

D.J.MACKENZIES LTD

ACCIDENT REPAIR CENTRE

ADAS Statement

Modern cars are developing new safety features at an unprecedented pace.

Your safety is of the paramount importance to us and DJ Mackenzies Ltd have invested heavily to remain at the forefront of these developments.

Advanced Driver Assistance Systems (ADAS) are latest safety critical advancements. If your vehicle is fitted with ADAS it may need to be re-calibrated after a repair but rest assured DJ Mackenzies Ltd have the latest Diagnostic equipment to be able to re-calibrate and reset these systems back to the Manufacturer standard

Using data from either your vehicle manufacturer or our latest vehicle diagnostic system we can identify what systems are fitted to your vehicle. If we have repaired an area around ADAS components and the vehicle manufacturer recommends re-calibration post repair this will be completed by one of our qualified technicians complying with the IRR** standards

** IRR standards – UK Insurance Industry Requirements details can be found at <https://www.thatcham.org/insurance-industry-requirements/>
