your instruction).

Added to this, because of the absence of a stable residence for him, Dr. Ghosh's health has deteriorated significantly and his physician has repeatedly certified that he needs reasonable accommodation and stable living conditions. I asked Dr. Ghosh to send these letters from his physicians and the Aging Department of the City of Berkeley directly to your office. The reasonable accommodation requests from Dr. Ghosh's physicians were repeatedly refused by the city. Given that Dr. Ghosh is also a senior citizen, this request is all the more urgent.

To date, Dr. Ghosh's legal recourse has been limited. He has not been able to find a lawyer willing to mount an effective and unrestrained defense for his property rights. Dr. Ghosh has taken his case to local authorities including the U.S. Small Business Administration Ombudsman and other recommended agencies by the U.S. Justice Department. The USHUD advised that the Justice Department is the right agency. Dr. Ghosh wrote to you in March 2009 requesting assistance.

I would be grateful for your assistance in the investigation and resolution of this matter so that (a) Dr. Ghosh can return to his home together with his tenants and (b) IIBHB can resume its good work and activities. Perhaps a letter from you to the Department of Justice urging the City of Berkeley to promptly settle the case of Dr. Ghosh, the temple, and the IIBHB would incline the city to find an equitable resolution of this injustice, illegal takeover, and violation of property rights. Perhaps a letter from you might remind the city of its lawful obligations to its citizens and after nearly four years of impasse to allow Dr. Ghosh to return to his home as soon as possible.

The IIBB is dedicated to helping people both here and abroad, has been supported by three Nobel Laureates -- namely Linus Pauling, Glenn T. Seaborg and myself. It helps provide improved environments, clean drinking water, human, and housing rights to millions of people. I urge you to help the IIBB and its facility by preventing the City of Berkeley from taking the property from its rightful owner and assist the institute to perform its good work.

Sincerely,

Chas. H. Townes

Nobel Laureate Charles Townes
Advisor of IIBB

EMBASSY OF TH
PEOPLE'S REPUBLIC OF B
3510 International Driv
Washington, D.C. 20

No. BEW/POL/029

31 July 2007

Honorable Tom Bates
Mayor, City of Berkeley
2180 Milvia Street, CA 94704

Dear Mr. Mayor,

Please accept greetings from the Embassy of Bangladesh in Washington, DC.

Congratulations on your good work in reducing the greenhouse gas emission from municipal sources by 14% and on being named as the third most sustainable city in the United States, and numerous other initiatives taken by you to improve the life of the citizens of Berkeley.

You may kindly be aware that Dr. Rash B. Ghosh, housed at 2507 McGee Avenue, Berkeley and operating the activities of International Institute of Bengal Basin (IIBB) from the same address for over last ten years with permission from appropriate authority. It is worthwhile mentioning that, Dr. Ghosh has dedicated his life for improving the Bengal Basin's water resource and environment. The IIBB is working on reducing the impact of toxics, improving water quality and advocating for the environment and women rights for about two decades, focusing on Bangladesh and West Bengal State of India. The same property is also housing a Temple, a religious shrine for the Hindu Community residing in Berkley.

Unfortunately, Dr. Ghosh has received notice from the City Attorney's Office to demolish the property and to give the property to a developer for reconstruction, which is beyond his financial ability.

In view of the above, you are requested to reconsider the decision considering the financial constrain of Dr. Ghosh, save the Temple from demolition and help the non profit IIBB in minimizing the need for expensive structural change of the property at 2507 McGee Avenue.

Please accept, Mr. Mayor, the assurance of our highest consideration.

Yours Sincerely,

(Golam Sarwar)
Political Minister

Mr. Zach Cowan
City Attorney
City of Berkeley
2180 Milvia St., 4th Floor
Berkeley, CA 94704

Dear Mr. Cowan:

As a friend and associate of Dr. Rash Ghosh, I am appealing to your sense of justice by stopping the sale of Dr. Ghosh's property at Dwight Way and McGee St. in Berkeley. This commercially viable real estate is being sold at one sixth of its estimated value. The property in question was also the facility used by the non-profit, International Institute of Bengal Basin (IIBB) for its activities in addressing the global water crisis and reducing toxics in drinking water worldwide.

Dr. Ghosh has invested his life savings in this property. For the past several years, since it was suddenly closed by the City, Dr. Ghosh has been endeavoring to meet the City's requirements in the hope that that he can continue the repair work in this property but until now he was not allowed to do so. And now, in spite of all these efforts in good faith, and even after depositing $160,000 in cash to the receiver's escrow account (value of the accepted bid to repair the property), the city through its receiver, is attempting to sell the property.

It will be a great injustice if the IIBB is not allowed to continue its good work. I believe the city should also help its citizen protect their housing rights.

I therefore request you to stop this sale and allow Dr. Ghosh to repair his property so he can return to his home. He deserves this consideration. He is retired, over 65 years old with many health problems and has done outstanding community service through his non-profit work.

Thank you and I hope you give this matter your utmost attention.

Sincerely,

Chas. H. Townes

Prof. Charles Townes
Nobel Laureate
