Assalamu alaikum dear parents,

For 26 years, my family and I have been blessed to raise four children, and our community Islamic school has been an important part of that journey. It has taught us how deeply responsible we are for the future of our children and our community.

I am honored to be nominated as your parent representative. My priority will be to listen carefully to your ideas and concerns and to work, collaboratively with the administration, teachers, and Board in the best interests of our children.

I am deeply grateful to the founders whose sacrifices made this school possible. I hope to honor their vision while building thoughtfully upon their work.

I bring more than two decades of experience in medicine, caring for children and families, community service, and leadership. Alongside this experience, my study of the Qur'an and Islamic history continues to shape my understanding of education. I believe academic excellence and Islamic values should go hand in hand, helping our children grow into confident, grounded young Muslims.

Our children are growing up in a rapidly changing world, and our school has an opportunity to prepare them thoughtfully for the future. I would like to see us embrace technology and artificial intelligence in ways that directly support student learning and development. This includes building digital literacy, using AI to support research and creativity without replacing critical thinking, protecting students' privacy and well-being, and reinforcing honesty, responsibility, and academic integrity. By teaching our children to use these tools wisely and ethically while remaining rooted in Islamic values, we can help prepare them for future education, careers, and meaningful service to their communities.

May Allah guide our school, bless our children, and grant us wisdom and sincerity in serving them. Ameen.

Jazakum Allahu khayran.

Ahmed Abobaker
