

Aledade's Technology Platform: Insight and Action

The Aledade Platform Helps Your Practice Work Smarter Not Harder

What is the Aledade Technology Platform?

- An easy-to-use, cutting-edge, cloud-based population health platform that moves you beyond the limits of your EHR.
- The Aledade Platform empowers your practice to effectively manage the total cost and quality of your patients' care. Without complex installation, our tools integrate seamlessly into your your practice's workflow to turn data into clinical action.
- We implement our technology and provide EHR interfaces at every practice at no cost to you. Our partner practices currently use 50+ EHR systems covering 70% of the Meaningful Use market share.

How will your practice benefit from using the Aledade Technology Platform?

See Beyond the Four Walls of Your Practice

- Connects with local hospitals, health plans, HIEs and your EHR, to provide a comprehensive view of your patients' care.
- Provides real-time alerts when your patients visit the hospital or ED, as well as detailed information on prescriptions, procedures, and specialist visits.

Flag and Track Most Vulnerable Patients

- Identifies and prioritizes your highest-risk patients based on risk score, diagnoses, and psycho-social factors.
- Provides detailed utilization and cost reporting tools to help monitor the total cost and quality of care for your most vulnerable patients.

Build Smart Workflows to Close Care Gaps

- Offers automated worklists to coordinate patient outreach for annual wellness visits, and transitional care management visits.
- Helps you create customized intervention plans for patients with chronic conditions across your care team.

Track Your Outcomes and Progress

- Provides big picture insight on quality and spending for all patients in your practice.
- Lets you track improvements in outcomes, discover changes in care, pinpoint problematic behavior, and prioritize care.
- Tracks the cost and quality of care for all patients, inside and outside your office.

What do Aledade partner practices say about the Aledade Platform?

Clara Dieguez, the Office Manager of South Lake Primary Care in Florida, says,

“The Aledade Platform is powerful and really easy to understand and use. Important information about our patient population that we've never had before is now just one click away.”
