About MicroMeans, Inc.

Our History

MicroMeans began in 1983 as a reseller for Unisys. We have since grown into a full service turnkey systems provider for the wholesale distribution industry. By the early 1990's, we had hundred's of satisfied clients in manufacturing and physician health care industries as well.

Our Mission

To provide quality software and hardware solutions that help our clients gain a competitive edge. Backed by the best service and support in the industry, with the attitude and experience to make it happen.

Our Philosophy

To be proactive rather than reactive. Anticipating problems before they occur allows our clients to maintain continuity of business. Keeping educated on the latest technological advances allows our customers to have a competitive edge in the marketplace.

Our Expertise

Software for distribution, medical and CRM applications.
All Microsoft Back Office applications and storage solutions.
Network Design and Implementation for LAN's and WAN's.
Programming Services for a variety of applications.
Managed servers and networks in a secure environment.
Internet Integration Services from Web Design to Remote Access.
Ecommerce solutions and projects
Mobile computing from Smart Phones, PDA's, and Tablets.

■ **So why do Business with MicroMeans?**

Our experience and knowledge in a variety of industries and technologies, from the front door to the back and beyond, makes us a valuable partner.

Regardless of your company or project size we have been helping our clients realize a return on their IT investments and goals.

■ **What can you expect from MicroMeans?**

A professional, organized corporate approach to solve your business needs, but with the comfort and flexibility of doing business with smaller organizations.

An attitude and commitment to see projects to their end.

Service levels that exceed your expectations, with flexible service and support plans to assist you in your budget considerations.

We value our relationship with your company, and we thank you for your consideration.
